1775 JULY 7 JOHN GALLOWAY TO SAMUEL GALLOWAY

MS.1994

SIDE ONE

Letter
John Galloway
July 7th 1775

ANNAPOLIS

Annapolis July 7th 1775

Mr Dear Sir

I wrote you by the post last Friday acquainting you how plantation matters went on. Since which we have finished our harvest at home Neck & Swamp on Monday last. — The Wheat before the door takes Eighty three Stacks which I imagine one with the other must contain between 3 and 4 bushells. I intend having it stacked next week if the weather is fair We have since harvest been about our Potatt and Corn it has been a very grow=ing time — The plow I kept going in the fallow=ing time — Shall begin to cut the Meadow at the next next week — Pears at the Bridge yesterday they will have finish their wheat tomorrow I think I never saw better corn ground which than it is — Stephen is in Town and writes you fully by the post — The flux rages very much all over the Country Cooper Will and Peter at the Yard has it they are not in any Danger Doctor James Murray has been to see them. We have no Symptoms of it yet at
