Another 1924 Buick innovation—this six-cylinder double-service sedan—has been especially created for those who wish a combined practical business car and family sedan.

Its upholstery is comfortable, yet sufficiently serviceable to withstand severe daily usage. The power provided by its new Buick 70 H. P. valve-in-head motor is more than enough to carry it over the heaviest roads. Its staunch Buick four-wheel brakes assure ample safety whatever the driving conditions.

The admiration which you may feel for its service utility will be matched by the pride which your family will take in its comfort and suitability.
