Don't Lose the Vision of the Spirit

The needs of life make such insistent demands upon a man's timeand energy that he is sometimes inclined to ignore his spiritual needs. And so he loses the vision which is inspiration to aspiration—which renews strength and courage. The church keeps the eyes of the spirit open to the higher things which life offers and becomes a source for the courage required to meet the demands of every day life.

Sunday is the day the church delivers its oral message to the world. Doubly fortified is the man who hears it and applies it throughout the week.

Sunday is the churche's day. Respect it. Go to church and renew your spiritual vision—take the vision into your work and note how it helps.

The County Auditing Committee Report shows that the assessed valuation of the real and personal property in the county is $12,364,323.49, exclusive of corporation and bank shares, and that from all sources the amount of money raised for county expenses is $192,448.37, while the cash and certificate levies for the year 1921-1922 is $199,212.36. $26000 was spent on roads and bridges, and for schools $81,626.08.

Grows His Own Blankets

From a small flock of sheep, Sheriff Lane gathered 80 pounds of wool. He sent the wool to a mill and got back eight 10-pound blankets at a cost of $3 each, or a total of $24. The same blankets are retailing at $18 each, and the total for the lot would be $144. The difference of $120 which Sheriff Lane saved from producer to consumer represents the middleman's profit.

"But," asks the reader, "what about the cost of production?" A lamb born in December will weigh from 80 to 100 pounds by the following July. If not sold for mutton, he is ready to shear in 18 months. In the spring and summer they feed themselves. In the winter they thrive on a small allowance of cotton seed, velvet or soy beans, a patch of vetch or clover. The food cost is a small outlay of cash for seed plus a little work.

But suppose the cost of production amounted to $18 per blanket, including the $3 paid to the mill for making the blanket? On each blanket the producer is making his lands turn out $15 of natural wealth which he keeps at home. Every dollar kept at home makes his community that much richer, whereas every dollar sent away from home makes his community that much poorer.

Sheep raising in this country on an extensive scale might not be profitable, but Sheriff Lane has proved that a flock of sheep large enough to supply the farm with mutton and provide blankets for the family is profitable.—Dillon (S. C.) Herald.

NEAR EAST RELIEF IN KENT

Kent county residents, who are reading in the papers of the critical situation in the Near East, will have conditions in that far-off section brought home to them next Sunday and the following week when a corps of overseas speakers from Maryland Headquarters, Near East Relief, will visit a number of Kent county towns and tell the people what they have seen themselves.

The towns that will hear these interesting addresses include Chestertown, Piney Neck, Fairlee, Rock Hall, Kennedyville, Galena, Worton, Betterton, Still Pond, Millington,, Golts, Locust Grove, Georgetown, Massey.

The corps of speakers from Maryland Headquarters will include Misses Katherine Reynolds McCormick, Cora L. Beach, and W. P. Welts and Hiram Hall and Capt. Hugh J. Henry. Miss Cora L. Beach is an overseas worker and returned only recently from the Near East. The other speakers have all been overseas, Miss McCormick, only recently returned from Constantinople.

Latest cables from the Near East to Maryland Headquarters, reports that a new order forcing Armenians to leave Marash, Birdjik and Urfa, north of Aleppa, causes an acute crisis that throws an additional burden on the Near East Relief. The cables ask for additional appropriations to meet the situation, which arises from the concentration of approximately 100,000 refuges who were originally "permitted" to leave Turkish military territory only on passports via Aleppo, which is in French mandate territory. The condition of the refugees in this territory is extremely desperate because the sections through which they have trekked are constantly overrun by irregular bands of unrestrained bandits.

Application has been filed with the Public Service Commission of Maryland by Mrs. Lula L. Massey, of Church Hill, for permission to lease and operate the electric plant at Church Hill, under the provisions of a contract executed by the Town Commissioners of Church Hill.

COULD HARDLY DO HER WORK

Lydia E. Pinkham's Vegetable Compound Made Her Eat, Sleep and Feel Better Every Way

Chicago, Ill.—"I was weak and rundown and in such a nervous condition that I could hardly do my work. I was tired all the time, and dizzy, and could not sleep and had no appetite. I tried different medicines for years, but they did not help me. Then I read in the papers about Lydia E. Pinkham's Vegetable Compound and what it had done for other women and gave it a trial. I began to eat better and could sleep, and consider it a wonderful medicine. I recommend it to my friends and will never be without it."—Mrs. M. OHLEN, 3640 S. Marshfield Ave., Chicago, Illinois.

It is such letters as these that testify to the value of Lydia E. Pinkham's Vegetable Compound. This woman speaks from the fullness of her heart. She describes as correctly as she can her condition, first the symptoms that bothered her the most, and later the disappearance of those symptoms. It is a sincere expression of gratitude.

For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.
