n.d. Samuel Galloway incoming letters 1994

SIDE ONE

Honoured Sir

In Obedience to your Commands I have copied the original Letter in the possession of Colonel Chew; and it was thought adviseable that an indifferent Person unconnected with yourself or him should be called on to annex a Certificate as to the Authenticity of the inclosed Paper: Mr Richard Harrison obliged Mr Chew when requested so to do: I flatter myself that when you have dispassionately considered the Business, you will make great Allowances for the particularity of my Situation, which I can truly say is a very disagreeable one. you seemed to be very much displeased with my Conduct in the Conversation that passed between us when I was last at Tulip Hill: I appeal to the Searcher of all Hearts for the Rectitude of my Intentions and I trust no exception could be taken to the Manner in which I expressed them: I would wish to conduct my Behaviour on the present Occasion in the most respectful Manner to you and I can declare with great Sincerity that it is my ardent Wish that no Interruption may be found to the Harmony and good Understanding so essential to the Happiness of near Connexions. I do suppose Fanny Nancy Chew and myself will cross the Bay from Herring Bay to Rock Hall
