NOTES BY THE WAY.

The latest sign of "Republican prosperity" is the shutting down of the great Pullman car works, at Pullman, Ill., everyone of whose 7,000 employees has been thrown out of work.

Mr. Roosevelt's statement that "the Philippine Islands will be held for the benefit of the Filipinos," is mercilessly criticized by Bourke Cockran in a great speech delivered recently at Tammany Hall. "How about the action of Congress in extending the coastwise laws to the Philippine Islands?" asks Mr. Cockran. "This action means that hereafter every pound of produce coming from the Philippine Islands into the United States must come in American ships. There are only a few ships available for that traffic, hence the owners of them banding together can take from the unfortunate Filipinos every penny that their produce is worth over and above sufficient to keep them alive."

An old lawyer in Pennsylvania was asked what he thought of the President's letter. "Reminds me of a defendant's motion in arrest of judgment and sentence," was the quick retort.

If the Democratic position in this campaign were not a strong one, Republicans would not be so persistent in their efforts to misrepresent it.

"Do they intend to abolish Rural Free Delivery?"—Roosevelt's letter. Well, hardly. Having created that excellent extension of the postal system, Democrats are not likely to abolish it. Very likely, however, they will overhaul it at the first opportunity. After eight years of Republican rule it has become necessary to root out the grafters.

It is one of the President's ideas that "the voice of the United States would count for nothing in the Far East if we had abandoned the Philippines." He seems to think that the greatness of the American Republic began with the organization of his Rough Riders and will end with his retirement from the White House.

Mr. Roosevelt's attempt to inject the sectional issue into the campaign is resented and antagonized by some of the heaviest contributors to the Republican campaign fund. The men who have no sympathy with this feature of the Republican programme are Northern capitalists who have large investments in factories, railroads and banks, in the South. They are Republicans, for one reason or another, but they will not support a policy which will unsettle political conditions in Southern States, causing a shrinkage in their own incomes while serving no good end whatever.

It is just beginning to dawn upon many New York Republicans that Tim Woodruff has lost prestige by his action in withdrawing his name from consideration by the Republican State Convention without a fight, thus placing his friends, and especially his sponsor, Thomas C. Platt, in an embarrassing position. It was Sam Fessenden who turned savagely upon Joe Manley at St. Louis, in 1896, after the Maine boss had deserted Thomas B. Reed, and exclaimed, "Joe, God Almighty hates a quitter!"

Hon. D. H. Perry, National Committeeman from Utah, says: "It is pretty nearly a certainty that the nine votes of the three States of Utah, Montana and Colorado will be cast for Judge Parker. In my State, since the formation of the American party by Senator Kearns, the prospect for the Democratic party are growing hourly. The new party is made up almost exclusively of Republicans, so there are now two Republican parties in the State. A triangular fight, therefore, must redound to Democratic chances."

Hon. T. E. Ryan, National Committeeman from Wisconsin, says if the Democrats do not carry his State he will be a very much mistaken man. "The campaign out our way," said Mr. Ryan, "is warming up on both sides and I look forward to the most exciting contest that Wisconsin has seen since 1892. The vote will be the largest ever cast and I honestly and sincerely believe that Judge Parker will win out. Conditions in Indiana and Illinois are improving right along and I believe that those two States will show up in the Parker column."

"Protecting an industry as such is one thing; it means that Americans shall be enabled to hold possession of their market, provided they charge prices for their goods which yield a fair profit only. Protecting a monopoly in the industry is another thing: it means that foreign competition is to be cut off, even when the American producer charges unnatural prices. It means that the trust shall be enabled to sell a portion of its goods abroad at one price and the remainder at home at a much higher price."—Prof. John B. Work, of Columbia University, in the Political Science Quarterly for September, 1904.

TO THE TRADE,

TRADE MARK

After an experience of over 28 years and dilligent study in our business, coupled with the best mechanical devices that could be procured, we now offer you our

We Know n Br nds of Fertilizers

and have much pleasure in calling the attention of the intelligent farmer to our unprecedented facilities for supplying the trade this Fall. Never did the agriculturist need more for the money than he does now and notwithstanding the fact that materials have advanced, with our Baltimore connection enabling us to obtain materials at rock bottom prices, we have determined to give you the advantage of it. But the greatest of all is the quality, for we have never heard better results from our goods than this year.

One customer from Dorchester claims to have gotten 53 bushels per acre from our Bone Super.

Another gentleman in Queen Anne's, who bought 104 tons last fall says on one farm he got a fraction over 40 bushels.

Another in Kent 34 bushels or 9 bushels more than from a cheaper goods, he used our Bone Super.

Mr. I. R. Leaverton, a gentleman who used to use Rock Goods says he has found that high grade goods pay him and has placed his order for 45 tons of high grade goods.

Messrs. Wright, McKenney & Lowe, of Centreville, say their men claim for mechanical condition, for action on crops, for a fertilizer that alright in every particular, Hubbard's is the goods and they buy again.

Mr. J. T. Anthony says it has always done well for him and that is why he buys again.

Another party who used 40 tons bulk of it, Hubbard's Bone Super, says that anybody could tell the difference and so we could go on but for want of space. We therefore say that when you are ready to buy we would be glad to quote you prices.
