CHAS. L. DODD.

Wall Papers and Paints.

Wall Paper

Our stock of new Wall Papers is nearly all in—over 9000 rolls. We purchased at a lower price and will sell at a lower price than ever before. The cash discounts on this bill is enough profit for us. We can sell these papers at the same price our competitors pay for what they buy. The starting price is

2½c Per Single Roll up to 10c Per Roll,

but come and see these papers and prices will surprise you. We'll sell paper. We sell you the paper outright or send you a competent man to hang it. No charge for our team.

Paint

Big Reduction in the price of B. P. S. Paint.

The Patterson Sargent Co. are using what they call their Universal Label on all their different products. So to keep in touch with this move, we have decided to sell all gallon cans bearing old labels at cost

$1.75 Per Gallon.

Also Hirschberg Hollander & Co.'s Stag Semi-Paste Paint; 1 gallon makes 2 gallons at $1.75. This reduction comes in season, don't wait as these prices won't last. Back they go when this lot is gone.

JOHN BARTLEY,
CHESTERTOWN, MD.

WARNING TO POTATO GROWERS.

Imported Potatoes May Bring the Dreaded Wart Disease.

The short crop of Irish potatoes in the United States last year has led to the importation of large quantities of European potatoes. Much of the importations are from regions infected with the potato wart disease, a disease much more destructive to the potato than any of our blights or scab. It converts the tubers into a rough, unsightly mass, and in many parts of Europe it has seriously damaged the potato industry. It has spread over Europe in the recent past and has already appeared on this side of the Atlantic in Newfoundland.

Canada has quarantined against regions in Europe and Newfoundland infected with this disease, and because the United States has no law to prevent the introduction of potatoes from infected countries, Canada is now also barring out our potatoes as a necessary means of keeping the disease out of her fields.

Maryland potato growers should take warning not to plant any imported potatoes as they may contain the disease without it being seen. If the disease appears once in our fields, it will be practically impossible to eradicate it.

J. B. S. NORTON,
State Pathologist.

Conference Appointments.

The Wilmington Conference closed on Monday with the reading of the appointments by Bishop Wilson. There were quite a number of changes. Rev. Dr. L. E. Barrett, Rev. W. M. McCann and Rev. F. H. Lewis are the only Kent ministers who were returned, and we are quite sure their congregations are delighted. The appointments for Easton District are as follows:

District Superintendent—Robert Watt, Smyrna, Del.
Bayside (Sherwood, Md.)—John White, supply.
Bozman, Md.—C. W. Strickland.
Cecilton, Md.—G. L. Hardesty.
Centreville, Md.—C. W. Prettyman.
Chestertown, Md.—L. E. Barrett.
Cheswold, Del.—G. W. Townsend.

Townsend, Del.—L. I. McDougle.
Trappe, Md.—J. C. B. Hopkins.
Wye, Md.—L. R. Janey.

Other appointments of importance to Kent and Queen Anne's countians are:

Perryville,—J. H. Beauchamp.
Dover,—W. L. White.
Nassau, Del.—J. W. Sutton.
Marion,—Tilghman Smith.
Milsboro,—G. R. Ellis.
Pocomoke City,—W. L. S. Murray.
Snow Hill,—J. W. Easly.

No invitation was received for a meeting place next year. The place for the next session will be decided by the newly created bureau of conference entertainment on the pay-as-you-go-plan.

Time to Spray.

Now is the time for all growers to make arrangements for treating fruit trees for the San Jose Scale. The best all round remedy is the concentrated lime-sulphur mixture. This wash can be bought or made at home, depending upon the inclination of the grower. Bulletin No. 161 of the Experiment Station, College Park, Md., which can be had for the asking, discusses the manner of making and use of this remedy. All trees should be sprayed before the buds open.

All fruit growers who have neglected orchards near them which are a menace to the vicinity, should notify the officers of the State Horticultural Departmeat, at College Park.

All Osage Hedges should be gotten rid of as far as possible, as they serve to spread the scale. If kept, they should also be sprayed.

The Maryland Agricultural College and Experiment Station desires to conduct as many spraying and pruning demonstrations in different parts of the State as means will permit, to show what may be accomplished by up-to-date methods of treatment. Any person or persons who are particularly interested in promoting this work should communicate with the undersigned.

THOMAS B. SYMONS,
State Entomologist.

Overhauling the Emma Giles.—The steamer Emma Giles, of the Tolchester Steamship Company, has been overhauled at the drydock of W. E. Woodall & Co., Baltimore. Special attention has been given to a strict examination of its hull and overboard connections. The hull was provided with a new metal sheet covering. The Emma Giles was painted inside and out and overhauled in every department. She will commence her Saturday excursions to Tolchester today.
