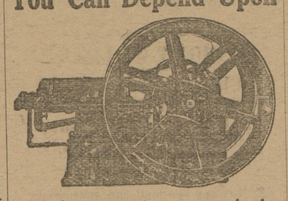
Buy a Gasoline Engine You Can Depend Upon



TWO engines may look equally good, may even work equally well for a time. In the end one proves satisfactory, the other becomes a nuisance. Why?

The satisfactory engine is one that is carefully built, and thoroughly tested.

Thorough testing takes time and costs money. It means careful adjustment under trying conditions. It is an expensive process, but a necessary one if the finished engine is to be dependable.

I H C Gasoline Engines Are Thoroughly Tested

No engine leaves the factory until it has proved itself thoroughly dependable. That is reason enough for buying an I H C engine. It is a good buy because it is dependable—it is dependable because it is thoroughly tested. If you want engine satisfaction for years to come go to the local dealer and buy an I H C gasoline engine. It is the safe way and by far the cheapest in the long run.

WE WILL venture the assertion that every colored voter in Kent county will go to the polls on Monday and vote. You couldn't keep him away with a regiment of soldiers. How about the white voters? Will they have enough interest in their county, State and nation to take a little time from work and go to the polls, and offset the effect of the negroes' votes. Mr. Farmer, Mr. Fisherman, Mr. Anybodyelse, remember that it is very much to your financial interest who the next President of the United States will be. Be the citizen that you should be and go out to the polls on Monday, and when you get there vote for Woodrow Wilson for Prefident, for JEFFERSON D. AYRES, HARRY DAVIS and CHAS. W. KIBLER, the ORIGINAL and ONLY Woodrow Wilson candidates for delegates to the State Convention, and for WILLIAM H. ADKINS for CHIEF JUDGE. This is the ticket that is going to win, but let us make the majority a decisive.
