I send my Schooner now to Romney for a Load of the Plank, which be pleased to have delivered as quick as possible, you'll much oblige me, if all necessary assistance is given the Skipper, and likewise if you'll be kind enough to advise him of the best manner to bring the largest Quantity. I suppose you'll send an acco of the Number of Planks and the Quantity of feet by the Vessel

Dr Sir

Baltimore July 12th 1773

Your Favour of yesterday is just handed me, the Letter for Frederick shall be carefully forwarded. —

I am at a Loss what to say at Tobacco, & shall defer

defer coming to any Resolution at it, till I see how the price is fixed with you; If I was at Liberty; that is, If our Money in the eastern Shore could be otherwise collected, you may be assured I would have nothing to do with it, at any rate, as there is now as much probability of its being a losing Business as last Year, tho' not in so great a degree, an extraordinary low Price here, such a one as the Planters could not take, or a total failure of the growing Crop, will only make it otherwise. I suppose some price will be fixed on as soon as the Farmers have secured their wheat, which perhaps may be at the 20 or 25th of next Month; at that Time, I expect to be on your side & shall take some Resolution, which I will acquaint you with immediately. — Not a word is said of Tob° here or at Elk Ridge Landing.
