Lowest Price Yet for a Farm Light and Power Plant with a 4-Cycle Engine and Standard Generator

A plant large enough to supply average country home needs. Simple in construction and practically trouble-proof. A child of 12 can operate it. Weighs less than 100 pounds—takes up very little space, can be located anywhere in your buildings, moved from spot to spot, if you wish.

Lights 17 twenty-watt lamps at a cost of only 2 cents an hour for gasoline. And just think—you can get this wonderfully efficient plant for about half the price of any other farm light plant with direct-connected 4-cycle engine, standard generator and equivalent equipment.
