Dear Sir

Baltimore 11th april 1774

y^r Favour of the 8th was handed me this Morning; since which I have not had an opportunity of presenting your order on Mr Hollingsworth, tho no doubt it will be paid ——— Capt Thomas thinks it will be better to keep the Servant a few days longer, as he supposes by that Time there cannot be the least risk; you shall have him by the next Boat, if he still continues to recruit, as he has done for some days past.

You forgot when you came over, to bring me the Accot of Writing Goods p the Elizabeth 1772, pray send it by the first opportunity; I want to make up the Accts to send home. I am Dear Sir

Dear Sir

Baltimore 11th april 1774

Your Schooner with the wheat got here Friday last, the Quality of it was so very indifferent as to weigh only 54 ℔. I had it Fanned very closely but could increase it only to 57 ℔. Notwithstanding there were by the computation of Capt Thomas & the Skipper of the Craft 9 Bushels of Frannings taken out of it it measured out 101 Bus: & you have Credit for 9 2d 6/10½ 1½d being deducted for each Pound under 60 ——

From what Capt Thomas told me of a conversation that passed between him & Mr Hands, I have kept the rough Carpenter & shall send him to Mr Hands as soon as I think him quite recovered, which I think will be in a few days, as there is nothing now remaining but weakness, the consequence of all Disorders.

By the Bearer Mr Meeting, I have sent the Carpenter Capt Thomas mentioned to you when he was last over; he appears to be perfectly recovered, & Doctor Shenhouse whom I got to examine him, is of opinion, there will not be the least risk of catching any infectious Disorder from him; His price is £27,10

The Indentures you have inclosed. I am Dear Sir
