Making Good.

There is no way of making *lasting* friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have *not* made drunkards.

A good, honest, square-deal medicine of known composition is **Dr. Pierce's Golden Medical Discovery.** It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore *don't accept a substitute* that the dealer may possibly make a little bigger profit. *Insist* on your right to have what you call for.

Don't buy **Dr. Pierce's Favorite Prescription** expecting it to prove a "cure-all." It is only advised for woman's *special* ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nervine it is unequaled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the *original* Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much *imitated* but *never equaled.*

A GREAT WRESTLER.

His Encounter With the Czar and His Ignoble Reward.

One of the stories of Peter the Great which are current at the court of St. Petersburg is of the great czar's wrestling match with a young dragoon. Once in the imperial palace—so the story goes—Peter was at table with a great many princes and noblemen, and soldiers were posted within the hall. The czar was in a joyous mood, and, rising, called out to the company: "Listen, princes and boyars! Is there among you one who will wrestle with the czar?" There was no reply, and the czar repeated the challenge.

No prince or nobleman dared to wrestle with his sovereign. But all at once a young dragoon stepped out from the ranks of the soldiers on guard. "Listen, orthodox czar," he said. "I will wrestle with thee." "Well, young dragoon," said Peter, "I will wrestle with thee, but on these conditions: If thou throwest me, I will pardon thee, but if thou art thrown thou shalt be beheaded. Wilt thou wrestle on those conditions?"

"I will, great czar," said the soldier. They closed, and presently the soldier with his left arm threw the czar and with his right he prevented him from falling to the ground. The sovereign was clearly beaten. The czar offered the soldier whatever reward he should claim, and he ignobly claimed the privilege of drinking free as long as he lived in all the inns belonging to the crown. What became of him history does not say.

ATOMIC WORLDS.

There May Be a Billion of Them In a Speck of Dust.

How would you like to live in an atom—to be one of the millions of inhabitants of a world so small that you cannot even see it beneath a microscope?

The scientists tell us that each atom is a solar system, with its central sun and revolving planets in their orbits, and that little atom people live and love and fight and die there and never know but what they are just the biggest and most important folks that live. There are military atomites there, no doubt, who strut around and get tangled up in their swords and give orders in gruff voices; actor atomites who star in atomic theaters and are adored by lovely atomite maidens and criticised by the trenchant pens of the newspaper men.

There is every reason to believe that life in the atom is much like life in the earth and that the kings and emperors there make war on their distant enemies and have their peace conferences and their periods of financial stringency. The joke of it is that they probably take themselves seriously, and, though there may be a billion atomic worlds in a speck of dust, there is never an inhabitant of one of them that knows how small he is and how much he misses by not being a man instead of an atomite.—New York World.

Just the Other Way.

Fortune Teller—Beware of a short, dark woman with a fierce eye. She is waiting to give you a check. Visitor (despairingly)—No, she ain't. She's waiting to get one from me. That's my wife.—Baltimore American.

Carries Weight.

"Pa," said Freddy, "what is a social scale?"

"Generally speaking," replied pa, "it's a place where they weigh money."—Bohemian Magazine.
