# There Is NO Guess Work About It

## WILBUR W. HUBBARD'S FERTILIZERS

### MUST HAVE

Superior quality and absolute Uniformity and Purity. This spring makes their 64th season in business and their trade has increased each year in spite of competition, their sales for the past year having been larger than ever before. Can the sales of an inferior article constantly increase all these years?

Our fertilizers are not better than all others, but they have been, and we are willing for you to try them in competition with any goods on the market.

### WE PRESUME

you are now thinking about Asparagus, Corn, Potatoes, Peach Trees and top dressing your hay. Well we have the goods to apply and at all right prices.

### BUT FOR TOMATOES

Everybody knows that our Peerless is the goods to use on them, for it has quality and is made of the very best materials known to the trade and one ingredient we use in it is the only phospate that contains this article outside of France where it has been used so successfully in tomato and truck fertilizer.

Mr. Jas. F. David of Smyrna says he grew with it last year the finest tomatoes he ever saw grow he picked a basket that weighed 1½ lbs. each. He grew onions that measured 13 inches in circumference. He grew corn some stalks 13½ feet high and ears 14 inches long. The late Captain Emory grew on one occasion 17 tons per acre. Mr. Zac T. Gilbert grew 19 tons to the acre. Mr. G. W. Collins has bought as high as 50 tons per year, and his men grew from 12 to 15 tons per acre. We have sold already in Anne Arundel county, the lower counties and New Jersey, hundreds of tons. Messrs. Baker and Morgan have bought as high as twelve hundred dollars worth; Captain Dashiel says he would have it if he had to give $50.00 per ton for same. Mr. Joseph Downey says when he was canning that he could actually tell the difference in tomatoes grown with Peerless when brought to his cannery. Mr. Numsen says he knows that tomatoes grown with our goods are fine. Mr. Frank Moore, who runs Assaw Bains & Co's cannery, says the best tomatoes brought there are from Peerless. Mr. Loose, a customer of his, says a ton of Peerless grew him $96.00 worth more tomatoes than another goods costing $7.00 less per ton. Mr. Money says it is certainly good. We could go on, but with a testimonial will close.

Unsolicited some time ago Mr. J. W. Elburn & Son came in our office and said: "I believe your Peerless to be the best tomato goods I ever saw. You remember what an advocate I was of it when I lived out at the mill. Well, wherever I have lived since, on the Western Shore or elsewhere, I would have it, and last year I put some of this same goods on some onions grown from the seed, and they were as fine as Burmudas. Many measured 4 inches in diameter, and I grew over 600 bushels per acre, or at rates of 1162 baskets. I used it on strawberries and picked 8000 quarts per acre."

## JOHN BARTLEY, Chestertown, Md.

### Facts About Furs.

It is astonishing how keenly informed every person seems to be who touches a piece of fur from trap to counter. The Indians of Alaska know the results of the last London sales, for the first vessel upcoast takes the price-lists to them, and then the news travels in the strange way of the wilderness. When the trader, say from Chicago, makes his trip to the Kenai peninsula of Alaska, he finds that the Indians will not take goods—they will have nothing but cash, and they want plenty of it. They know the prices as well as he, and they make them stiff enough and hold out long enough. Most of the fur collecting in that country is done by the local trader, who has some sort of post or store, and who makes the customary fur-trader's profit of a hundred per cent. on his goods. The Chicago man will buy of this local trader, who makes most of his money out of his goods. If the trader does not play fair, the Indians know there is another one across the divide or down another river.

Where are the fur countries now that the American West is gone? Since we do not own Siberia, Alaska is the best fur country left us. We get fox, sable, marten, lynx and bear in quantities from Alaska. There are some Alaska islands on which private parties are running fox farms, raising blue fox fur, with varying success. Formerly traders could bring out moose heads from Alaska, and a giant moose head, with a spread of seventy inches and over, would bring three hundred dollars and upward. The Government has stopped the shipment of these moose heads from Alaska, and the fur traders grumble. It is not likely that the giant moose and bear of the Kenai peninsula will be preserved. A railroad is building through that country; and we have records of what railroads do to wild game.

Some fur now comes to America from Japan, but it is not very valuable, and has not been much imported. All the Japan furs are of bad color—a sort of "yellow peril," tabby-cat color, which is quite impossible. They do not take the dye evenly, so do not reach top prices. You may have bought a bargain in brown sable, which was Japan marten dyed. Of course you know that "Alaska sable" is plain skunk, and that "Japanese bear" is Chinese dog or Japanese goat. The humor of the retail fur trade is Homeric, recognizing the fact that geography is not an exact science, and that relatively few people know much about existing fauna.

If you want to get rich quick, find yourself some place where you can get sea-otter skins. The London market used to show sales of 4500 of these skins annually. Last year there were only thirty or forty sea otters returned from all the Alaskan coast. A good skin, once worth about three hundred dollars, is now worth about twelve hundred dollars. Sometime a whole tribe of otter-hunting Indians will take only one or two skins during the year.

S. SCOTT BECK, WILLIAM W. BECK, } Attorneys.

### Order of Publication,

A. W. Emory, John L. Smith,
versus
Hester Pipes, William Henry Pipes, Carrie Pipes, Samuel G. Pipes, Julie Pipes.

In the Circuit Court for Kent County, in Equity. No. 1613.

The object of this Bill is to procure a decree for the sale of the real estate of Henry Pipes, deceased.

The Bill of complaint of A. W. Emory and John L. Smith, by Wm. W. Beck and S. Scott Beck, their solicitors, respectfully shows.

That Henry Pipes was in his life time indebted unto your orator, A. W. Emory, in the full and just sum of twenty eight dollars and thirty-five cents, with interest thereon from the 2nd day of March, 1901, upon a balance due on open account which account is filed herewith and marked Plaintiff's Exhibit No. 1.

That the estate of Henry Pipes is indebted unto your orator, John L. Smith, in the full and just sum of twenty dollars with interest thereon from the 16th day of October, 1899.

Upon a balance due on open account for the burial of said Henry Pipes which account is filed herewith and marked Plaintiff Exhibit No. 2.

That the said Henry Pipes being so indebted unto your orators as aforesaid and also unto divers other persons, and having Real Estate of some value, but no personal estate sufficient to pay his debts, departed this life in the year 1899, leaving a widow, Hester Pipes, who lives in Millington, Kent county, and the following children survive him as heirs at law:—William Henry Pipes, who married Carrie Pipes, both of whom are non-residents of this State and reside in the city of Wilmington, State of Delaware, and Samuel G. Pipes, who married Julie Pipes, both of whom are non-residents of this State, and reside in the city of Philadelphia, State of Pennsylvania—

And that the said Henry Pipes left a last will and testament which was probated in the Orphan's Court of Kent County aforesaid on the 30th day January, 1906—

A copy of which is filed herewith and marked Plaintiffs Exhibit No. 3—

And your orators are informed and believe that the said Henry Pipes left a small and insufficient personal estate for the payment of his debts, and that letters of administration have never been granted on his estate, and your orators are advised that in order to pay their claims and the other debts due from the said Henry Pipes, it is necessary for the said real estate to be sold, which said real estate is in the First Election District of Kent county aforesaid, on the left side of the public road leading from Millington to Smyrna, Delaware, and adjoining the property of Samuel Hines and others, containing two acres of land, more or less, which property was conveyed to the said Henry Pipes by Isaac M. Jones, administrator of Thomas McLaughlin, by deed dated the 18th day of October, 1875, and recorded in Liber J. K. H. No. 12, folio 427, etc., and there is nothing else out of which your orators can secure the payment of their claims.

To the end therefore, that the said real estate of the said Henry Pipes, deceased, be sold for the payment of your orators' claims, and the other debts which may be due from the said Henry Pipes, and that your orators may have such other and further relief as their case may require.—

It is thereupon this 9th day of April, 1907, ordered by the Circuit Court in Equity that the complainants, A. W. Emory and John L. Smith by causing a copy of this order to be inserted in some newspaper printed and published in Kent county, Maryland, once in each of four successive weeks before the 18th day of May next, give notice to the said non-residents defendants, Wm. Henry Pipes and Carrie Pipes, his wife, Samuel G. Pipes and Julie Pipes, his wife, of the object and substance of this bill, and warning them to appear in this Court in person or by solicitor on or before the 30th day of May, next, to show cause, if any they have, why a decree ought not to be passed as prayed.

JAMES T. DIXON, Clerk.

## BACKACHE AND DESPONDENCY

MISS LENA NAGEL

Are both symptoms of organic derangement, and nature's warning to women of a trouble which will sooner or later declare itself.

How often do we hear women say, "It seems as though my back would break." Yet they continue to drag along and suffer with aches in the small of the back, pain low down in the side, dragging sensations, nervousness and no ambition.

They do not realize that the back is the main-spring of woman's organism and quickly indicates by aching a diseased condition of the feminine organs or kidneys, and that aches and pains will continue until the cause is removed.

## Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs has been for many years the **most successful remedy** in such cases. No other medicine has such a record of cures of feminine ills.

Miss Lena Nagel, of 117 Morgan St., Buffalo, N. Y., writes:—"I was completely worn out and on the verge of nervous prostration. My back ached all the time. I had dreadful periods of pain, was subject to fits of crying and extreme nervousness, and was always weak and tired. Lydia E. Pinkham's Vegetable Compound completely cured me."

Lydia E. Pinkham's Vegetable Compound cures Female Complaints, such as Backache, Falling and Displacements, and all Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach. Cures Headache and Indigestion and invigorates the whole feminine system.

**Mrs. Pinkham's Standing Invitation to Women**

Women suffering from any form of female weakness are invited to write Mrs Pinkham, Lynn, Mass. Her advice is free.
