JOHN M. DENNIS, OF RIDERWOOD, ELECTED STATE TREASURER BY LEGISLATURE TO SUCCEED HIMSELF.

Nominated In Senate By Senator Frick, Of Baltimore City, And In "House" By Representative Frank Given Of This County—Wins Over Republican Choice By 84.

Baltimore County "got another feather in its cap," when John M. Dennis, of Riderwood, was elected State Treasurer by the Legislature to succeed himself.

The vote by ballot as announced by tellers was Dennis 112, and J.

Monroe Holland, the Republican caucus nominee, 28.

Separate sessions of the two houses were held prior to the joint meeting. In the Senate Mr. Dennis was placed in nomination by Senator Frick, of the Second District, Baltimore City. The seconding speech was made by Senator Wade, of Washington County.

Mr. Holland was nominated by Senator Towers, Republican floor leader. The nomination was seconded by Senator Levin, of the Fourth District, Baltimore City. Mr. Holland was chosen by the Republicans at a caucus prior to the joint session.

In the House Mr. Dennis was nominated by Delegate Frank S. Given, of Baltimore County, and Mr. Holland by Delegate Rudolph Nickel, of Allegany County.

Mr. Dennis is President of the Union Trust Company of Baltimore City and is a farmer of no mean ability, taking great interest in the breeding of Holstein cattle, and his Essex Dairy Farm at Riderwood is a mecca for folks from far and near whose hobby is cattle.

COWENTON TO LORELEY BUS LINE EXTENSION HEARD.

Hearing on the extension of a moto Hearing on the extension of a motor bus line from Cowenton to Loreley took place before the Public Service Commission.

It was alleged at this hearing that because trains do not leave Loreley fore 7.30 A. M. a hardship is imposed on some residents who should be at their places of business early in the morning, according to Frank Harper, chief executive officer of the commission.

The proposed extension of the motor bus line would relieve this condition by running the busses at earlier hours in the morning, it was pointed out. The fare on the bus line from Loreley to the city would be 0 cents one way, it was said.

Mr. Harper said the railroad now issues commutation tickets for 60 trips, which cost about 17 cents a trip. He said representatives of the railroad expressed willingness to accept the extension of the bus line if they were allowed to curtail service. Railroad representatives, he said, asserted that at present the railroad was losing money on this service and could not afford to lose more in continuing it with fewer passengers to carry.

The hearing was attended by Ezra B. Whitman, chairman of the commission; J. Frank Harper and Harold E. West, commissioners; Christopher Selling, owner of the motor bus line, and his attorneys; E. N. Thorne, chief rate clerk of the Baltimore and Ohio Railroad Company, and E. M. Young, attorney for the railroad.

UNIDENTIFIED MAN KILLED BY AUTO.

Struck by an automobile said to have been speeding down Eastern avenue road, near Hollywood Park, an unidentified man was killed instantly. The driver of the machine was held at the Essex Police Station. Police said he refused to make a statement.

The car, after striking the man, ran to the side of the road and overturned. Sergt, Wade Walters and Patrolmen George Hohman and Joseph Lawson, of Essex, found the wrecked machine and Frank Pondo, 852 South Bond street, Baltimore City, who said he was the driver.

The body of the victim was taken to Bay View Hospital, where Dr. A. R, Warren pronounced the man dead.

The accident victim was about 55 years old. He was 5 feet 10 inches in height, weighed about 150 pounds, had dark hair mixed with gray and a mustache of the same color. He was dressed in a dark coat and corduroy trousers and evidently had been walking home from work when the accident heppened.

According to police, witnesses said the automobile was speeding when it struck the man, who was walking near the side of the road.

CHICKEN "MOVIES" TO BE SHOWN AT COCKEYSVILLE.

Five reels of moving picture film, in all 5,000 feet, will be shown at the Firemen's Hall, Cockeysville, Wednesday evening.

This picture has been produced under the personal supervision of Albert Angell, Jr., the noted Poultry authority, Lecturer and Nutrition Expert, and carries a personal message from him to everyone interested ni poultry raising. It is a picture long to be remembered and was secured at considerable expense by the olcal poultry raisers for the purpose of stimulating greater interest in poultry raising in this vicinity.

The subject is divided into five parts and consists of Back Lot Poultry Raising, Artificial and Natural Incubation and Brooding, showing the operation of the incubator with the chicks hatching; the general feeding and management of the American Hen from the time she is hatched out until she is considered profitable. In fact, the poultry business may now be seen in this film from A to Z so that the poultry raiser may have no difficulty inputting the information into practical operation.

Two reels are$..I..$$ayoo .mfwy

Two reels are devoted to visits to Oak Dake Farms, Le Roy, Minnesota, the largest single-comb White Leghorn plant in the United States, and another reel features H. Cecil Sheppard, the Ancona King, Berea, Ohio, who is credited with having recently broken all world's records with the production of Lady Wonder and Miss Marvel, which respectively, laid 339 and 335 eggs in one year.

It is expected that the audience that will witness the showing of these pictures Wednesday evening will be made up of the greatest assemblage of poultry fanciers that has ever been brought together in this section.

DOLLINGS COMPANY OFFICIAL GIVEN THREE YEARS IN PRISON.

Dwight Harrison, former vice- president of the R. L. Dollings Company, of Ohio, in which many Baltimore people invested funds, was sentenced to three years in the Ohio Penitentiary and fined $5,000 by Judge Robert P. Duncan in Criminal Court this week. He was found guilty by a jury several weeks ago of making false statements concerning the holdings of the Phoenix Portland Cement Company of Ohio, which stock was being sold by the Dollings Company.

Harrison or his counsel made no comment as the sentence was pronounced, which climaxed one of the bitterest legal fights in the history of Franklin county. Appeal will be taken immediately. Harrison is facing trial in the Federal Court here on an indictment charging misuse of the mails in connection with the sale of Dollings stock. This trial is scheduled to start the middle of January.

FIRE THREATENS BUSINESS BLOCK AT CATONSVILLE.

A stubborn blaze in the Horwitz block for a while threatened a large part of the business section of Catonsville. Both of the Catonsville engine companies were at once summoned, and a few minutes later Fire Chief Priester called the Halethorpe company. Then, with the fire assuming highly dangerous proportions, three engine companies from Baltimore City were called into action. With three departments pouring water into the burning buildings, the blaze soon was brought under control.

JOHN J. WHITMORE, 73, BURIED

Funeral services for John J. Whitmore, seventy-three, of Hillsdale, who died at his home, were held Wednesday morning at Mount Tabor Lutheran Church Rocky Ridge, Md.

Burial was in the church cemetery.

PLANS FOR NEW M. E. CHURCH BUILDING ANNOUNCED BY ARCHITECT.

Architect Walter M. Gieske has completed plans and specifications for the new Catonsville Methodist Episcopal Sunday School and community building on Melview avenue, and bids on the various parts of the work will be received by the building committee, through Architect Gieske. The work of excavating has practically been completed and the masonry and concrete work will be started shortly.

EXTRA POWER In the Driving Range!

That's Why the 1924 Cleveland Excels In Traffic Get-away and Hill Performance

Between 10 and 35 miles an hour, the new "extra power" motor of the 1924 Cleveland Six develops up to 30 per cent. more horsepower than the average light six motor at exactly the same speeds.

That's why the 1924 Cleveland rushes past bigger and costlier cars on hills—why the Cleveland owner simply steps on the accelerator and shoots swiftly ahead in traffic while the drivers of other sixes are still shifting gears.

ECONOMY AND SILENCE.—When you drive the 1924 Cleveland and see how easily it out-performs the average light six, please remember this important fact:

Its faster traffic pick-up and greater speed on hills is achieved not by putting a big noisy, inefficient motor under the hood—but by the use of a smaller motor scientifically developed to combine superior performance powers with greater economy and silence.

RUGGED AND LIGHT.—Built only of the fines talloy steels, the Cleveland chassis combines great strength with lightness. With less dead weight to carry, tires last as high as 20,000 miles. For the same reason, oil and gas bills are smaller.

FISHER BODIES.—All closed models have handsome Fisher bodies, beautifully proportioned and brilliantly finished. The sedan seats five omfortably. There is ample leg room for every passenger. Seats are deep, low, and upholstered in the finest taupe plush.

DRIVE IT.—Drive the 1924 Cleveland with its new power plant and sixteen other big improvements! Even if it were not powered by the finest motor of its size ever placed in an automobile, it would still be the soundest investment in the light six field!

TOURING CAR $1,045 5 PASS. SEDAN $1,365.
