MIDDLE LIFE

A Time When Women Are Susceptible to Many Dread Diseases—Intelligent Women Prepare for it. Two Relate their Experiences.

The "change of life" is the most critical period of a woman's existence, and the anxiety felt by women as it draws near is not without reason.

Every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition, or she is predisposed to apoplexy, or congestion of any organ, the tendency is at this period likely to become active—and with a host of nervous irritations make life a burden. At this time, also, cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness, are promptly heeded by intelligent women who are approaching the period in life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound was prepared to meet the needs of woman's system at this trying period of her life. It invigorates and strengthens the female organism and builds up the weakened nervous system.

For special advice regarding this important period women are invited to write to Mrs. Pinkham at Lynn, Mass., and it will be furnished absolutely free of charge. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham, her assistant before her decease, and for twenty-five years since her advice has been freely given to sick women.

Read what Lydia E. Pinkham's Compound did for Mrs. Hyland and Mrs. Hinkle:

Dear Mrs. Pinkham:—

"I had been suffering with displacement of the organs for years and was passing through the change of life. My abdomen was badly swollen; my stomach was sore; I had dizzy spells, sick headaches, and was very nervous.

"I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me and I have passed safely through the change of life, a well woman. I am recommending your medicine to all my friends."—Mrs. Annie E. G. Hyland, Chestertown, Md.

Another Woman's Case

"During change of life words cannot express what I suffered. My physician said I had a cancerous condition of the female organs. One day I read some of the testimonials of women who had been cured by Lydia E. Pinkham's Vegetable Compound, and I decided to try it and to write you for advice. Your medicine made me a well woman, and all my bad symptoms soon disappeared.

"I advise every woman at this period of life to take your medicine and write you for advice."—Mrs. Lizzie Hinkle, Salem, Ind.

What Lydia E. Pinkham's Vegetable Compound did for Mrs. Hyland and Mrs. Hinkle it will do for other women at this time of life

It has conquered pain, restored health, and prolonged life in cases that utterly baffled physicians.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Items Of Interest To Women.

Many of our readers would, doubtless, give much to know of a quick and sure way of ridding the house of mice, which infest certain localities and are a source of annoyance to even the most careful housekeepers.

Here is a story that comes from England and points a moral in that direction: Marie had just been introduced into the kitchen by her new mistress who, after a few necessary directions, withdrew; but she had not gone far when she heard shrieks proceeding from that department and returned to find Marie standing on top of the table with her skirts raised high and gathered around her. On spying her mistress she declared she had seen a mouse, and could not live in a house where they were allowed to run about at pleasure. If her mistress had only known about dusting cayenne pepper around places where mice are likely to enter, and stopping their holes with little wads of cotton thoroughly sprinkled with the pepper, she would not have had that unpleasant experience with Marie.

A French way of cleaning the inside of glass decanters and vinegar cruets will be found the simplest and most effectual. It is to take the shells of eggs before they are dried, after the eggs are removed, and crush them into small bits, putting them into the bottle or cruet with a little water and shaking well until the glass looks clear then remove the shells, rinse with warm, soapy water and afterward with clear, cold water.

Some of the most toothsome of dainties are the result of the experiments of college girls with chafing-dish concoctions. The latest is one of the changes they love to ring on old favorites, which in this case is fudge. They first fill the dish with fresh marshmallows, then pour the hot fudge over them.

A delicious dessert is made with whipped cream, to which has been added enough good maple syrup to flavor it to the taste. Pack in a freezer and let it stand a couple of hours before serving.

Many housekeepers are at a loss to know how to use up cold meats to make an appetizing dinner dish. Two kinds of cold meat can be utilized in Bordeaux Cutlets. Finely mince the meat, season to taste with salt, pepper and a little "Worcestershire sauce"; add about one-third the quantity of mashed potatoes; mix with enough white of egg to make the mixture of such consistency as to be easily formed into small chops; stick a small piece of macaroni in each to imitate the bone, dip in beaten egg, then in bread crumbs, and fry a nice brown in beef fat and butter. Serve around a mound of mashed potatoes and border the dish with green peas.

The latest addition to the sandwich family is a sweet sandwich with a filling made of figs, dates and nuts in equal proportions, chopped very fine and moistened with lemon juice.

MARTHA KELLER

Reclamation of Drunkards

An attempt to repeal the law of 1894 with reference to the inebriate act signally failed at the late session of the legislature, and, though strenuous efforts were made to exempt Baltimore city and Baltimore county from the operation of the law, the act stands as it has for 12 years, or since the late Philip Avirett succeeded in placing it on the statue books. At no time was it contended that the law was not a good one, or that it had not done much for the unfortunates who had availed themselves of the opportunity to be cured of their bad habits and become productive and useful citizens. It was a more sordid plea that was availed of. It was claimed that the act was unduly expensive and a burden to the taxpayers.

In fact, however, experience has taught that there have been distinctive gains through the reclamation of many drunkards, who have become productive and are no longer a menace to the state. At the Springer Sanitarium at Towson, the only institution in the state where it is claimed to restore drunkards to permanent sobriety, in the past three years about 60 patients have been committed under law, and of this number at least 85 per cent, have been permanently restored.

The law provides that any man who honestly desires to be cured can be committed under any of the Circuit Courts in the city or counties and there treated carefully and logically by skilled physicians under the Springer method, which has been signally demonstrated to be successful. Every safeguard has been thrown around the law so that no unworthy applicant can be treated, and not until the city solicitor and the judge in the court examines into the matter can a man take the step which means so much to himself, to his family and the community at large.

Don't make any mistake, but remember the name, Swamp Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
