NEW CASTLE FERRIES

Final preparations are being made for the great dual celebration which will be held at New Castle on Tuesday, September 1, to commemorate the opening of the New Castle-Pennsville Ferries, Inc., between these two places and the fiftieth anniversary of New Castle's existence as an incorporated city.

Governors of several States are expected to be in attendance as well as many State officials from New Jersey, Delaware and Pennsylvania. Governor Robinson of Delaware will be the host to the visiting State executives, while there will be a reception committee of officials of the ferry line and the Mayor and Council of New Castle to receive the other visitors.

The indications are that New Castle will have the greatest day in its history. All the people of the community are very much interested in the affair and are exerting every effort to make the celebration a huge success.

In addition to the buffet luncheon, there will be a boat ride across the river on the ferry boat, a baseball game, parade and other features, all of which will give New Castle the biggest day in its history.

The boat will continue in operation after this celebration and the beginning of this service is going to mark a new era in transportation across the Delaware River, giving as it does one of the quickest routes on the river.

STANDARD OIL CO'S. TRAVEL BOOKLET

Interesting Pamphlet Devoted To Motor Travel Through Maryland—Says Wye Oak Is The Oldest White Oak Tree in America—Calls On Tourists To View It — Mentions Washington College.

"Know Your Own State" is the title of a tourist book issued by the Standard Oil Company. It deals with Maryland. Several interesting references are made to Kent county.

The descriptive matter of the Eastern Shore starts when the motorist leaves the ferry at Claiborne. It then says:

"From here a good road leads through Easton to the ocean. Why House near Easton is one of the finest examples of colonial architecture in the country. Hope House, nearby is noted for its beautiful gardens and trees. Easton also contains what is believed to be the oldest frame building still standing in the United States. Records indicate that the Friends Meeting House was built in 1684 making it 241 years old.

"On the way to Chestertown we pass the Wye Oak at Wye Mills. This magnificent tree is 375 years old, has a spread of 140 feet and is the largest white oak in America. Its stately grandeurcalls on the hurrying motorist to pause and forget for a few moments the nerve racking hustle of the times.

Chestertown is the home of Washington College which dates back to 1782. George Washington contributed to its endowment, was on the board of Governors and Visitors and here he received the degree of Doctor of Laws in 1789.

THE DEER LAW

The Maryland State Game department through the local game wardens have asked us to make note of the fact that there is a State law against killing deer in Maryland. Therefore the wild deer in the upper part of Kent should not be killed.
