I come home, which shall be the Mont.t I
can, consistent with the tie I am under
here — Altho' the Opportunity this I expect
will go by, is not a very certain one, yet
I have resolved to send Another Power of
Attorney by it — There is chance of the Person
who will witness it being in London
in a little time, In which case it will
be good — If not — it can't be helped, tho'
for fear of it — I shall send Another Du-
plicate whenever a Conveyance offers.
As Matters are circumstanced here, our
Debts are upon a Most precarious footing
If Independancy forms of Government are
set up, which I think may be the case
Directly, It may be lucky I stay here,
As, If money is to be got at all, It may be
the Means of getting it much easier tho
Debts are paid Now —
