Lyr Brown, all which together with some of the bright kind which I must give Cash for here, will fill her without doubt, but if any of these should happen to fall short, I am certain I can buy any Quantity on Credit. I am now trying to keep from drawing as much as possible, tho I am afraid from the dis=appointment I have met with lately in not receiving some large Sums that were promised, I shall be under the Necessity of it soon. Indeed since the advice of the Boston port act, and the Confusion which is likely to ensue, I can perceive much less desire in many to pay their Debts than before, I am afraid too many would be glad to take every advantage that might be thrown in their way. Dear Sir Baltimore 11th June 1774

I rec^d y^r Favor of Yesterday this afternoon & shall in consequence dispatch my Schooner in the Morning for Toveys, where by the Time she gets there; I hope you'll have his Load for him, as you say you expect it will

Molasses is so scarce in Town now that it was with difficulty I could get a Hhd for Mr Ringgold this Morn^g However on Monday I'll try again for you; There is a Vessel expected every day when at any Rate you may be supplied. It has not sold higher than 1/9, The Tur=pentine you shall have also. I think you did right in selling your Corn & even staying for the Money, I don't find any demand here for it

If you should not have Tob^o enough to fill up the Schooner with detaining her, I have wrote to Mr Smyth who was to get his own Plantation Tob^o ready & I dare say will put some onboard. I am Dr, Sir Your Very Hble Servt J C
