which is right in these Instances
As to the goods I have now by me, I think
this Spring & Summer will carry them off.
The town is very bare at present &
the Country will be so in a little time,
& that the small supply expected to
what has been imported these 2 or 3 years
past. I have been trying some time to
get them off for Tobacco, to be delivered
this Summer, I do not know whether
I shall succeed yet —
There is little £50 or 60 ₶ worth of
Goods not to be found of the Elizabeth's
Cargo last Summer, I have taken
as much pains as possible to obtain
the property, & have then delivered
to the Right persons, but to no purpose
there is little the above Quantity delivered,
with my being able to find them
tho' I have repeatedly applied to every
one who had goods in hand, to know if
they had any that did not belong to
them

to them. The Mistake must have been
in the Delivery of the Virginia Goods;
Some must have been delivered there
that ought to have been left here, as
there are several packages now lying
in the Warehouse, that Nobody
this Province Owns & tho' I have wrote
repeatedly to Virginia abt. them, I
cannot get any Satisfactory Answer,
I believe there will be no other way
of settling the Matter, but selling
for the Most they'll fetch, the goods
that Remain unowned & paying the
persons who little want some of their
Quantity —

I find on looking over my
Letter Book, I advised the £200
Credited him @ 62½ Exchg. is included in the £228 12 1½ ₶ mentioned
before, You'll therefore please deduct it
from the last
