HOW I WAS CURED OF SCROFULA

"I was in a very bad condition with scrofulous swellings round my neck. It started with a bunch on the side of my neck and it kept growing until the whole side of my face was swollen.

"I had tried everything in the shape of medicines for five years. I had gone under an operation in one of the hospitals in Boston and had them cut out. I had thirty little tubular glands taken from back of my ear down my shoulder. After the cuts healed over they started to come again and worse than before.

"After suffering so much I thought I would try Pinkham's Blood Purifier and before I had taken two bottles there was a great change in the swellings. I continued its use and to-day I am a well woman Every word of this is true.

"I cannot speak too highly in praise of Pinkham's Blood Purifier." —MRS. W. H. HAYNES, 38 Adams Avenue, Everett, Mass.

The tendency to Scrofula seems to be hereditary and it is hard to overcome. It may lie dormant for years, and then break out anew from time to time.

The only known remedy for Scrofula is to keep the blood pure and rich by the use of a good blood purifier. It may require long treatment, but Mrs. Haynes found that Pinkham's Blood Purifier cured her of this dreadful disease, after all other means had failed.

Pinkham's Blood Purifier is equally as good for all diseases emanating from impure, impoverished blood, and is the best Spring medicine known. People will find the Blood Purifier just as reliable a remedy as the women of the world have found Lydia E. Pinkham's Vegetable Compound. Unequalled — satisfying and dependable.

MUMPS ARE VERY PREVALENT IN KENT

Hundreds of Children and Some Grown Persons Afflicted With the Disease.

Perhaps never before have so many cases of mumps appeared hereabout. There have been hundreds of cases in Kent during the past few weeks. Mumps or parotitis, as the doctors call it, because the parotid gland is the one to be affected, is an extremely contagious and disagreeable but not at all dangerous disease. When it attacks children the symptoms are likely to be mild, the child playing around and making few complaints of discomfort. When an adult is the victim, the symptoms are likely to be much more severe.

It is most frequently seen between the ages of four and fourteen years. Its great contagiousness is seen in the fact that the infection may be conveyed by a third person, the patient having had no personal contact with a sufferer from mumps. Cold, damp weather is favorable to an epidemic, especially among people who live in badly ventilated houses and sleep in stuffy bedrooms. Those unfortunate people, mouth-breathers, who seem to pay the price for their physical wrong-doing in so many ways, are said to be more likely to suffer from mumps than are those who breathe properly with closed lips, and this is very probably the fact. Although it is known that mumps must be caused by a germ, the particular germ has not yet been discovered.

The word parotid is derived from the Greek, and means "near the ear." This gland begins near the front of the ear and runs down the lower jaw. When a person is "in for mumps" the first symptoms may be a swelling in this gland, although in many cases there are preliminary symptoms, such as a slight rise in temperature, with headache and a feeling of general discomfort and illness. In this stage the diagnosis will be in doubt, but the doubt will soon be dissolved by pain and stiffness localizing in the angle of the jaw below the ear, accompanied by a swelling of the entire gland.

In many cases the left side is the first to be affected, the right side following in from twenty-four to thirty-six hours. By this time the sufferer is not only in a state of considerable discomfort, but is also rather comically disfigured by the tremendous swelling of the lower part of the face. He also has a good deal of pain radiating toward the ear, cannot open his mouth more than half an inch, cannot chew, and can hardly swallow or speak. Presently the gland first affected begins to go back to its normal size, and in a week or ten days the attack is over.

There is not much to do in the way of treatment. As long as there is fever the patient should be kept in bed, and in the house until the swelling has disappeared. The diet should be fluid because it causes so much pain to open the jaws; and if there is too much pain otherwise, hot fomentations will often give relief.

MR. MASSEY AND MR. LEE PROMOTED

Robert V. Massey, formerly Division Engineer of the New York Division, was Tuesday appointed Superintendent of the New York, Philadelphia & Norfolk Railroad, with headquarters at Cape Charles, Virginia. Mr. Massey succeeds Elisha Lee, who has just been appointed Assistant to the General Manager of the Pennsylvania Railroad.

Mr. Massey was born at Dover, Delaware, September 29th, 1871. He graduated from Yale University in 1892, in which year he entered the service of the Pennsylvania Railroad. In 1895 he was attached to the office of the Principal Assistant Engineer at Altoona, and on November 1st of the same year he was appointed Assistant Supervisor on the Western Pennsylvania Division. April 1st, 1897, he became Assistant Supervisor of the Baltimore Division, and on April 1st, 1899, Assistant Supervisor of the Middle Division. Mr. Massey was promoted to the position of Supervisor on the Schuylkill Division August 1st, 1900. In 1902 he went to the Maryland Division in the same capacity, and on December 15th, 1905, to Supervisor of Division No. 13 the Pittsburg Division. He became Division Engineer of the Schuylkill Division on April 1st, 1907, and on January 1st, 1909, was appointod Division Engineer of the New York Division, which position he held until his latest appointment.

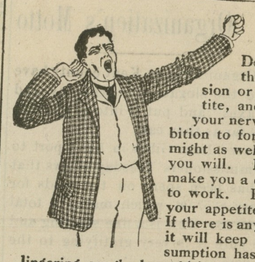
Elisha Lee, who has just been made Assistant to the General Manager of the Pennsylvania Railroad, was born in Chicago September 24th, 1876. He graduated from the Massachusetts Institute of Technology in 1892, and in November of that year entered the service of the Pennsylvania Railroad in the office of the Assistant Engineer of the Tyrone Division. He was made a rodman in the year 1897, and on April 17th, 1899, he was promoted to Assistant Supervisor on the Western Pa. Division. His subsequent appointments prior to being appointed Division Engineer, were Assistant Supervisor West Jersey and Seashore Railroad, November 1st, 1899; Assistant Supervisor Philadelphia Division, July 16th, 1900; Supervisor Eastern Division Philadelphia & Erie Railroad, April 15th, 1901; Supervisor Philadelphia Division, November 10th, 1902. On August 20th, 1903, Mr. Lee was promoted to Division Engineer of the Buffalo & Rochester Division. Three years later he was appointed Division Engineer of the Philadelphia Terminal Division, and on April 1st, 1907, he became Principal Assistant Engineer of the Philadelphia, Baltimore & Washington Railroad Company. On March 24th, 1909, he was promoted to Superintendent of the New York, Philadelphia & Norfolk Railroad, which position he held until his latest appointment.

FISHERMEN declare that early indications point to one of the largest run of shad in recent years. The fish are already making their way into the Chesapeake Bay, and, while the season is some weeks distant, shad fishermen are already making extensive preparations for the coming of the big fish.

THE story is told that a certain woman was reading the matrimonial columns of a paper and remarked to her husband: "Here's a strange co-incidence—A William Strange Married to a Martha Strange." "Strange indeed," remarked her husband, "but I expect the next news will be a little stranger."

Children Cry
FOR FLETCHER'S
CASTORIA

Do You Feel This Way?



Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor apetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OF KNOWN COMPOSITION. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.
