Samuel Galloway Incoming Letters 1794

SIDE TWO

you will please give your directions about him
if you chose to have him spend a year or two
in Maryland it wou'd be no prejudice to him
this I dare say Dan'l Dulany Esq'r will be
a proper person to consult with about this
whatever directions you give shall be
punctually followed, on perusing your Sons bills
you'd observe what pocket money I have given
him beside the 15/ week paid by his Dame
he complains it's too little must desire you will
give me particular directions about that article that your
Son may see what you allow him, for my own part I can
see no great use that young Gentlemen have for
much money, the Insurance you ordered on your
new Lapell is done I am with real esteem

Dear Sir

your obliged friend

James Russell
