The subscriber respectfully informs the public that he has obtained a patent for manufacturing the Mineral Tin (or what is commonly called Block or Pig Tin) into Tea and Coffee Cups and Saucers, which are now ready for sale and the publick's inspecеion at No. 16 Centre Market space.

The great advantages to be derived from the purchasing the Metalick Cups & Saucers are obvious and need very little comment, as the purity and duribility of the metal, combined with a moderate price, will to the reflecting economist be a sufficient inducement for adopting their use in general.
