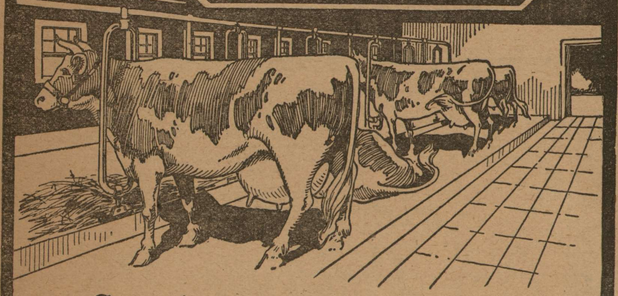
For Good Concrete—
SECURITY PORTLAND CEMENT



Sanitary Concrete on the Dairy Farm

Concrete is the dairy farmer's most desirable building material. Barn floors and foundations, milk houses, cooling tanks and other necessary equipment of verminproof, easily-cleaned Concrete invite confidence and bring buyers. They are next to good stock as a dairy farm attraction. Their cost is small when the many advantages of Concrete are fairly considered. Their upkeep cost is practically nothing because Concrete never rots, rusts, burns or needs expensive repairs. It is as everlasting as solid stone.

Before you make any improvement on your place find out how economically it can be done with Concrete. Any Security Cement dealer named below will gladly give you full information.

BRITISH VESSEL NOW LYING OFF COUNTY WATER FRONT HIT BY MOHAMMEDAN CURSE

Crew Blames Followers Of Mohamed For Ill Luck Throughout Voyage—Ship Badly Damaged By Terrific Storms In Red Sea.

How the curse of a Mohammedan sailor followed them and heaped misfortunes upon them was told by the crew of the British steamship Muncaster Castle, now lying off the Baltimore county water front.
front.

The Muncaster Castle arrived after a seven-month trip around the globe, most of the time being spent in the Orient. She was 21 days overdue, as a result of the terrific battering in the Atlantic and Mediterranean after the Mohammedan had wished that Allah would henceforth give the captain and his crew all the ill luck in the world.

The freighter sailed under clear skies until she reached the Red Sea. As she neared Port Said, Captain Cowler sighted a boat with a score of Mohammedan sailors aboard. The Mohammedans were laying to and as the Muncaster Castle drew near they requested assistance.

Captain Cowler paid no heed, as it is a common custom for the native Arabian seamen to request assistance from passing vessels in order that they can board them. Once aboard they often steal. As the Muncaster Castle steamed past the boat the leader of the Mohammedans stood in the bow of his vessel and heaped all the curses of Allah upon the crew.

After that bad luck hovered over the Muncaster Castle. Terrific storms raged around the big freighter in the Mediterranean until she stopped at Algiers.

After leaving Algiers the worst storms struck the vessel. The passage from the African port to Baltimore was expected to take 16 days. It took 37 days. Before the ship reached here lifeboats had been smashed, deck rails and steam pipes twisted and washed away and other deck damage done.

The big freighter was supposed to come directly to Baltimore. However, so long and stormy was her passage across the Atlantic that she was forced to put into Bermuda to replenish her coal supply.

McINTOSH SUMMONED TO TRAFFIC COURT.

For failing to give a pedestrian the right of way at a crossing, State Senator David G. McIntosh, of Baltimore county, president of the State Senate at the last session of the General Assembly, was summoned to appear in the Traffic Court.

The charge against Senator McIntosh was placed by Patrolman Edw. Magee, following an accident at Mt. Vernon Place and Charles street, when an automobile driven by the Senator struck and knocked down G. J. Hefferman, 28 years old, 1218 North Calvert street, who was crossing the street.

Senator McIntosh took Hefferman to Mercy Hospital, where he was found to have bruises on his left leg. After receiving treatment, Hefferman was taken to his home.

The accident is said to have resulted from another automobile striking Senator McIntosh's machine as he drove from in front of his winter home in the Washington Apartments.

YOUNGSTER OCCUPIES CHAIR AT M. E. CONFERENCE.

the Baltimore Annual Conference of th e Baltimore Annual Conference of the Methodist Episcopal Church, a boy—Allen Amoss, of Fullerton, occupied the president's chair. He was there by invitation of Bishop William Fraser McDowell, resident bishop of the Washington Area of the denomination, who presided over the sessions of the conference held in Grace Church.

Allen Amoss, who is the son of Mr. and Mrs. W. E. Amoss, is vicepresident of the Boy's Conference held in conjunction with the conference of ministers.

The Boys' Conference convened at the Central Methodist Episcopal Church, South. There the boys were addressed by the Rev. Dr. W. E. J. Gratz, who spoke on "Youth and the Church," and the Rev. Dr. E. Morris Swartz, who delivered an address on the "Program of the Church."

DR. JOSIAH S. BOWEN TALKS AT RANDALLSTOWN AFFAIR.

Dr. Josiah S. Bowen of the State Department of Health, spoke at a reception by the School and Community Club of Randallstown for Miss Augusta Hanson, the new pupblic health nurse in charge of the Second, Third and fourth districts of the county.

Miss Charlotte Wilcox of the Baltimore County Children's Aid Society also spoke. Miss Hanson will succeed Mrs. Ida Ellss, who resigned recently.

APPLICATION MADE TO BUILD BRIDGE OVER HANK COVE TO HART ISLAND.

Thomas F. Garey, president of the Hart-Miller Islands Company, has made application to the War Department for approval of plans for a bridge, without draw, over the south end of Hank Cove, connecting Hart Island with Patapsco Neck at the Eastern end of Black Marsh Road.

A public hearing will be held by Major F. C. Harrington, Engineer Corps, at the car station of the United Railways, Bay Shore Park, Saturday, Aprpil 19th, at 11 A. M.

BARN REMOVED TO MAKE WAY FOR ROAD.

Samuel A. Brooks, of Mount Carmel, has torn down his barn so as to provide for the change of the location of the road between the above place and Hampstead.

LANSDOWNE MAN STRUCK BY AUTO.

While working on the Washington Boulevard, John Lang, of Lansdowne, was knocked down by an automobile alleged to have been driven by Clarence Witt, of Baltimore.

Witt placed Lang in his machine and took him to his home. There he was found to have contusions and lacerations on his body.

SCHOOL—

The little crossroads schoolhouse held only a score of pupils. In case of fire, exit was easy for all.

Today our schools literally turn away pupils, often working many classes in morning and afternoon shifts. Despite constant fire drills we frequently have appalling disasters from such crowded buildings. Suppose one of the victims was *your* child.

A school building of concrete being fireproof is not only safe for children, but also safe for the taxpayer's money—for it is permanent. And in first cost it is but 6% more than one of impermanent materials. Ask your building material dealer to demonstrate to you what is true building economy. He knows.
