WM. B. USILTON'S SONS,
PUBLISHERS.

SATURDAY, NOVEMBER 24, 1906

LET all the people praise the Lord for His goodness and mercy to the children of men!

THE wages of 7,500 motormen and conductors in Philadelphia have been increased 5 per cent. This means an additional outlay of about $270,000 a year. The men are receiving 20 cents an hour.

DOESN'T it seem rather strange that while railroads are raising wages, labor more expensive and staple goods are increasing in cost the farmer's products, such as wheat and corn, remain at the same low figure.

THE Baltimore Sun comes out in a strong editorial favoring the renomination of Governor Warfield as the Democratic candidate next year. The Sun will have great influence in controlling Democratic action, of course, as its *usual unselfish support of the regular candidates* entitles it to speak for the Democracy!

THE Eastern Shore was basking neath a summer sky with the mercury about 68° Wednesday when such reports as these came from elsewhere: "Blizzard at El Paso," "Snowplows used in Texas," "Tornado in Tennessee," "Temperature drops to zero in Colorado," etc. "Be it ever so humble, there's no place like home."

ATTORNEY GENERAL Bryan who has been regarded as Gov. Warfield's closest adviser and political friend, will not join in the "call" for the Governor's renomination. He announces that he will favor the nomination of Hon. Frank Furst by the Democrats. This is an admirable suggestion. With such a man to head the ticket next year the Democrats would be sure of winning.

RICH in this world's goods but poor in other respects is the condition of Wm. H. Jackson. He has finally gotten somebody to frame a letter of denial for him to some of the statements he made a week ago. Surely "silence is golden" in his case. He finds that the public have more feeling over the purchase of a seat in Congress than he thought. He sang after the "Amen" had been pronounced and of course created a sensation.

DR. H. G. WEEDON, one of the "rock-ribbed" Democrats of our sister county, has become so disgusted with politics that he refused to vote at the last election. No wonder. If any one can understand Queen Anne's politics he is a political wiseacre! The Dr. says he will never vote again until some political decency is manifest.

What Next?

Senator Tilghman, of South Carolina, one of the most distinguished lecturers in the country, was recently engaged to deliver one of his lectures in Chicago, when lo the news comes that he *will not be allowed to do so* as he is personally offensive to the colored people! Not that there is anything in the lecture itself objectionable. It is only that the negroes don't like the Senator's politics! This is the second time recently that three of our greatest American cities have been boycotted by negroes. Only a few weeks ago a mob of negro roughs bulldozed the Mayor of Philadelphia and closed one of the leading theatres there to the play of "The Clansman," which has been on the boards for years in all the leading cities. What next?

"The Auditing Committee has been unavoidably delayed in its work of examining the affairs of the County Commissioner's office, and will be unable to finish its work for several weeks yet."

The above item is from our esteemed cotemporaies and is here quoted that the NEWS may correct same. The auditing committee stated to the NEWS man that they have *not* been "unavoidably delayed in examining affairs in the County Commissioners' office" but have rather been aided and assisted by the courteous clerk. Further, rather than "unable to finish its work for several weeks yet," *they finished their labors last Saturday* and their report is now in the hands of the Court. We are sure our cotemporaries were misinformed about this committee and the NEWS takes pleasure in giving the above information.

The auditors' report will appear in the NEWS within a few weeks. They were at the work just 37 days. The wisdom of their appointment was again demonstrated and the Court is to be congratulated upon the selection of Messrs. James S. Harris, Harry C. Willis and Wilbur Eliason.

CAUCASIAN AND NEGRO.

They Are Fundamentally Opposite Extremes In Evolution.

The Caucasian has the subjective faculties well developed; the negro the objective. The Caucasian, and more particularly the Anglo-Saxon, is dominant and domineering and possessed primarily with determination, will power, self control, self government and all the attributes of the subjective self, with a high development of the ethical and aesthetic faculties and great reasoning powers. The negro is in direct contrast by reason of a certain lack of these powers, and a great development of the objective qualities. The negro is primarily affectionate, immensely emotional, then sensual, and, under provocation, passionate. There is love of outward show, of ostentation, of approbation. He loves melody and a rude kind of poetry and sonorous language. There is undeveloped artistic power and taste—negroes make good artisans and handicraftsmen. They are deficient in judgment, in the formation of new ideas from existing facts, in devising hypotheses and in making deductions in general. They are imitative rather than original, inventive or constructive. There is instability of character incident to lack of self control, especially in connection with the sexual relation, and there is a lack of orientation or recognition of position and condition of self and environment, evidenced in various ways, but by a peculiar "bumptiousness," so called by Professor Blackshear of Texas, this is particularly noticeable.

The white and the black races are antipodal, then, in cardinal points. The one has a large frontal region of the brain, the other a larger region behind; the one is subjective, the other objective; the one a great reasoner, the other pre-eminently emotional; the one domineering, but having great self control, the other meek and submissive, but violent and lacking self control when the passions are aroused; the one a very advanced race, the other a very backward one. The Caucasian and the negro are fundamentally opposite extremes in evolution.—Robert Bennett Bean in Century.

PLANT PECULIARITIES.

No plant will produce flowers unless there is iron in the soil in which it grows.

All plants are provided with flowers, though sometimes these are so small and so hidden as to escape notice.

The bleeding heart, according to an eastern legend, originated in the drops of blood which fell from Christ's side at the crucifixion.

Every flower that has a perfume at all secretes a volatile oil, the evaporation of which constitutes the peculiar odor characteristic of the blossom.

The smallest flower known to the botanist is said to be that of the yeast plant. It is microscopic in size and is said to be only one-hundredth of a millimeter in diameter.

According to the poetical idea of Catullus, the rose was once white, but blushed red and remained so out of shame for allowing its thorns to inflict a wound on the feet of Venus.

A Turkish Story.

The Turk, as a rule, is not energetic, but he is capable of sudden bursts of activity. A writer in Cassell's Family Magazine gives an illustration:

He was going home late one night in Constantinople when a man ran by him, pursued by four zaptiehs. Directly they caught the man they belabored him vigorously with the butt ends of their guns. The Englishman interfered.

"If he is a thief, why not take him to prison and let him be tried properly? Don't half kill the man without a trial."

"O effendi," said the spokesman of the party, "we don't mind his being a thief. We're only hitting him because of the trouble he gave us to run after him." And that is an offense which the average Turk never forgives.

The Catlike Fox.

The fox is an excellent mouser. He will lie and watch for a field mouse in the long grass like a cat, pounce upon it, kill it with a bite and lay it on one side until he has caught another and another, when, picking them all up, as many as he can carry in his mouth, he will canter away with them to serve them out to the cubs. This fact was confirmed by witnesses in Scotland who were examined by a committee of the board of agriculture when taking evidence on the occasion of the plague of field voles on the lowland sheep farms in 1893.—London Graphic.

Pay Premiums Promptly.

Those who carry life insurance policies should be careful to see that the premiums are promptly paid. Neglect in this important matter has caused policies to be forfeited. It is best to pay premiums a few days before they are due. On the final day the policy holder may forget it or be called away, as many things can happen to cause neglect of payment.—Nashville American.

C. H. HURLOCK, AUCTIONEER.

Thanksgiving Preparations!

There is not a household but what makes special preparations for Thanksgiving. It is a patriotic event and teaches many a lesson.

For that occasion many a dining room appears in an entirely new dress. Even when the arrangements are but meagre the table is fittingly set. Cut-glass and silverware abound. Candelabras are always a part of the spread. There are one or more cut-glass flower vases. The cranberry dishes as a rule, are cut-glass. Then there is the cut-glass berry bowl and the cut-glass nut dish. Plenty of silver-plated nut crackers are in evidence. All the tableware is either silver-plated or sterling silver. Even some carving sets have silver plated handles. Yes, as a rule, the coffee is served from a silver set.

Whatever you are short for the Thanksgiving table in cut-glass or silverware, rest assured that it is here at the lowest possible price. Even if you desire silverware matched, we can supply the missing pieces.

As a rule it is a pleasure to look at the head of the house as he carves the turkey. If there is a time that he is particular about his dress it is at this occasion. Everything shine around him and on him. The rings, scarf pins, stud, watch and chain, all appear brilliant.

Let us supply the missing things

EYES Free
EXAMINED
AT ROTE'S

I have succeeded in arranging with DR. SAMUEL H. PINE, one of the best Refracting Opticians of Baltimore, Maryland, to examine eyes in my store every TUESDAY and WEDNESDAY from 9 a. m. to 9 p. m., beginning December 4th, 1906.

If you are troubled with sick headache, pains in the top or back of the head, or in the eyes, come and have them thoroughly examined by Dr. Pine. If these troubles are caused by defective vision, the doctor will tell you so, and if from other causes he will be just as candid with you.

Dr. Pine comes to me very highly recommended and a great number of you know him already as being thoroughly competent and reliable.

Bring your old glasses with you and see if they are the proper kind. There will be no charge for examination and he will fit you with glasses at the most reasonable prices. At
