Regimental Head Quarters,
Circus, Sept. 21, 1814.

Baltimore Independent Cadets.

"War is a science for the learned—a trade for the ignorant"—VICTOR MOREAU.

A Fairer opportunity to the youth of Baltimore, particularly to those under military age than the present, will perhaps seldom again occur to acquire practically and theoretically a complete knowledge of the art of war, based on the immutable principles of science. Already more than four hundred and fifty youths, panting for fame in the field of honour, have enrolled themselves, and have solicited the friend of Moreau, to become their colonel, as well as instructor, to which request he has acceeded knowing that theory can only be supported by practice. The *Baltimore Independent Cadets,* will assemble on the 25th instant, at 4 o'clock, P. M. at the Circus, to receive necessary instruction and to pass in review before their commander, who will spare no pains to instruct them in the science so necessary to be acquired, to protect their rights and liberties against the innovations of any daring invader. The conspicuous posts of danger, of honour and of trust which their contemplated colonel has held for many years in the armies of Europe, has long since enrolled his name among the brave defenders of his country, and the various marks of esteem bestowed upon him by the Emperor of the French, by the gallant Moreau, and by the French military worthies, may be considered a pledge that his students have not misplaced their confidence, while the patriotic ardour inspired in their yothful breasts consoles him that his instruction will not be given in vain. Patriotic young men, not yet attached to the corps are invited to come forward early, in order to fill up the vacancies that the plan of instruction may be proceeded upon with all speed.—In this country are famous materials for armies, and it only requires them to be officered by men of science and talents to lead them on to victory.

By order of the Colonel,
J. GOVERT,
Acting Adjutant.

OFFICE

Of the Baltimore and Reister's-town Turnpike ROAD COMPANY.

September 10, 1814.

Notice is hereby given, that an election will be held at this office on Monday the 10th day of October next from 9 o'clock in the forenoon 'till 2 in the afternoon of the same day, for one President, eight Managers and one Treasuser, to manage the concerns of the company for the ensuing year.

JOHN F. HARRIS, Sec'ry.

Baltimore, Sept. 5, 1814.

At a meeting of the committee from the several Turnpike Companies, the following resolutions were passed:

Whereas, it appears from an experiment of upwards of two years that the Tolls collected on the several Turnpike Roads leading to the Interior from the city of Baltimore are wholly inadequate to remunerate the Stockholders for the capital sum by them expended in making said roads, and it also appearing that the Turnpike Companies in Pennsylvania have increased the tolls on the several roads:

Resolved, That it be recommended to the President and Managers of the several Baltimore Turnpike Companies, that they at the annual meeting of the Stockholders in October next, take the said subject into consideration, and adopt such proceedings thereon as may be consistant with right, and the interest of those holding stock in the said Companies.

Resolved, That the above Resolution be published by the several companies, and annexed to the notice given for the annual electors of President and Managers in October next.

Patent Metalic Columbia *CUPS & SAUCERS*

The subscriber respectfully informs the public that he has obtained a patent for manufacturing the Mineral Tin (or what is commonly called Block or Pig Tin) into Tea and Coffee Cups and Saucers, which are now ready for sale and the publick's inspecéion at No. 16 Centre Market space.

The great advantages to be derived from the purchasing the Metalick Cups & Saucers are obvious and need very little comment, as the purity and duribility of the metal, combined with a moderate price, will to the reflecting economist be a sufficient inducement for adopting their use in general.
