BALTIMORE COUNTY BOY AND GIRL WIN HONORS.

Hester Bond of Freeland, and Delmas Caples of Reisterstown, two Club members from Baltimore county, in attendance at the University of Maryland during Club Week, made such a hit with the instructors and the authorities in charge that they were selected to be the part of the delegation of Club Members to represent the State of Maryland at Camp Vail, Eastern States Exposition, Springfield, Mass.

Camp Vail is known throughout eastern United States as the University of Club Work. To be chosen for this camp is one of the highest honors that can come to a club member.

Miss Bond made a complete wardrobe such as should be possessed by a school girl and gives a demonstration, explaining how to select the things to go into a wardrobe and how to make them.

Delmas Caples is one of the standbys in club work in the county. He is very much interested in poultry and is secretary of the Reisterstown Poultry Club.

BOYS' JUDGING TEAM SELECTED —COUNTY WELL REPRESENTED.

County Agent Rohde states that after a month of intensive training James Kelley of Towson, Philip Rudiger of Towson, and John Paul Bond of Freeland, were selected to represent the county in the annual dairy cattle judging contest at Timonium Fair. These boys give promise of making an excellent showing for the county.

Great credit is also due Wheeler Ensor of Sparks, and Herbert Tracey of Bentley Springs, who pushed on the heels of the boys. They will serve as alternates this year and as "cats" at the fair from home next year.

All of the boys with the exception of John Paul Bond will have heifers entered to show at the fair.

Miss Agnes E. Perkins and her sister, Miss Blanche I. Perkins, were the guests this week of their cousin, Miss Blanche Lazenby at her home on Charles Street avenue, at Guilford.

CONFERENCE HELD ON ROAD WIDENING.

Major Joseph W. Shirley, chief engineer of the Topographical Survey Commission of Baltimore, had a conference with the Street Planning Commission of this county relative to the proposed widening of Charles Street Avenue to 120 feet. Mr. Shirley said that it was desirable that the widening should be continued in the county and that there should be two driveways of twenty feet each with a parked center to provide a right of way for public transportation either by buses or electric railway.

The members of the county Commission, composed of Roads Engineer Samuel A. Green, Janon Fisher and G. Herbert Rice stated that while they personally favored the plan for widening the avenue they would have to give the matter considerable consideration before taking official action. There will be a further conference with Mr. Shirley.
