APRIL 1775 OCT. 26 BENJAMIN GALLOWAY TO SAMUEL GALLOWAY

MS.1994

SIDE ONE

A Letter
Ben Galloway
No Date
1775

Honored Sir. Oct 26th 1775

It is with singular pleasure I find myself able to communicate to you the pleasing information of Henny's being in a fair way of Recovery from her late indisposition - happy incident was it in all probability that the Weather prevented her coming up to Tulip Hill agreeable to our Wishes: as it might have been attended with very disagreeable if not unhappy consequences to herself and Friends - I find that she received a violent Shock occasioned by a sudden Jolt of the Coach in going to Church which gave her the excessive Pains she so much complained of in her Back. Hips and Stomach - Dr Smith upon being made acquainted with the Nature of her Complaints was of Opinion that she was pregnant and apprehended an Abortion or Miscarriage - which notwithstanding every care unfortunately happened on Tuesday Morning - Henny is relieved from her Pains and is in every respect tolerably well - complaining only of a weakness which I suppose her Miscarriage must have necessarily brought on - You may rely upon it that every possible care will be taken to prevent her from taking cold or exerting
