n.d. Samuel Galloway Incoming Letters 1994

SIDE ONE

Friday Morn.

Honoured Sir.

I returned late last Evening - my Brother left the Manor on Sunday Morning: he was under a Necessity of going to Baltimore - will be at Tulip Hill as soon as he can do his Business: I made Free an Offer of Silver Tail to Sub him and cover him last Season as you directed me - the People would not subscribe their Mares to an Horse that they never saw - there are a great Many Horses in those parts expected to come next Season. Many would not be engaged to be paid, and the difficulty of collecting what might be great - nor does he think so great a Number of Mares as you stipulated for, could he had at £3 - my Brother was very well - he has sold the Stallion at the Manor for 600 Bushells of good clean merchantable Wheat - I am happy to hear that my Uncle is so much recovered - I have not been well since I left Home, and am a good deal fatigued - I have brought down a good Haunch of Venison which I propose to dress on Sunday next and shall be glad of your Company together with my Sister Mrs Clestons, Mr Clark my Uncle and Mrs Grant to partake of it. Henry joins me in best Love & Compliments to all Friends. I am Hon.ble. Your dutiful Son Beni: Galloway
