HOW
I Was Cured of Malaria

"I was for over five years troubled with Malarial Fever. It would almost always come on in the Spring and would bother me for the remainder of the summer. I tried different medicines, but they did not seem to help me. I also had the doctor off and on for some time but the next year I would be troubled just the same and I would have to be at home for several weeks. I would be in bed one day and have chills and a heavy fever, and the next day I would be up about the house, and this is the way I would be for several weeks each summer.

"I finally decided to try some good blood medicine, so I began taking Pinkham's Blood Purifier, and found it did me lots of good. I began taking it early in the spring and continued taking it all through the summer. I found, after taking a few bottles, that my body was covered with pimples, and it seemed to drive all the humor out of my blood. After that I felt much better, and now I am just as healthy as ever I was, and I am never troubled with Malarial Fever."—GEORGE P. STRONG, 35 Groveland Street, Lynn, Mass. Thousands of people believe in

Pinkham's Blood Purifier

Malaria is caused by a parasite which gets into the blood, and unless the blood is in a healthy condition and has normal resisting properties, they attack and destroy the red corpuscles, and so seriously impair the general health.

Chills and fever are the most marked symptoms of Malaria, which can be cured by purifying and enriching the blood. Mr. Strong found that Pinkham's Blood Purifier cured him after all other means had failed, and what it did for Mr. Strong it will do for other sufferers.

ALL DRUGGISTS SELL IT

WHY DON'T YOU TRY IT?

M. KRAMER
ROCK HALL, MD.

LOWER TAXES AND ECONOMY

The People's or Organization Candidates Are Pledged to These Two Things—The Roads as Now Managed an Example of What Can Be Saved For The Taxpayer.

As each month's work of the management of the public roads of Kent county are published exclusively in the NEWS the People are becoming more and more impressed with the wisdom of the change. Of course it was expected that those who had been doing road work *for the sake of work* would object to the change; also that those who could not name or make the road engineer act according to his or their dictation would criticise or try to interfere with the new system, but the taxpayer interested in lower taxes and economy is the one benefited. This economy, however, is not by any means at the sacrifice of good roads, for it is a well-known fact that the roads are in better shape today than for some years.

Engineer Isaac Gibbs in his report to the Commissioners Tuesday shows that there has been spent on the roads for April $2,194.40, which makes a total of $10,817.23. This time last year these figures were about $30,000. Of this amount $1,121.58 was spent for permanent roads, nearly equal to State road, in parts of the third, fourth and fifth districts. The roads running from Betterton towards Still Pond, the road in Sandy Bottom and also the road at Tolchester have also been improved with shells. This system will be continued throughout the various districts until the sandy places and bad hills as far as possible shall have been put in good condition.

These are the items that Engineer Gibbs reported to the county commissioners which detailed statements are on file with the commissioners giving everything spent and to whom paid:

The items by districts are as follows: first, $520.44; second, $261.90; third, $326.81; fourth, $373.97; fifth, $217.69; sixth, $276.84; seventh, $216.75.
