I cannot yet say in whose favor, as they are sent to a different part of the country to sell; the 30th one of £500, on the same predicament as the other two. The 31st in favor of John Craig £219.7.1. by of Jesse Hollingsworth £100 —

I have now 400 bbls of flour by me, which the Ship could not take — These I suppose I must keep for the Million, with which I can Charter a small Vessell and get money to purchase enough, with that, to fill her

Next post I expect to hear from Virginia abt Tob.o — Here and on the Eastern Shore, they are asking 25/ ₩ct already, and on the head of Potomack 20/ & 22/6 ₩ct, but none as yet brought to the Warehouses in this province. The London consignment has made the high price, Tob.o is got to with you, all over the province and the peoples expectations are raised extravagantly high. Common Tob.o I am fearful will not be lower than 25/. If not 30/ & colors in proportion — I am Gent.

To Messrs Stevens & Randolph & Chester Bristol —

Dear Sir Baltimore 7th april 1775

Your favour of the 26th ult.o came to hand only this Day — The inclosed Bills of Exchange on Mr Molleson I shall remit, as his paying that Sum will not preclude you from making any further demand of what you may think stil due. The Box with £100 came to hand the same time with the Letter, for which I am much obliged; I'll assure you I was never so pushed in my life for Money —

I cannot yet say any thing about the price of Tobacco, but if you should be in any danger of Losing any by not offering some price or as much as any other, you may tell your Customers, you'll give as much as is generally given in the course of the Season provided they will let you have it early, and I will take it from you at the price you give — The moment I am able to form an opinion about the price I'll write you, and if you should want some cash and I can possibly scrape it together, I will supply you — I know you'll do with as little as possible

I am afraid twill be hardly possible to find a Man here, I would choose to recommend as a Skipper for your Craft, there is not one in a hundred that I dare to be trusted. However if one is to be met with I'll engage him for you — If any Tobacco is to be got at 20/ by all means take it as in all probability it will be higher by and by. I am

Dear Sir
Your very Hum.l Servt
J. G.

To Mr John Page
Swan Creek
