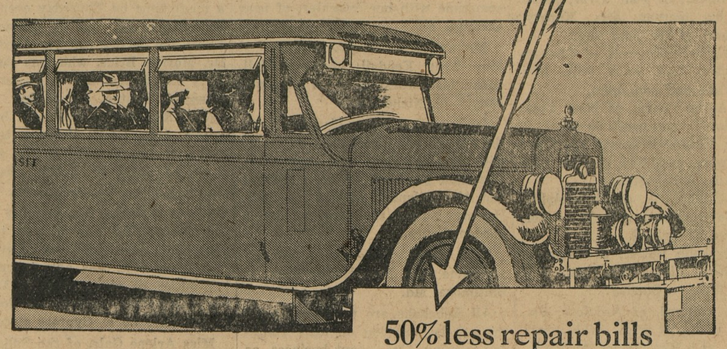
They changed to "STANDARD" *they won't change back*



50% less repair bills
10% more mileage per gallon of gasoline—
were the results when a well known Transport Company, Charleston, S.C., changed from fancy priced oil to "Standard."

"Standard" Motor Oil is an *oilier oil* made from low carbon crudes and specially processed to produce perfect lubrication and less wear on every moving part. In actual tests this oil has reduced the wear in the motor to one-third of normal.

"Standard" Motor Oil is backed by the greatest oil laboratories in the world. "Standard" resources have not only made it possible—but possible at a price no greater than you ordinarily pay.

Ask for "Standard" Motor Oil at your dealer's. Fill your crankcase with this rich-bodied, oilier oil. Get added miles of service from your car.

Due to the Prevailing High Money Market

It was necessary that the last issue of Federal Land Bank bonds should bear a higher rate of interest than issues immediately preceding.

Therefore the FEDERAL LAND BANK hereby gives notice that on and after May 1, and until further notice, all loans made by the Kent and Queen Anne's National Farm Loan Association shall bear interest at the rate of 5¼ per cent per annum instead of 5 per cent as heretofore.

Come in and let me explain the provisions of a FEDERAL FARM LOAN TO YOU.

You're out-of-date *without an* EIGHT!

On every hand you hear people talking Eights. And, what is more convincing, you see them *buying* Eights.

In 43 states,* for the first seven months of this year, new car registrations above $1000 showed a 94 per cent *increase* in Eights—an 18 per cent *decrease* in Sixes. (Five states do not compile registrations by engine types)

Every fine car in America is an Eight. In fact, 41 per cent of *all* makes of American cars today are Eights.

Is it any wonder that thousands intending to buy new Sixes are hesitating?

What is a Six going to bring in next year's trade-in markets? How can it possibly measure up in value with an Eight? Those are the questions that every thinking motorist is asking himself.

For, right now, at the price of a Six, you can buy a brilliant new Studebaker Eight. A champion Studebaker Eight with all the extra power, extra smoothness, extra flexibility and extra value that only an Eight can give.

An Eight built by Studebaker, now enjoying its 77th successful year—now the largest producer of Eight-cylinder cars in the world. An Eight by Studebaker, holder of 11 world records of speed and endurance and more American stock car records than all other cars combined.

Choose an Eight from the three great Studebaker lines of Eights now available at new low One-Profit prices. Your car will be worth more a year from now if it's an Eight.

In Maryland, Eights increased 86 per cent while Sixes decline 17 p. c.
