5 % Interest on Farm Loans

Since the 5 Per Cent interest rate for farm loans became effective, the Kent and Queen Anne National Farm Loan Association has received applications for loans totaling $73,000, showing the increasing popularity of this cooperative means of securing money.

If you are carrying a 6 per cent mortgage on your farm, which never grows less, why not transfer it to the Federal Land Bank and get the benefit of the 5 per cent interest rate, which reduces your mortgage principal every year.

If you desire to purchase a farm, the Federal Land Bank will finance the loan to the extent of 50 per cent of the purchase price at 5 per cent interest.

No better means of financing farm loans has ever been offered than that afforded by the Federal Land Bank.

Come in and let me talk the matter over with you.

LOOK AHEAD

Buy a McCormick-Deering Tractor now for many years of successful power farming.

Power farming with the McCormick-Deering Tractor is more pleasant. The chore requirements of a Tractor are less than those of horses and more agreeable.

A Tractor needs attention, but only a fractional part of that required by horses for the same work.

A Tractor operator controlls more power, enabling him to qo more work in a given length of time than can be done with horses. Field days can be made longer when emergencies arise—the Tractor does not tire and chore time is eliminated.

See the FARMALL the new all purpose Tractor. Turns in a radius of 8 ft.

40 miles per hour—when NEW
62-mile speed later!

DUE to advanced engineering, precision workmanship and fine quality materials, the new American Edition of the Erskine Six may be driven at 40-mile speed the day it is delivered to you—62-miles-an-hour later on.

This means far more to you as an Erskine owner than simply eliminating the tedious driving of a new car at 20-miles-an-hour for the first 500 to 1,000 miles. It means that Erskine engines are carefully seasoned on the dynamometer—that every part is subjected to the most rigid inspections—that your Erskine has been assembled with fine-car precision. Such cars heretofore have been found only in the luxury-price class!

Proof of these qualities of construction is found in the performance of the new American Edition of the Erskine Six at the Atlantic City Speedway. Here a stock Erskine sedan traveled better than 54 miles per hour for 24 consecutive hours, establishing itself as champion of its price class. No stock car priced under $1,000 has ever equalled this record.

Try out this new Erskine Six for yourself! A bigger, roomier car—doors nearly a yard wide—rear seats 4 feet wide—shock absorbers. A more powerful car — brilliant 6-cylinder performance with thrifty gas and oil consumption—amplified-action 4-wheel brakes.

A sensational, low-priced, fine-car value worthy of the 76-year-old Studebaker tradition.
