Consider the Door Construction on the Buick

Personally inspect the care with which Buick bodies are built and the attention given to details which contribute so much to ownership comfort.

An important feature on all Buick Closed cars is the SOLID STEEL LUG on the doors.

This device holds the door rigid—prevents its rattling no matter how rough the roads and prevents wear to the door lock. A characteristic occurence when the door is held only by the lock itself.

Ask your dealer to explain it to you.

CHURCH NOTES

The first Bible printed in the United States sprang directly from a national solicitation of funds in England and Wales in a manner somewhat akin to the Liberty Loan drives, according to George B. Utley, librarian of the Newbury Library at Chicago. This library has both the first American Bible and also the Act of the English Parliament which led to it. The Bible was a translation into the tongue of the Massachusetts Indians. For years John Eliot, a Puritan fleeing from persecution, who had landed 11 years after the Mayflower, had been sending back to England reports about missionary success among the Indians. When the Puritans came into power he founded a friendly government, and in 1649, within six months after Charles I was executed, when Cromwell was supreme, Parliament passed the above Act.

Rev. James Webster Fogle, retired member of Wilmington Conference of the M. E. Church, died Sunday morning at 9 o'clock at his home in Seaford, of dropsy. He was 61 years of age. He studied for the ministry in the Wilmington Conference Academy, being admitted to the Conference in 1889.

Cudlipp, Young People's Supt., of the Maryland Sunday School Association, spoke on the Value of the Youth. He also emphasized the coming Young People's Conference to be held in Chestertown April 25. A large congregation greeted the speaker at each of the services. The County Supt., Rev. A. F. T. Raum, and the County President, H. S. Startt, were with Col. Cudlipp on his tour of the county. THE APRIL CALL

From New York Tribune

Gypsy-Heart, it's April time,
April of the Orchard Lane,
April where the roses climb
Through the sunshine and the rain;
April of the far, green moors
At the golden edge of spring,
April of the out-of-doors
Though the wind is blustering.

There's the whisper of a dream
Winding out through green and gold,
Winding out by hill and stream,
Through the starry night's enfold;
Through the pink and red and white
Blossoms by the road unfurled,
Where the lilies lean to light
In the morning of the world.

Gypsy-Hert, why should we wait
Till the April dream is gone
Life is at the Morning Gate
Calling us to follow on;
With the flags of winter furled
Where the hills and valleys gleam
Life is waiting down the world
For the vagabonds of dream.

Railroads Ask Repeal of Burdensome Law

SO-CALLED FULL CREW REGULATION IS COSTLY TO THE PUBLIC

TO THE GENERAL ASSEMBLY OF MARYLAND:

The undersigned Railroad Companies, all operating in the State of Maryland, join in a petition to your honorable body to act favorably on Senate Bill No. 74 introduced by Hon. Walter Mitchell which repeals the so-called full crew law enacted in 1908. This burdensome and wholly unnecessary law requires railroads to man all freight trains of 30 or more cars with crews of six men; viz: 1 Engineer, 1 Fireman, 1 Conductor and 2 Brakemen and 1 Flagman (3 Brakemen). This crew comprises one more Brakeman than the railroads need.

The petitioners respectfully urge the abolition of this extra Brakeman

BECAUSE, the employment of this useless Brakeman is an unnecessary burden on the railroads, and therefore, on the public, which after all "pays the bill." In 1919 the cost was $314,904, in 1920 $496,890, in 1921 (a year of business depression) $307,282, a total, during the past three years, of $1,179,076. During the last ten years this law has cost the Railroads operating in Maryland approximately TWO AND ONE-HALF MILLION DOLLARS, without a single cent in return compensation.

BECAUSE, the extra Brakeman is not needed in the operation of trains. The Federal Government requires automatic couplers and air brakes on all cars and prohibits the use of hand brakes on trains. Two brakemen are sufficient. Then why a third Brakeman?

BECAUSE, the railroads are vitally interested in the safe and economic operation of trains, and are fully qualified to decide upon the size of the crews.

BECAUSE, this law places an unnecessary burden on the railroads and leads to high passenger and freight rates, in which the public is vitally interested. Industry and trade must be revived, which is possible only by femoving unnecessary burdens and lessening of overhead charges. The stringency of the times will be partially relieved by the repeal of this law. This repeal does not mean more unemployment; it does mean the transfer of men from useless to useful occupations in other departments, where the money paid them will be more profitably expended in repairing locomotives, cars, tracks, etc.

BECAUSE, Pennsylvania and other states have repealed similar laws. The West Virginia Legislature refused to pass a bill enacting such a law. Virginia and Delaware are without such a law. Therefore, Maryland, alone in this group of States, is hampered by a full crew law.

We, therefore, appeal to your honorable body to repeal this burdensome and unnecessary law.
