Gentlemen Balt.o 1.st November 1773

I received yours of the 26 ult.o by Y.r Schooner yesterday; Martin got here also yesterday, with 1400 Bus only: He was detained, as I suspected by the People, who was to deliver the Corn, not having it beat out when he called on them. — Nicholson & Kennedys Boat does not make her appearance yet. If she comes to day or tomorrow, the Snow will sail Wednesday or Thursday at farthest. —

The Gentleman who proposed principally to load Your Brig, if she came in Time enough, is & has been out of Town some Time; as soon as he returns, I will again apply to him; but am afraid he will think it now quite too late, as before he was pretty much of the same Opinion —

As soon As the Snow sails I shall be on the Eastern Shore and will bring over the ballance of the Money for the Corn —
