Announcing The Appointment ... OF ... The Automotive Service Company

As distributors in this territory for the Service Motors, Inc., Wabash, Ind., manufacturers of Service Trucks.

Service Trucks are designed with a thorough understanding of truck-operating conditions. They are built to do the work you will require of them with the minimum of attention or care. They are designed for continuous service under the most exacting conditions. All the valuable features of truck design that our twelve years of specialization in truck-building have developed are embodied in the Service Trucks of today. Experimental construction is rigidly excluded until it is unquestionably perfected and proved.

Service Trucks, while not the highest priced trucks made, are not sold at a low price. If they were, they could not be good, but they are positively the lowest price and cheapest truck in the end, by reason of their long life, comparatively light upkeep expense and reasonable price on repair parts, and their ability to give the greatest ton mileage for the least cost.

MODELS:

1¼-Ton, 1½-Ton, 2-Ton, 3-Ton, 4-Ton, 5-Ton.
