OLD FRIENDS DAY AT ST. PAUL'S

Many attended the first annual celebration of "Old Friend's Day" at St. Paul's P. E. Church Sunday morning and evening, and were interested in the program which had been arranged by a special committee of the church. At 11 o'clock, the sermon was delivered by Rev. D. Peregrine Wroth, rector of the church of The Messiah, Baltimore, and special music was rendered by the church choir, augmented by voices from Emmanuel P. E. Church, Chestertown, and Jerry Dunn, baritone, of Baltimore.

Following a basket luncheon, served under the great oaks, in the beautiful church yard, at 1 o'clock, the afternoon session was devoted to addresses of greeting by visiting clergymen, among them being Rev. Samuel Borden Smith, of Trappe, Talbot county; Rev. Sewell S. Hepburn, retired rector of I. U. parish, Kent county, and Rev. John W. White, the new rector of St. Paul's and I. U. A letter of greeting was also read from Rev. S. R. F. Gray, a former rector of St. Paul's, now stationed at Dundee, Ill., and greetings were delivered from Bishop George Davenport, of the Diocese of Easton, who was unable to attend the celebration. Among the distinguished guests present were: Folger McKinsey, the Bentztown Bard, of The Baltimore Sun, who has frequently memorialized the historic oaks in the ch yard in verse, and Percy G. Skirven, of Baltimore, whose historical writings contain much of interest pertaining to the early history of the parish. The occasion will be made an annual event of historical interest to Protestants in all sections of the peninsula.

THE TREES OF OLD ST. PAUL'S
By Mrs. Fred, B. Westcott, Rock Hall.

Massive oaks, whose great wide sheltering arms
Tower above the ancient ivied walls—
Two hundred years or more—one half
their life
They've breathed a blessing over Old St. Paul's.
Before the church was built those trees were old
And like a faithful priesthood they have served,
Through generations passed and turned to mold
Yet, never from their mission have they swerved.
Within this church, the prayers have never ceased,
Tradition lives—no transient people these,
The oldest parish names still live today,
Descendants worship here beneath the trees.
A venerable shrine is this: the trees,
The church, the hold dead beneath the sod
And over all there rests a sense of peace
As though touched by the loving hand of God.

COULD NOT PUT ON HER SHOES

Mrs. Daugherty Was so Weak

In a little town of the middle West, was a discouraged woman. For four months she had been in such poor health that she could not stoop to put on her own shoes. Unable to do her work, unable to go out of doors or enjoy a friendly chat with her neighbors, life seemed dark indeed to Mrs. Daugherty.

Then one day, a booklet was left at her front door. Idly she turned the pages. Soon she was reading with quickened interest. The little booklet was filled with letters from women in conditions similar to hers who had found better health by taking Lydia E. Pinkham's Vegetable Compound.

"I began taking the Vegetable Compound," Mrs. Daugherty writes, "and after I took the third bottle, I found relief. I am on my eleventh bottle and I don't have that trouble any more, and feel like a different woman. I recommend the Vegetable Compound to everyone I see who has trouble like mine, and you can use these facts as a testimonial. I am willing to answer any letters from women asking about the Vegetable Compound."—MRS. ED. DAUGHERTY, 1308 Orchard Ave., Muscatine, Iowa.

You Can Build a 40 Year Roof and Time-Defying Side-Walls

Save Repainting and Repair Bills

For New Work Reshingling Remodeling

One concern responsible for both quality of shingles and stain

Make your plans to build now

IF YOU USE
"CREO-DIPT"
STAINED SHINGLES

This material—for side walls as well as roofs—is preserved against time and weather by a special process of creosoting and staining in fast colors. Creosote oil drives the colors deep into the wood fibre so that they do not wash or fade out in streaks. The soft tones give charm to your home.

"Creo-Dipt" shingles on side walls cost less than most other building materials especially when you consider the saving in painting and repairing. "Creo-Dipt" shingles on roofs do not curl, split or pull out because the wood is preserved and does not rot around nail holes.

Prominent architects throughout the country use "Creo-Dipt" Stained Shingles for economy and for building effects.

Come in and select from our stock of attractive colors, or phone us and we will call with samples.

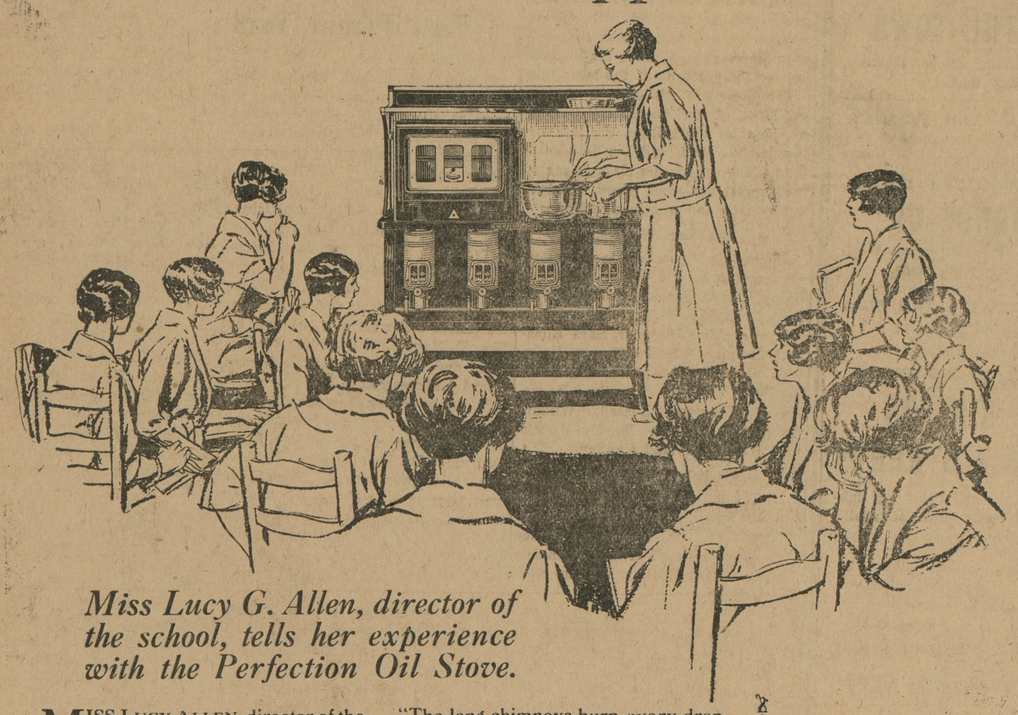
BOSTON SCHOOL of COOKERY
Tests and Approves



Miss Lucy G. Allen, director of the school, tells her experience with the Perfection Oil Stove.

MISS LUCY ALLEN, director of the conservative Boston School of Cookery, is one of six famous cooks who recently put the Perfection Stove to a rigorous, practical cooking test. Like the other five famous cooks, Miss Allen cooked by every cooking process, and gave us her opinion of the Perfection.

Uniformly Good Results

"I cooked many meals on the Perfection Stove," says Miss Allen. "The results, whether using the top of the stove, the oven, the broiler, or the toaster were uniformly good. There were several features sufficiently pronounced to recommend the stove to the most particular people.

Easy to Work on

"The Perfection is an easy stove to work on. There is no reaching across several hot plates, as there is with a gas or coal range.

"The flame never varied from the point at which it was set, whether it was low for stewing down pumpkin or high for baking beans several hours.

Clean Kettles

"There was no black deposit on the cooking utensils, even when the high, yellow tipped flame was used for broiling steak.

"The long chimneys burn every drop of oil completely before the heat reaches the utensils.

"We were so well pleased with the 1926 Perfection Stove, both as to results and operation, that after completing the test we kept it to use for auxiliary work in our classes," she concluded.

* * *

Tested and approved by the Boston School of Cookery! That means that the Perfection was used under all possible cooking conditions—for slow cooking, for fast cooking; for baking, for frying, and for broiling. In every case it was found efficient.

Six Cooks Agree

The other five famous cooks who tested the Perfection were enthusiastic, too, about the results obtained. And, every day 4,500,000 women get real cooking satisfaction from their Perfections.

See these 1926 Perfections at any dealer's. All sizes from a one-burner stove at $6.75 to a five-burner range at $120.00. When you cook on a 1926 Perfection, you, too, will be well pleased with it.

PERFECTION STOVE COMPANY
Cleveland, Ohio

Clean, Even Cooking Heat

The long chimneys of the Perfection burn every drop of the oil before it reaches the kettle. Thus you get clean, even cooking heat free from soot and smoke.

You can be doubly sure of this sort of heat when you use a pure water-white Kerosene that burns cleanly, evenly and without odor —"Standard" Kerosene. It is specially refined.

All impurities that might cause smoke or leave deposits of soot are removed. This assures the maximum amount of heat. By sticking to "Standard" Kerosene you are sure of best results from your Perfection. Insist on it. You can buy it anywhere.

Nothing Beats Good Old Epsom Salts

Now supplied in Tablet Form and Sugar Coated—Called Dill's Epso-Tabs

Everyone ought to get the wonderful cleansing benefits of Epsom Salts at regular intervals. The trouble has always been that only a few could take them without getting sick and nauseated.

Now science has come to the rescue and perfected a sugar coated tablet of Epsom Salts with a special coating of Salol—the greatest intestinal antiseptic in all medicine. Druggists and dealers everywhere are being supplied with this new tablet as fast as possible.

To insure getting the genuine Salol coated Epsom Salts compound tablet—specify Dill's Epso-Tabs. All dealers dispense a large box for 25 cents. Nevtangled and habit forming laxatives will have to go now. Activate your liver—cleanse the blood and intestinal tract with Dill's Epso-Tabs. The Dill Company, Norristown, Pa.
