TOWSON AT A GLANCE

(Continued from Page 1, Col. 1.)

—The members of Mount Moriah Lodge of Masons will attend divine services in a body on Sunday, December 19th, at Calvary Baptist Church.

—The first real suggesion of the approaching yuletide was on Tuesday last when a wagon loaded with Christmas trees passed down the York Road through Towson.

—Mr. S. Duncan Black, president of The Black & Decker Mfg. Co., at Towson Heights, was recently elected a director of the National Automotive Equipment Association.

—The rumor is persistent that the officials of the Maryland & Pennsylvania Railroad are really going to erect a new station at Towson. "Seeing is believing" however.

—Ignatus Smith, who clerks in the Court Drug Store here after school hours, had the misfortune to break his arm while playing basket ball at the Towson High School on Monday.

—Mr. and Mrs. Howard Debaugh, who left for Florida recently, have returned to Towson. Mr. Debaugh expected employment as a carpenter, but found carpenters plentiful in the South.

—Representatives from the State Roads Commissioner's office were on the job on the York Road, near Linden Terrace on Tuesday last "jacking up" motor trucks to ascertain if they were overloaded or not.

—The Men's Bible Class, connected with the Towson M. E Church, upon an invitation, visited Epworth Bible Class at Cockeysville, on Thursday evening, spending a very enjoyable evening.

—Mr .and Mrs. Harry K. Ruby, of Harrisburg, Pa., were guests of relatives here over Saturday and Sunday last. Mr. Ruby is a brother of the late Wm. H .Ruby, this being his first visit to Towson since the death of his brother some years ago.

—The annual stockholders' meeting of The Jeffersonian Printing and Publishing Company, Inc., was held at the office of Mr. W. Gill Smith, in the Second National Bank Building, on Tuesday, at which time the board of directors who served for the past year were re-elected.

—A motorcycle officer from the Motor Commissioner's Department was in Towson on Thursday night and made many arrests of drivers having no light on their machines. He also tagged a number of cars standing on the streets of the town without a standing light.

—State Superintendent of Schools, Albert S. Cook, a resident of Towson, held a conference "behind closed doors" at his Baltimore office on Tuesday last with the County Superintendents of the State, at which the betterment of the public school system was thoroughly discussed.

—A fire, which was discovered at 10 30 o'clock Wednesday night on the farm of Arthur W. Sims, near Providence, made a spectacular blaze. It started in the brush and swept over 10 acres. The Towson Fire Company was called and it fought the stubborn fire until early morning.

—Mrs. George B .Coale, who resided on West Pennsylvania avenue, died on Thursday. She is survived by two sons, Howard, and the Rev. Carroll Coale, and one daughter, Miss Isabella Coale. The funeral will take place today. Interment will be in cemetery adjoining Mt. Olive Church.

—"The Christmas Waits" of the Christmas Club will hold its next rehearsal on Monday evening at the residence of Mr. and Mrs. W. Harry Flayhart. The following route committee has been selected for this year: Justice Wm. P. Butler, chairman; Messrs. Wm. H. Flayhart, Charles C. Gause and J Howard Murray.

—The home of Michael J. Donahue, farmer on the Shepard-Pratt Hospital property, near here, was badly damaged by fire on Wednesday night. Fearing that his children would be suffocated by smoke, Mr. Donahue, assisted by his wife, carried their seven children to safety. The Towson Fire Engine Company was summoned and checked the blaze.

—Three "tramp" printers were in The Jeffersonian office this week in quest of work. This is just one of the signs that the labor situation is not so acute as it has been for the past three years. Before the war it was not unusual for this paper to have at least two calls a week, but during the war there was not one who asked for employment.

—The following officers were recently elected by the Towson Lodge of Odd Felows to serve for the ensuing year: Noble Grand, L. Franklin Cole; vice-grand, C. Harris Dunphy; recording secretary, William Grason; financial secretary, George W. Seipp; treasurer, W. Gill Smith; marshall, James E. Dunphy; chaplain, Wm. K. Burns; representative to Grand Lodge, Charles W. Held; building committee, W. Gill Smith, Clinton O. Bosley and Alford M. Whittle.

—On Thursday next, from 3 until 10 P. M., there will be a bazar and entertainment held in the Sunday-school room of Trinity P. E. Church here, at which a cafeteria supper will be served, fancy articles will be on sale, and there will be a Christmas tree, trimmed with packages for the kiddies. Hot Chocolate, coffee, cake, candies and ice cream will be in abundance. The whole affair will be unique and novel, and those in charge earnestly invite the public to attend.

—The Jeffersonian requests every householder in Towson on Christmas Eve to observe the old custom of having a candle burning in each of the front parlor windows of the house. It adds that delicate touch of yuletide spirit so often unconsciously forgotten. It also requests the Christmas Club which last year braved the cold to add cheer to the festivities by chanting carols through the streets of the East side, to broaden out and cover the entire town. Let's all help to make this Christmas the brightest and best yet.

For More Milk and Better Health Cows in Good Physical Condition Always Give Best Yearly Yield. "PFO" DAIRY RATION

will keep your cows in good physical condition with less attention in feeding.

PALATABILITY

No dairy cow ever did well on a feed she did not like. In selecting the ingredients for "PFO" DAIRY RATION we have paid most particular attention to the palatability of the mixture. Cows eat it eagerly and do not "go off feed" readily

GUARANTEED ANALYSIS

PROTEIN, 20 per cent.; Fat, 3 per cent.;
Carbohydrates, 50 per cent.; Fibre, 15 per cent.

The above figures are not the real values to the feeder. It is the digestibility that counts and produces and just how much digestible nutrients in a dairy ration is what the feeder who knows his business wants to know. DIGESTIBLE PROTEIN 15½ per cent. FAT and CARBOHYDRATES 60 per cent.
