FOR SALE,

A valuable Merchant and Grist Mill, Saw Mill, and Plaister Mill, together with two farms containing about TWELVE HUNDRED ACRES of excellent plaister land, in a high state of cultivation, with good buildings, a sufficiency of wood, and a large portion of bottom meadow of a very superior quality. It is well calculated for grazing, as there is now upwards of 500 Acres in clover and timothy, and a preparation for 200 more in the Spring. There are few farms, if any, on which the plaister has a more beneficial effect. The Mill is capable of doing an extensive business, being 68 feet by 30, three stories high, with three overshot water wheels, running three pair of French burrs, all in good repair. There is also a valuable Mill Seat on the land, sufficiently powerful for any kind of water works.

This property is situated in a very healthy and improving neighbourhood, on the upper part of Elk Ridge, in Anne Arundel County, 25 miles from Baltimore, about the same from the City of Washington, and four from the Frederick Turnpike Road. If an early application be made, the whole will be sold together, or if required the Mill with a part of the land separate, on accommodating terms. For further information apply at No. 85, Bowley's wharf.

DANCING.

Mr. B. Brunelot's, academy will commence on Tuesday next the first day of November at his Assembly room No. 3, Commerce street. Having experienced great difficulty in collecting the hard earned reward of his labours, Mr. B. B. has resolved not to take any scholars in future, unless paid in advance, and in consideration of this and the dullness of the times, he will reduce his price. A very long experience in teaching, improved by the aid of the great masters with whom Mr. B. B. has practised in his profession in his late voyages to Paris, is the best recommendation he can offer to a well discerning public. His method is both simple and certain, his attention and punctuality unremitting, and the progress of the pupil rapid.

Private tuition as usual, and the Practising Balls in due time, of which notice shall be given For further particulars apply at the Assembly Room from 9 to 12 A. M and from 3 to 9 P. M.

Military Academy.

Any gentlemen of the standing army, militia and others, who are desirous to make themselves perfect in the duties of an officer, not only in the true principle of training, but to be taught the new system of military tactics, in all its branches, may have an opportunity by applying to Col. De La Croix, to subscribe their names on the military school book from 12 to 2 o'clock, at Towson's, Washington Hotel, N. Gay street;

Where Col. De Lacroix will open his Military School as soon as 20 scholars are obtained, and will pay the strictest attention to teach those who may honor him with their confidence every thing requisite to form a military man, particularly marching in its true principles, which is considered as the first spring of military mechanism, wheeling, platoon and battalion drill, and evolations of the line; all the manoevres in the most modern style, necessary in attack as well as defence, &c. According to this new establishment, Col. De Lacroix will give three lessons a week, one of those lessons will be given with the war game, (which the Colonel has for that purpose) and once a fortnight, should the weather permit, the gentlemen of the military school will go with the Colonel to reconnoitre the different grounds of the country surrounding Baltimore, in order that they may be able to know how many columns could come upon any given position, how to place troops of infantry and artillery to defend the approach of an enemy, what position or ground is most suitable for light troops or battle troops, what order the first and second line should take in military array, to have the advantage of the ground, and how to place artillery to the best advantage; and supposing the enemy to attack on such and such a point what manoevres to perform if out flanked, and to outflank them by a rapid movement; also, in case of being obliged to retreat, how to effect it according to Gen. Moreau's system. In a word he will teach all that can give his pupils the military Coup Dœil, without which they cannot be good officers. The real importance of it helps greatly to a perfect knowledge of modern military manoeuvres, tactics and war of topography. Col. De Lacroix's method of instruction was duly appreciated by the citizens of Boston and New York, where the militia were prepared for war, by the members of the military school, and 42 of his pupils and New York Independent Cadets, were commissioned in the army in thirty seven days and are instructors in their regiments on the lines.

Gentlemen wishing to profit by the present opportunity are invited to join the military school immediately. The gentlemen can form their classes agreeable to themselves, and choose their hours for instruction in the day or evening; the officers of the Independant Cadets will be admited for half price.

Any officer wishing private lessons, will be attended and taught the war game which comprises the 42 grand manoeuvres and evolutions of the line.

Terms of Tuition made known at the time of application, at the Washington Hotel, Gay st. between the hours of 12 and 2 o'clock, as above mentioned.

Colonel De Lacroix, will also teach the French Language Grammatically, Geometry, Trigonometry, and mathematics in general, Engineering, Military drawing, and modern Fortifications, according to the principles of European military schools. This will be a separate school and extra charges.

N. B. The first class, composed of the first subscribers will begin their instruction on Monday next, at the hour the gentlemen will appoint; those who subscribe before next Monday will join the said class, and their advantage will be great.
