MARYLAND LEGISLATURE AGREE ON ITS MAIN OFFICERS

The Legislature met in regular session Wednesday and put thru the slate agreed upon the night before as follows:

Senate

President—David G. McIntosh, Jr., Baltimore county.

Secretary — Emerson R. Crothers, Cecil county.

Assistant Secretary — Albert C. Bowers, Charles county.

Reading Clerk—C. Andrew Schaab, Howard county,

Journal Clerk—R. Lee Hall, Prince George's county.

Assistant Journal Clerk — Marion McKee, Baltimore city.

Sergeant at Arms—Wm. G. Robinson, Baltimore city.

Chief Page—John Wagner, Baltimore city.

House of Delegates.

Speaker — E. Brooke Lee, Montgomery county.

Chief Clerk — Albert J. Almoney, Montgomery county.

Assistant Chief Clerk — Lewis F. Abell, St. Mary's county.

Reading Clerk — Clarence Wolfe, Baltimore city.

Journal Clerk — Charles E. Simpson, Talbot county.

Assistant Journal Clerk — Thomas J. Murray, Cecil county.

Sergeant at Arms — Frederick Kemper, Baltimore city.

Assistant Sergeant at Arms—Harry C. Butler, Queen Anne's county.

Chief Page—Charles E. Cole, Baltimore city.

John M. Dennis, State Treasurer, was renominated by a joint caucus of the Democratic members of the Senate and the House of Delegates at night, and will be elected next Tuesday, as the Democrats are largely in the majority. The Republican caucus made no nomination for this office.

After hearing the Governor's message both Houses adjourned until next Tuesday night in order to give the presiding officers time to name their committees. It is considered settled that Walter J. Mitchell, of Charles county, will be named chairman of the Senate Committee on Finance, which will make him Democratic floor leader of that body, and that Lansdale G. Sasscer, of Prince George's county, will head the Committee on Judicial Proceedings.

The chairmanship of the Ways and Means Committee of the House seems still in the woods, also that of the Judiciary Committee. Mr. Lee, the prospective Speaker, said that he had made no tentative selection.

DR. PERRY RESIGNS

Dr. Albertus Perry, who has been field vice-president of Washington College since the first of November, 1924, has resigned to accept a more lucrative position with Washburn College, of Topeka, Kansas.

Dr. Perry's connection with Washington College ceases February 1st at which time he is employed by a Tourist Agency to go on a winter cruise to Palestine to give some fifteen lectures on the Holy Land. Mrs. Perry goes with him.

He will return sometime late in March and will take up his work with Washburn College on April 1st next. For the time being his labor will be in the East rather than in the West although eventually he and Mrs. Perry will go to Topeka to live.

Washington wishes Dr. Perry Godspeed in his new work. He has been an indefatigable servant of the institution. Very largely it is due to him that the attitude on the Shore toward the College is gradually changing from one of coldness and indifference to one of sympathy and interest. He has laid a splendid foundation for the future success of Washington College.

THE HOME YEAR

The year 1926 has been prosperous and quiet. There has been work for all; good wages, good living, a surplus for pleasure and for investment. It has been an extraordinary year, for building and enjoying homes.

Sometimes one forgets the greatest blessings, in the glamour of a great emotion, the fear of a great evil, the toil of a great emergency; just as in the rush of business one may temporarily forget the home.

But home love outlasts the furious passion, bitter hate, fear and toil; it is still a benediction when other things bring only remorse and the memory of dead hopes, lost opportunities.

Just so, the quiet home year 1926 will outlast the storm of war of reconstruction hate that mars the trying period so lately past. It will go into history, and into the national consciousness, as a great Home Year.

A DREAM COMING TRUE

"In the United States the task of putting the agricultural workers on an even footing with the industrial and commercial workers of the cities is everywhere well under way. American business initiative and American inventive genius brought together under state-regulated private ownership, are fast overcoming obstacles to general rural electrical distribution that were once deemed insurable. The goal is yet distant, for many problems must be solved before the United States will be able to boast of 1,500,000 electrified farms; but unless politics is permitted to dull initiative and paralyze energy, that day will come far sooner than we at present dare to hope. The soul of America is in the electrical industry, and even now there are men who dream of a nation from whose every farm drudgery has been banished by the magic current that frees labor as it enriches lands." —W. E. Creed, Pres., Pac. Gas and Elec. Co.
