Total	$68,749.62

Discovering a Perfume

The celebrated perfume known as "attar of roses" was discovered quite by accident, says Marcus Woodward, the naturalist, in Tit-Bits. The story goes that a certain princess once filled a canal with rose-water. The heat of the sun disengaged the essential oils, which floated on the surface and proved to be deliciously scented.

Then Spring Arrives

The pussy willow, probably more than any other tree, tells the people of both city and country when spring is here, says the American Tree association. During a brief period of spring it gives the chief touch of beauty to the landscape through its fine display of yellow blossoms that are visited by thousands of bees.

DR. JULIAN T. POWER
OPTOMETRIST
CHESTERTOWN, MD.

In office at Chestertown every Monday, Wednesday and Saturday; Office hours 9 a. m. to 5. p. m.

Announcement

We hereby announce the Fall schedule of the

POWER BOAT GEISHA
Effective Sept. 21, 1927
BALTIMORE TO ROCK HALL
SCHEDULE

Baltimore to Rock Hall daily, 2.30 p. m. Rock Hall to Baltimore daily, 7.30 a. m.

Rock Hall to Baltimore, Saturdays, 7.30 a. m., 5.30 p. m.

Sunday, Baltimore to Rock Hall, 9.00 a. m.

Sunday, Rock Hall to Baltimore, 5.00 p. m.

Monday, Rock Hall to Baltimore 10.00 a. m.

Monday, Baltimore to Rock Hall 7.00 a. m., 2.30 p. m.

This boat is equipped for up-to-date passenger service.

Pier 4 Pratt St.
Wharf Phone: Calvert 1046.
Office Phone: Plaza 5047.
Residence Phone: Ham. 3110.

How Crops Are Hastened

Lettuce was ready for market in March from an outdoor garden in Sweden this year, a result of heating the soil with electricity. That the product may be matured earlier is considered a probability and further tests are planned. A main object is to obtain a ground temperature which will correspond to the comparatively high air temperature in spring says Popular Mechanics Magazine.

Royalty in Fishes

The whale and sturgeon are known as "royal fish" because they belong to the king of England when washed ashore or caught near the coast.

No British "Empire"

The name "British empire" is not official. It is, however, the popular and convenient term used to designate the aggregation of more than 125 territories and separate governmental units under the British crown. The king of England is not spoken of as the "emperor of the British empire."

River Drains Big Basin

The Columbia river drains a basin of 259,000 square miles. This river system is said to contain at least one-third of the water power available in the entire United States.

Long-Life Trees

The white oak, button-wood, white pine and hemlock are long-lived trees, says the American Tree association, and the poplars, willows, some cherries, and a few oaks are short-lived. Some of the sequoias of California exceed the 3,000-year mark, and the big cypress tree of Tule, growing in the state of Oaxaca, Mex., has been estimated from 4,500 to 5,000 years.

Period of Growth

Not all trees begin to grow at the same time. Some begin early in spring, while others delay starting their growth until late April or early May, says the American Tree association. The wild black cherry starts about the first of April, while the tulip tree or yellow poplar does not begin until late in April, and the Norway spruce waits until early in May.

Everything you WANT or NEED in America's Fastest Four

Everything that you want or need in a modern motor car.

Speed swiftly attained, and maintained for hours with effortless smoothness.

Luxury that makes a ride a rest, chiefly because this Four has the longest springbase of any car under $1000.

Style that draws admiring glances. Streamline contours. Smart lacquered colors.

Economy at the curb and on the road. 17½ feet are plenty for parking. One gallon of gasoline yields 25 miles at 25 miles per hour.

Low price, and Dodge Brothers special purchase plan, make America's Finest Four today's greatest "buy."

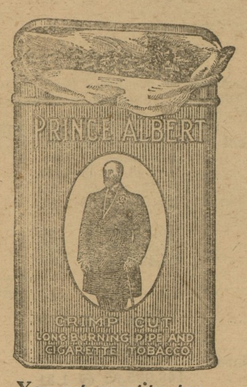
I've just got to tell somebody

NO, I'M not going to be married. Neither have I fallen heir to a lot of money. But I *have* discovered the one tobacco that makes a pipe come through a thousand per cent—Prince Albert!

Yes, Sir, Prince Albert—the world's largest-selling brand. I was sitting with a fellow-commuter the other morning, when he was filling his pipe from a bright-red tin. I got a whiff of that tobacco and said: "Do you mind if I borrow a load?" He passed the tin over, and I filled up and lighted up.

I never tasted anything so good in my life. It was wonderfully cool and sweet, with a mildness I had never met before in a pipe-tobacco. Mild, as I say, yet it had that rich, rare body that put satisfaction into every pull. What a taste!

I could hardly wait till the train pulled in to get me a supply. I've smoked enough of this cool, mild, long-burning tobacco to know that it gives you deep-down contentment in every load. Try Prince Albert. You'll say so!



You get quantity, too, with P.A.—TWO full ounces in every tin.

PRINCE ALBERT

—no other tobacco is like it!
