LIST OF DELINQUENT TAXPAYERS ADVERTISED BY TREASURER.

(Continued from Page 1)

up" those who are in arrears, but simply done as a means of notifying persons that their taxes for 1923 are due.

The Treasurer does not mail out tax bills to every one, because it would cost the County an enormous sum—therefore there are many people who unthinkingly overlook the fact that their taxes are not paid, until, perhaps, a levy is made and their property advertised by the Treasurer, to be sold.

It was the thought to relieve this embarrassing situation that prompted those responsible, to have a law enacted to notify all delinquents, through a published notice.

Under the old law, during the month of December, the Treasurer was required to make out tax bills in duplicate for all those in arrears, one set of which went to constables to be served on owners of property, and in the event they could not be found, notices were posted on the property. Notwithstanding the fact that 25 cents was added to the tax bills of delinquents ,this was an expensive process, for the constables did not always make personal service or do the posting, consequently any one who purchased property at a tax sale, in case the title was contested, would be obliged to prove that before the sale, the tax bill had been duly posted, which at times was a difficult task, and very costly to the property owner, in the end, for it is quite a bit of one's time and the fees allowed by law to constables.

This last legislative thought is good to do away with the ancient and ridiculous method of serving tax bills and in its stead publish a list of all delinquents.

This method of notifying taxpayers is not new, for it has been in vogue in other Counties of the State for years and has proven quicker and more economical than the old service with all its constables.

It is quite natural for it to cause some criticism, as does every new procedure, but we venture to say it will be like everything else, "A second thought." Wonder which folks will realize its benefits sooner.

THIS WOMAN RELIEVED FROM SUFFERING

By Lydia E. Pinkham's Vegetable Compound. A Remarkable Story

Dover, Del.—"I wish every woman would take your wonderful medicine as it has done so much good to me. I had cramps and faint spells and very bad pains. One day I was over to my neighbor's house and she told me I ought to take Lydia E. Pinkham's Vegetable Compound. So I went to the store on my way home and got a bottle. It was just before the time I expected to be up I would stay on my back for two days. I used to go to bed at night cold and get up in sweats and cold. Now I can work all day and may sit up until eleven and feel all right in the morning. I have told a good many of my friends and I have had them come to me and tell me they received the benefit the Vegetable Compound." —Mrs. Grace Millowitz, 326 Loff Ave., Dover, Delaware.

GIVE THE BOY THE CHANCE OF THE CHICKENS.

At the recent Country Life Conference held in St. Louis, a moving-picture film was shown of a farm boy and his prize flock of chickens. The film demonstrated that the birds were fine because the boy had a scientific knowledge of chicken culture, and that he had applied his knowledge to the care of his flock. But the boy was a mouth breather and showed further effects of malnutrition. The tragic thing about the picture was that the chickens were having a better chance than the boy.

The idea of encouraging farm children to raise thoroughbred poultry, but its boys and girls. They themselves are entitled to as scientific care as they are taught to give the animals that they raise. In order to develop into a strong man or woman every child must have a well-balanced diet which is eaten at regular periods; long hours of sleep in a well ventilated room, activity as expressed in wholesome work, study, and play; instruction concerning the care of the body; and periodic physical examinations by a reliable physician.
