Mul in's Have Taken The Tax Out of Tuxedos

Long before President Coolidge or Secretary Mellon thought about reducing income taxes for the current year, Mullin's decided to whittle down the cost of quality Tuxedos so that every man could enjoy the luxury of owning one without taxing his pocket-book.

We have done it.—You come in and see how!

Now You Can Wax-Polish All Your Floors and Linoleum

" Easily—Electrically—ten times faster than by hand "

Gleaming waxed floors are no longer a luxury—NOW you can have their radiant glow in every room. The new Johnson's Wax Electric Treatment makes WAX the most economical of floor finishes. This treatment takes only a few minutes—there is no hard work — no stooping or kneeling — no messy rags and pails. It won't soil or roughen you hands! And it saves you all the bother and expense of frequent refinishing.

This Johnson's Wax Electric Treatment is so easy anyone can use it. Just spread on a thin coat of Johnson's Polishing Wax with a Lamb's wool Mop. This cleans as it waxes. Then run the Johnson Electric Polisher over the floor and let ELECTRICITY do all the work. This Electric Floor Polisher is much easier to run than a vacuum cleaner—it glides along silently, smoothly, leaving a path of beauty behind it. You don't need to push the Johnson Electric Floor Polisher.

It makes no difference whether the floors are old or new—of wood, linoleum, tile or composition. Nor how they are finished — with varnish, shellac, wax or paint.

You can rent this Electric Floor Polisher for $2.00 a day and in just a short time give all your floors and linoleums this beautifying wax treatment.

Benjamin. 1 year Rep., W. C. Benjamin; 1 year Alt., H. G. Blyman; 2 year Rep., J. W. Barnes; 2 year Alt., R. F. Elburn.

NEW PROFESSOR AT WASHINGTON COLLEGE

Because of the dfficulty of securing at this time of the year a professor of science to take up the work so ably carried on by Professor A. Roy Woodland, who has resigned to go into business with his brother-in-law, Washington College feels itself fortunate to have secured the service of Dr. Viola A. Graham, of Cornell University, Ithica, New York.

Dr. Graham was born in Mississippi and spent some of the years of her girlhood in Virginia, the native state of her mother. She attended Cornell University at Ithica, however, from which institution she has received successively the degrees of A. B., A. M., M. S., and Ph. D. In working for her doctorate she majored in bio-chemistry. This fact qualifies her in an unusual way for the work which she is to do at Washington College.

Dr. Graham taught several years in a private school in New York City and for the last five has been an instructor in chemistry in Cornell University from which institution she comes with the very best of recommendations relative to her character personality, knowledge of subject matter, and instructional ability.

A good cold weather starter now more *dependable* than ever

Probably no single feature of Dodge Brothers Motor Car has been more widely talked about and commended than the power and promptness of the starter.

The *new* two-unit starting and lighting system now advances Dodge Brothers leadership in this important respect still further.

There are now no moving starter parts when the car is in motion—no starter chain—no noise—no wear. The new starter is even more DEPENDABLE than the old, and far simpler and more compact in construction.

Many other major improvements have been added during the past twelve months, all vitally affecting performance and increasing value far beyond the apparent measure of current Dodge Brothers prices.
