A *beautiful* floor— and so easy to keep clean

It *does* take a hardwood floor to make a room look "right"—doesn't it? Its clean lustre is almost essential to set off the furniture and the draperies. A large sweep of hardwood floor—it's really *beautiful*.

And if you install CROMAR, there won't be those widening, dust-collecting deep cracks of the ordinary hardwood floor.

CROMAR is a hardwood floor completely made and finished by machines, at the factory. A special, rounded groove makes the cleaning easy. CROMAR is patented, and two carpenters will lay it right over an old floor in one day.

Why CROMAR costs less per room and why it can be laid and used the same day, you will find, among other advantages, in CROMAR literature. Write us for it today. In the meantime get in touch with your Retail Lumber Dealer.
