Poet's Corner.

OVER THE WAY.

The poem below is from the pen of Mr. Charles Mackay, the English poet, and reflects honor on his muse, his character, and his sentiments.

OVER THE WAY.

When cold-hearted Poverty knocks at my door,
And robs me of blessings I gathered before,
Takes a glass from my table, a coal from my fire,
And robes my dear Nelly in meaner attire,
I envy sometimes, in the heat of the day,
My very good friend who lives over the way.

But when I sit down at my pleasant fireside,
And count o'er the joys I was never denied—
My sweet little wife, and the babes at her knee,
My health and my conscience unsullied and free,
No longer I suffer my wishes to stray,
Or envy my friend who lives over the way.

He's wealthy, but feeble; he's tilted, but old;
His son is a spendthrift, his wife is a scold;
Suspicious of others, ill pleased with himself,
His only delight is to reckon his pelf,
Where he ten times as rich, I'd refuse, night or day,
To change with my friend who lives o'er the way.

Though Poverty, frowning, peeps in at my door,
I'll never be beaten nor vainly deplore;
I'll scare him away by hard work if I can,
And look in his face with the heart of a man;
And, living at home all the joys that I may,
Forget my poor friend who lives over the way.

Housewife's Department.

Ready Made Yeast.—Perhaps all our lady readers may not understand the best method of having good ready made yeast always at hand. We invariably have good bread made from yeast prepared as follows: put into three pints of water a handful of hops and nearly a quart of pared potatoes cut into small pieces. Boil for half an hour, and strain while scalding hot into sufficient flour to make a stiff batter. Stir it well, adding one table-spoonful of fresh yeast, and set into a warm place to rise. When light mix it stiff with Indian meal, roll, out thin and cut into round or square pieces from two to two and a half inches in diameter. Dry these thoroughly and keep them in a bag in a dry place. They will remain good for months. Before using take one of these cakes for each medium-sized loaf, soak in warm water till soft, and add a teaspoonful of soda for three or four yeast cakes. Add this to the flour with warm water, and raise in the usual manner. Some put the light yeast without adding the Indian meal, into close jars or jugs, and use as needed. It will not keep many weeks by this method.

To Wash China Crape Scarfs, etc.—If the fabric be good, these articles of dress can be washed as frequently as may be required, and no diminution of their beauty will be discoverable, even when the various shades of green have been employed among other colors in the patterns. In cleaning them make a strong lather of boiling water; suffer it to cool; when cold or nearly so, wash the scarf quickly and thoroughly, dip it immediately in cold hard water in which a little salt has been thrown (to preserve the colors,) rinse, squeeze, and hang it out to dry in the open air, pin it at the extreme edge to the line, so that it may not in part be folded together; the more rapidly the clearer it will be.

Orgeat.—This elegant syrup is prepared as follows: take twenty ounces of sweet, and eight ounces of bitter almonds; nine pounds of white sugar; and four pints of water. Blanch the almonds, dry them well, and beat them with a portion of the sugar, and gradually add two thirds of the water: strain through linen, wash the almonds on the strainer with the rest of the water, and dissolve the sugar in the strained liquor by a gentle heat. Pour the syrup into an earthen vessel, remove the scum, and when nearly cold add two ounces of orange flower water.

Sweet Bags for Linen.—These may be composed of any mixtures of the following articles: flowers dried and pounded; powdered cloves, mace, nutmeg, cinnamon; leaves—dried and pounded—of mint, balm, dragon-wort, southern-wood, ground-ivy, laurel, hyssop, sweet marjoram, origanum, rosemary; woods, such as cassia, juniper, rhodium, sandal-wood, and rose-wood; roots of angelica, zedoary, orris; all the fragrant balsams, ambegris, musk, and civet. These latter should be carefully used on linen.

Oyster Soup.—To one quart of oysters with their juce, put two quarts of cold water, half a pint of milk, and a heaping spoonful of salt; let them boil one minute; skim out the oysters and add half a tea-cup of crackers rolled fine, half a tea-cup of butter, and a little pepper; let it boil again; then pour over the oysters.

Silver Cake.—One pound of sugar, three quarters of a pound of dried and sifted flour, six ounces of butter, mace and citron, the whites of fourteen eggs. Beat the sugar and butter to a cream, add the whites, cut to a stiff froth, and then add the flour.

Ginger Cookies.—One cup of sugar, one of butter, one of molasses, one table-spoonful of ginger, one of cinnamon, and two tea-spoonsful of saleratus dissolved in three table-spoonsful of hot water. Bake quickly.

Rye Drop Cakes.—One pint of milk, three eggs, one table-spoonful of sugar, and a little salt. Stir in rye flour to about the consistency of pancakes. Bake in buttered cups, or saucers, half an hour.

Honey Cake.—One cup of nice sugar, one cup of rich sour cream, one egg, half a tea-spoonful of soda, two cups of flour. Flavor to the taste. Bake half an hour. To be eaten warm.

For Sore Throats.—Make a poultice of wormwood, boiled in sweet milk, and apply it to the throat.

When Jack Jones discovered that he had polished his bed-mate's boots instead of his own, he called it an aggravated instance of "laboring, and confoundedly hard, too, under a mistake."

"Isn't it time to think about getting up?" said the wife as she rattled at the door. "Yes, my dear, I have been thinking about it an hour and a half."

It won't do for a man to bump his head against an iron post, even with a brick in his hat, unless he conscientiously believes that his head is the hardest.

How may a man be known from a fatigued dog?—One wears a shirt, the other *pants*.

NEW FALL AND WINTER

DRY GOODS.

THE subscriber has just returned from the city with a beautiful stock of

Ladies' Dress Goods,

Comprising Figured and Plain French Merinos, Mouslains, Cashmeres, Ducals, &c.; also, a great variety of Plaid Cashmeres, for children, and various other Dress Goods too tedious to mention.

His stock of GENTLEMEN'S WEAR will also be found complete, comprising latest style French Cassimeres, Silk and Velvet Vestings, Beaver Cloth for Over-coats, fine French Black Cloth and Cassimere, Under Shirts, Drawers, Half Hose, of all kinds, Gloves, &c.

His stock of HEAVY GOODS, comprising Fulled Kersey, double and single width; heavy Satinetts, Linseys, &c., is worthy of notice, as also his stock of

HOUSEKEEPING GOODS,

Amongst which will be found a great many useful as well as ornamental articles.

His stock of FANCY ARTICLES will also be found excellent, indeed, comprising almost every article necessary for the Toilet, to which the especial attention of the Ladies are invited.

My motto, "*Quick sales and small profits,*" with the greatest desire to accommodate and please the public, has secured me a liberal patronage, for which I am *truly grateful*, and I respectfully solicit a continuance of the same. My terms, you know, are cash, for which a liberal discount will be allowed. An early call is respectfully solicited.

JOHN G. ROBINSON.
Oct. 24, 1857. Cambridge, Md.

BOWDLE & ROBINSON,
Herald Office, Cambridge, Md.
Nov. 14, 1857.

Of all disease, the great first cause
Springs from neglect of Nature's laws.

SUFFER NOT,

When a CURE is guaranteed

IN ALL STAGES OF

SECRET DISEASES,

Self-Abuse, Nervous Debility, Strictures, Gleets, Gravel, Diabetes, Disease of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, Diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epiliptic Fits, St. Vita's Dance, and all Diseases arising from a derangement of the Sexual Organs.

Such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, with peculiar spots appearing before the eyes, loss of Sight, Wakefulness, Dyspepsia, Liver Disease, Eruptions upon the face Pain in the back and head, Female irregularities an all improper discharges from both sexes. It matters not from what cause the disease originated; however long standing or obstinate the case recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physician and resisted all their means of cure. The medicines are pleasant without odor, causing no sickness, and free from mercury or balsam. During twenty years of practice, I have rescued from the jaws of Death, many thousands, who, in the last stages of the above mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a perfect and most speedy cure. Secret diseases are the greatest enemies to health, as they are the first cause of consumption. Scrofula and many other diseases, and should be a terror to the human family, as a permanent cure is scarcely ever effected, a majority of the cases falling into the hands of incompetent persons, who not only fail to cure the diseases but ruin the constitution, filling the system with mercury, which with the disease, hastens the sufferer into rapid consumption.

But should the disease and the treatment not cause death speedily and the victim marries, the disease is entailed upon children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in Scrofula, Tetter, Ulcers, Eruptions and other affections of the skin, Eyes, Throat and Lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

SELF ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system drawing its thousands of victims through a few year of suffering down to an untimely grave. It destroys the Nervous System, rapidly wasting away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a permanent and speedy cure, can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

The afflicted are cautioned against the use of Patent Medicines, for there are so many ingenious snares in the columns of the public prints to catch and rob the unwary sufferers, that millions have their constitutions ruined by the vile compounds of quack doctors or the equally poisonous nostrums vended as "Patent Medicines." I have carefully analyzed many of the so-called Patent Medicines and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury, and a deadly poison, which, instead of curing the disease, disables the system for life.

Three fourths of the patent nostrums now in use are put up by unprincipled and ignorant persons who do not understand even the alphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having one object only in view, and that to make money regardless of consequences.

Irregularities and all diseases of males and females treated on principles established by twenty years of practice, and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the United States or Canadas, by patients communicating their symptoms by letter. Business correspondence strictly confidential. All letters asking advice must contain a postage stamp.

IMPORTANT DISCOVERY.

CONSUMPTION
AND ALL
DISEASES OF THE LUNGS AND THROAT

Can be Cured by Inhalation.

WHICH conveys the remedies to the cavities in the lungs, through the air passages, and coming in direct contact with the disease, neutralizes the tubercular matter, allays the cough, causes a free and easy expectoration, heals the lungs, purifies the blood, imparts renewed vitality to the nervous system, giving that tone and energy so indispensable for the restoration of health. To be able to state confidently that Consumption is curable by inhalation, is to me a source of unalloyed pleasure. It is as much under the control of medical treatment as any other formidable disease; ninety out of every hundred cases can be cured in the first stages, and fifty per cent. in the second; but in the third stage it is impossible to save more than five per cent., for the Lungs are so cut up by the disease as to bid defiance to medical skill. Even, however, in the last stages, Inhalation affords extraordinary relief to the suffering attending this fearful scourge, which annually destroys ninety-five thousand persons in the United States alone; and a correct calculation shows that of the present population of the earth, eighty millions are destined to fill the Consumptive's grave.

Truly the quiver of death has no arrow so fatal as Consumption. In all ages it has been the great enemy of life, for it spares neither age nor sex, but sweeps off alike the brave, the beautiful, the graceful and the gifted. By the help of that Supreme Being from whom cometh every good and perfect gift, I am enabled to offer to the afflicted a permanent and speedy cure in Consumption. The first cause of tubercles is from impure blood, and the immediate effect produced by their deposition in the lungs is to prevent the free admission of air into the air cells, which causes a weakened vitality through the entire system. Then surely it is more rational to expect greater good from medicines entering the cavities of the lungs than from those administered through the stomach; the patient will always find the lungs free and the breathing easy, after inhaling remedies. Thus, Inhalation is a local remedy, nevertheless it acts constitutionally, and with more power and certainty than remedies administered by the stomach. To prove the powerful and direct influence of this mode of administration, chloroform inhaled will entirely destroy sensibility in a few minutes, paralyzing the entire nervous system, so that a limb may be amputated without the slightest pain; inhaling the ordinary burning gas will destroy life in a few hours.

The inhalation of ammonia will rouse the system when fainting or apparently dead. The odor of many of the medicines is perceptible in the skin a few minutes after being inhaled, and may be immediately detected in the blood. A convincing proof of the constitutional effects of inhalation, is the fact that sickness is always produced by breathing foul air—is this not positive evidence that proper remedies, carefully prepared and judiciously administered through the lungs should produce the happiest results? During eighteen years practice many thousands, suffering from diseases of the lungs and throat, have been under my care, and I have effected many remarkable cures, even after the sufferers had been pronounced in the last stages, which fully satisfies me that Consumption is no longer a fatal disease. My treatment of Consumption is original, and founded on long experience and a thorough investigation. My perfect acquaintance with the nature of tubercles, &c., enables me to distinguish, readily, the various forms of disease that simulate Consumption, and apply the proper remedies, rarely being mistaken even in a single case. This familiarity, in connection with certain pathological and microscopic discoveries, enables me to relieve the lungs from the effects of contracted chests, to enlarge the chest, purify the blood, impart to it renewed vitality, giving energy and tone to the entire system.

Medicines with full directions sent to any part of the United States and Canadas by patients communicating their symptoms by letter. But the cure would be more certain if the patient should pay me a visit, which would give an opportunity to examine the lungs, and enable me to prescribe with much greater certainty, and then the cure could be effected without my seeing the patient again. All letters asking advice must contain a postage stamp.

500 AGENTS WANTED.

A HOMESTEAD FOR $10!

THIRD DIVISION.

$310,000 WORTH OF FARES AND BUILDING LOTS,

IN the Gold Region of Culpepper County, Virginia, to be delivered amongst 10,200 Subscribers, on the 7th of December, 1857.—Subscriptions only Ten Dollars down, or $15, one half down, the rest on delivery of the Deed. Every subscriber will get a Building Lot or a Farm, ranging in value from $10 to $25,000. These Farms and Lots are sold cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked.

Upwards of 1350 lots are already sold, and a company of settlers, called "The Rappahannock Pioneer Association," is now forming and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises. Nearly 45,000 acres of land in different parts of Virginia now at command, and will be sold to settlers at from $1 up to $300 per acre. Unquestionable titles will in all cases be given. Wood-cutters, coopers, farmers, &c., are wanted; and 500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some agents write that they are making $200 per month. For particulars, subscriptions, agencies, &c., apply to E. BAUDER,
Port Royal, Caroline county, Virginia.

TO THE

Ladies and Gentlemen OF CAMBRIDGE,

AND DORCHESTER COUNTY.

THE undersigned having opened a new BOOT AND SHOE STORE, in Cambridge, adjoining the M. E. Church, and in the shop formerly occupied by Wm. Wingate, Deceased, has on hand a large assortment of city made work, which he has taken great pains to select, and where he is prepared to make all kinds of work, in the best manner and at the shortest notice.

The public will do well to give him a call, as he has just returned from Baltimore with a good stock of Leather; which he has taken great pains in selecting.

He will spare no pains to please all who may intrust him with their work. He intends to manufacture corse work, suitable for servants, and would advise those who want good and substantial work for their servants to bring in their measures, so that he can have them made in time. JOSIAH HOPKINS,
Aug. 29, 1857. 6m. Cambridge, Md.

COLLECTOR'S

LAST PUBLIC NOTICE.

THE subscriber hereby gives notice to the tax payers of Dorchester county, that as his office expires with the election and qualification of his successor this fall, no inducement will tempt him to delay the collection of the taxes after the first of January next. The taxes for 1856 are, many of them, still unpaid, and those of 1857 are now ready to be received. I hereby warn delinquents that forbearance will be out of the question, and if they will only take the trouble to examine the act of 1853, chapter 184 they will find the speedy remedy for their delinquency, and if they will neither pay or examine the law, I will teach them, by its enforcement what that law is.

ROBERT BELL, Sheriff & Collector
Aug. 8, 1857. for Dorchester County.

"Editors on Dr. Coggswell's Salt."

A PERFECT SUBSTITUTE

FOR THE

LANCET, LEECHES and BLISTERS!

INSTEAD of being a panacea for all maladies it has control over but ONE MALADY, has but ONE AIM—accomplishes but ONE THING, to wit: *Subdues Inflammatory Disease*—whatever be its form or locality—whether the head, throat, chest, abdomen, extremes or skin. Every *form or inflammation* (but none other disease) is subdued by it as easily as fire extinguished by water. Is it asked, *how* does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system. *Of its intrinsic value, the enlightened community and not the discoverer, must be the judge.*

PRIME COST, $1.50 PER DRACHM—PRICE $2 PER DRACHM.

Four months ago this mysterious medicine was submitted to the tribunal of an intelligent public. In that short period nearly *five hundred* editors and publishers (in the United States Canadas, British Provinces and England) have personally tested or witnessed its efficacy in *Inflammatory Diseases*, and have pronounced it the most valuable medical discovery of this or any preceding age. This enlightened jury of five hundred reliable men, by their unbiased verdict, have given the Antiphlogistic Salt a established character, as will be seen by following brief extracts:

[From the Boston Traveler.]

"We think the following testimonials from publishers, who receive the Salt in payment for advertising, entitled to higher consideration and more confidence, than the certificates ordinarily attached to advertising medicines:"

Lynn (Mass.) Reporter: "The new medicine, the Antiphlogistic Salt, is rapidly working its way to popular favor in this city—having cured Rheumatism, Pleurisy, Rush of Blood to the Head, Croup and Bronchitis."

Lawrence (Mass.) Sentinel: "It is a sure remedy for Inflammatory Diseases."

Norway (Me.) Advertiser: "All who have used the Salt have derived the most beneficial effects from it."

Piketown (O.) Journal, edited by Mrs. E. S. Dexter: "We can say from experience, it is an excellent remedy for Headache, Neuralgia, Ague and Palpitation of the Heart—indeed, we are sure it will do all it professes, and we say God speed the new medicine."

Jeffersonville (Ind.) Democrat: "It has cured several cases of Rheumatism
