# CAMBRIDGE DEMOCRAT.

**THOMAS H. HANDY, Jr.,**
EDITOR AND PROPRIETOR.

**Wednesday Morning, Jan. 6, 1858.**

PAY OF CONGRESSMEN.—The Senate has passed the House bill providing for monthly payments, &c., of members of Congress—yeas 26, nays 13. The Washington States denounces the passage of the bill—calls it a Wall street dodge, &c.; but the matter seems to be about as broad as it is long, any way. The salary of the members, it will be recollected, is $3,000 per annum under the bill passed by the last Congress. By dividing the sum into monthly payments, there is, of course, no increase of pay, but an equal distribution for each month throughout the whole year of the gross amount. The members thus now draw for the whole ten months from the commencement of their term on the 5th of March last.

THE TREASURY NOTES.—It is now stated that the Secretary of the Treasury has decided to adopt three per cent. as the rate of interest for the new treasury notes, and will issue as soon as possible six millions in denominations of one hundred, five hundred and one thousand dollars. The necessary plates are to be engraved so that they cannot be counterfeited by photograph. It is also stated while the plates are being engraved the sub-treasury will receive deposits of gold, with orders for the notes, and when the paper is ready the notes will be issued for them, dated on the day of deposit.

THE MARYLAND LEGISLATURE.—The biennial session of the Legislature will commence at Annapolis today. Under the constitution, the Governor elect will be inaugurated "on the second Wednesday of January, (the 13th,) or as soon thereafter as may be practicable," and under the act of Assembly he "is to qualify in the Senate chamber, between the hours of 12 and 2." The oath is to be administered by the Chief Justice of the Court of Appeals, or in his absence by either of the judges.

AMERICAN TRACT SOCIETY.—In another column will be seen a communication bearing the above title, and we are requested to say that the agent, the Rev. Dr. Kennedy, is expected to be in Cambridge on Sunday the 10th inst., and will be pleased to present the cause more fully in one or more of the churches. *No collection* will be taken up, but the Agent will make personal application to the citizens for donations.

RUNAWAY NEGROES TAKEN.—The seven negroes that run off on the night of the 31st of December—the property of Dr. Phelps and James E. Hall—were brought back, and lodged in the jail of this county on last Sunday morning. They were captured in Caroline county about four miles above Denton by Mr. Satterfield, who will pocket, and certainly deserves, the $1000 reward offered for their arrest.

TOWN PUMPS.—We have been requested to call the attention of the commissioners to the horrible state of the pumps in the upper part of the town. It is to be hoped that they will have them attended to at once, and relieve the residents of that part of the town from great annoyance in the procuring of water for domestic purposes, and anxiety in case of fire.

THE CORN ROTTING AT THE WEST. The Missouri Democrat has news from Ohio, Indiana and Kentucky that the corn is rotting to a disastrous extent, both that which is on the stalks and in the cribs. This, says the Democrat, is a matter of grave importance.

POST OFFICE APPOINTMENT.—At East New Market, in this county, Edward K. Bramble is appointed Postmaster, vice James W. Rawleigh, resigned.

IN JAIL.—Samuel E. Collins, constable in New Market district, lodged in jail a negro man, the property of Mrs. Green, on last Sunday, for stealing.

BOOK NOTICES.—*Emerson's Magazine and Putnam's Monthly*, for January, has been received. Published by Oaksmith & Co., New York.

*The American Farmer*, for January—by Sands & Worthington, Baltimore, Md.

### A new Counterfeit Detector.

About the most useful thing that any person in business, can have in these times, is a correct and reliable Counterfeit Detector and Bank Note List. This want is now to be supplied. Messrs. T. B. Peterson & Brothers have just commenced the publication of "PETERSON'S PHILADELPHIA COUNTERFEIT DETECTOR AND BANK NOTE LIST"—a monthly work to publication which contains all the information that can be obtained in regard to all Counterfeits, Broken Banks, and the rates of discount on all the Bank Notes of the country. Messrs. Drexel & Co., the well known Bankers and Brokers, of Philadelphia, will supervise it and make the corrections in each number of the list, so that it may be perfectly relied on, while the well known house of E. W. Clark & Co., Commission Stock and Exchange Brokers, will correct the Stock List. Not being intended to subserve the purpose of any banking house, as most of the Detectors do, it will be a useful and reliable publication to the whole business community, and we would advise all of our readers to remit the price of one year's subscription to the publishers at once for it. The price is but ONE DOLLAR a year. To Clubs, four copies for $3; ten copies $7; twenty-five copies $15. Address all orders to T. B. Peterson & Brothers, 306 Chestnut St., Philadelphia.

WONT OCCUPY.—We learn that Mr. Hicks, the Governor elect, does not intend to take possession of the Executive Mansion until the spring.

RARE.—Two very fine otters were dug from the bank on Jenkins' Creek a few days ago by a couple of Mr. R. T. Goldsborough's servants.

☞Z. W. Linthicum, administrator, sells the property of the late Thomas Jefferson to-day at Church Creek.

[For the Cambridge Democrat.]

### American Tract Society.

This Society exists that it may publish the glad tidings of *Redemption* to the millions of our own country and the world.

It was organized more than thirty years ago in the city of New York, by such noble spirits as the venerable Dr. Milnor, of the Episcopal Church, Rev. John Sumerfield, of the Methodist Church, and others of kindred spirit of the various evangelical denominations. It object was, and is, to publish the great evangelical truth in which they are agreed, or in the language of the constitution, "to diffuse a knowledge of our Lord and Saviour, Jesus Christ, as the Redeemer of sinners, and to promote the interest of vital godliness and sound morality by the circulation of religious publications *calculated to receive the approbation of all evangelical christians.*" It thus excludes all controversial, political and local subjects.

There is *no denomination* connected with it *as such*, though carrying out the spirit of its organization, its officers, directors, agents and colporteurs are connected with twelve or fifteen evangelical denominations—Episcopal, Presbyterian, Congregational, Baptist, Methodist, Reformed Dutch, Lutheran, German Reformed, Cumberland Presbyterians, &c. The publishing, distributing and finance committees together constitute the *Executive Committee*, consisting of members of six different denominations.

The issues of the Society exceed fifty thousand publications per day, and more than four thousand of these are books! It has usually employed twenty-six large steam power presses (about one-half of these are stopped at this time)! The number of printers, binders and others employed at the Tract house are usually three hundred! About one hundred of these have been dismissed since the "crisis!"

The expenses of the Society are from eleven to twelve hundred dollars per day! It has no vested funds and seeks none! It would rely upon God and the voluntary donations of his people.

It has had in its employ the past year nearly six hundred colporteurs—humble, devoted, good men, who go from house to house in the spirit of the Gospel, bearing the messages of Salvation to the homes of the needy and neglected, testifying in the mansion and in the hotel, by the fireside and by the highway, "*repentance towards God and faith in our Lord Jesus Christ.*" They have thus visited the past year 674,128 families. They had personal conversation on the subject of religion with, and prayed with and for, 305,425 of those families. Often his words of warning and entreaty are the first heard in households where the voice of prayer was never raised, and whose members could truly say, "*No man has cared for our souls!*"

During the year they held or addressed 14,059 public or prayer meetings, organized hundreds of Sabbath schools, and distributed 10,000 Bibles, which they receive from the Bible Society for sale or gratuitous distribution. The number of families reported as being destitute of all religious books, except the Bible, was 41,739, and of those who had not the word of God, 32,175.

The number of books sold by the colporteurs the past year was 538 818, and the number given to the poor and destitute was 152,622 volumes! Thus thousands of souls have been reached and blest with salvation that could not and would not have been reached by any other instrumentality. This system of colportage is wonderfully adapted to reach the masses of the people, and it is the object of this Society to carry the "leaven" of the Gospel to every family, and to leave there such *preachers* as Baxter, Bunyan, Flavel, Doddridge, Alleine, Hall, James and Chalmers.

And who shall follow up the footprints of these six hundred humble men and tell the amount of good they have effected? Who shall gather up and write out the history of the *two hundred and fifty millions* of publications that have gone out from the Tract house the past thirty years? *Eternity alone can tell the amount of good they have accomplished!* And now who is not ambitious to co-operate in a cause so good, so noble! Who will not pray for its continued prosperity and usefulness?—Who will not contribute, "as the Lord has prospered him," especially in this time of pecuniary embarrassment? Many Christians and Philanthropists pay each annually $150, the usual salary of a colporteur. Such person receives the quarterly correspondence of the colporteur he sustains. Others constitute themselves and their children and friends *life members* by the payment of $20, or life directors by $50. (Are there no such Christians, no such Philanthropists in Cambridge?)

In these and kindred ways may every American and every Christian aid in making known the unsearchable riches of Christ to perishing men in our own country and throughout the world!

And does not every motive of patriotism, piety and benevolence impel to the cordial, *liberal* support of instrumentalities so potent for the evangelization of the people of the existing generation? Are our civil institutions secure with the prevalence of ignorance and error, and the elements of all evil in the midst of us? Shall public morals and private virtue be left to the desolating influence of a vicious and unprincipled press? Shall the tide of emigration roll upon our shores with no healing for its bitter waters? Shall Rome establish its empire here, with no increase of efforts to counteract its plottings and to enlighten and save its adherents?

Shall millions of our own countrymen live and die without the blessings of a santified press in a Christian land and in a printing and reading age? or shall not the well-being of our country, the precious interests of civil and religious freedom throughout the world, compassion for the perishing, and above all, the love of Christ, and the glory of the Redeemer constrain to unwonted effort for the advancement of this and every other enterprise for the evangelization and salvation of America and the world?

G. W. KENNEDY,
General Agent A. T. S.

## FROM KANSAS.

### The Constitution with Slavery Carried.

ST. LOUIS, Dec 28th.

Kansas advices to the 22d have been received. The constitution with the slavery provision has been carried by a large majority. The returns were meagre. It was reported at Lawrence that letters had been received by the republicans that a body of men had gone to Lecompton to seize the territorial arms; also, that Gen. Lane had gone to Fort Scott with the intention to destroy that place and exterminate the pro-slavery settlers on the Shawnee reservation and carry the war into Missouri.

General Denver had assumed the Governorship, and issued an address exhorting the people to appeal to the ballot-box for the settlement of their difficulties.

It is stated that President Calhoun, of the Constitutional Convention, has invited himself and the officers of the Legislature to be present at the counting of the returns. There is nothing authenticated from Fort Scott.

[SECOND DISPATCH.]

ST. LOUIS, Dec. 28th.

A bearer of dispatches from the acting Governor of Kansas passed through here yesterday for Washington. The poll was not open at Lawrence.

The Lawrence convention was to meet on the 23d, to decide whether to vote for State officers. Many favor such a course with a view of crushing the State government. Mr. Staunton is mentioned as a candidate for Governor.

### Civil War Raging--Violence and Bloodshed.

ST. LOUIS, Dec. 30th.

Kansas dates to the 24th, received by the Democrat, say that civil war is raging in Bourbon county. Several conflicts have occured between the free State and pro slavery men, and a number of prisoners have been taken on both sides. The United States marshal, with a force of 80 men, demanded the surrender of the free State party, but the demand was answered by a volley of musket balls.

The fire was returned, and the fight lasted for an hour, when the pro-slavery men retreated, with the loss of one killed and two mortally wounded. The marshal was dangerously injured.

Gen. Lane was entrenched at Sugar Mount, and was determined to fight the dragoons if attacked. A battle was regarded as inevitable.

Exciting debates had occurred in the Lawrence Free State Convention. The committee on resolutions had presented three reports. The majority report disapproves of voting for State officers; the first majority report recommends the nomination of a full State ticket, and the second recommends a participation in the election for the purpose of destroying the Lecompton constitution. That no man be nominated who refuses to pledge himself to crush it. That the Topeka constitution be submitted to the people, and that loyalty to that instrument be made the test of fealty to the free State party. That the Legislature repeal the present code of laws, &c. The most radical revolutionary speeches were made.

Gen. Denver had given up the territorial arms to the military.

Various rumors were in circulation relative to Fort Scott, but none of an authenticated character.

## Later From California.

### The Walker Expedition Captured by Com. Paulding--Return of Walker to New York.

NEW YORK, Dec. 27th.

The steamer Northern Light, from Aspinwall, with California dates to the 5th inst., and $2,000,000 in specie, arrived here this evening at 10 o'clock.

The filibustering General Walker comes a passenger.

Fort Castillo and four steamers had been captured by Walker, but subsequently Walker and 150 men were captured by Commodore Paulding, of the frigate Wabash. The men were sent in the Saratoga to Norfolk, whilst Walker comes to New York on his parole. The lake and river steamers were handed over to the garrison.

Col. Anderson and fifty Americans still held Fort Castillo and the river San Juan. He had three months' provisions, six pieces of artillery and an abundance of ammunition.

Captain Eagle, of the Wabash, came bearer of dispatches to the government.

The new steamer C. Morgan, seized by Com. Paulding, was put in charge of the American consul at Greytown.

There had been heavy rains in California, reviving trade and impairing new vigor to the mining operations. Six hundred Chinese have left for home.

The markets were quiet at San Francisco. Money was in active demand.

A force of only fifty men captured Walker and his army!

Martinetz has been elected president of Nicaragua, and was making active preparations for an energetic war on Costa Rica. The latter had sent four hundred men against Col. Anderson.

The revolution in Bolivia had been successful. The Chincha Islands are in the power of Vicanco.

The ship Andalusia, of Baltimore, was ashore in Callao Bay, but would be got off.

### Interesting Statistics.

From the sixth annual report of the board of supervising inspectors of steamers, made to the Secretary of the Treasury, we glean the following interesting statistics:

During the five years from 1848 to 1852, inclusive, prior to the establishment of the board of supervisors, there were fifty steamboat explosions, causing a loss of 1,155 lives, and 475 persons wounded. By other disasters during the same period 416 lives were lost, making a total loss of 1,571 lives in the five years. During the four years from 1854 to 1857, inclusive, subsequent to the passage of the steamboat law, there have been seven explosions and 132 lives lost. By other disasters, collisions, fire, sinking, &c., there have been lost during the same time 214 lives, making a total loss of life for the five years of 346.

By an examination of these statements we find that for five years prior to the passage of the steamboat act we have accounts of the loss of 1,571 fives, and for the five years since said passage, the total loss of life on the western rivers is 345, leaving a difference of 1,226 lives.

In this (3d) district, under the supervison of John S. Brown, three collisions occured in 1857, between steamers and sailing vessels, resulting in the loss of nine lives. From the report we find that there are belonging to the port of Baltimore 37 steamers, with an aggregate of 15,805 tons burden; 87 licensed engineers and 102 licensed pilots. The number of passengers carried by the steamers hailing from this port for the fiscal year ending September 30, 1857, was 355,493. Amount of damages by three collisions referred to, $11,300.

The total number of steamers inspected during the year in the United States was 1,122, with an aggregate tonnage of 461,370 tons. The number of pilots is 2,584 and number of engineers 2,854. The total number of passengers carried by licensed steamers was 3,610,367.

### Arrival of Walker at Washington.

WASHINGTON, Dec. 29th.

Gen. Walker arrived here this evening, accompanied by Marshal Rynders, T. F. Meagher and Malcolm Campbell. He was received with cheers by a large concourse of people as he entered his quarters at Brown's Hotel.

Shortly after Marshal Rynders, with General Walker, repaired to the State Department, when the former stated to Mr. Cass that he had received a communication from Com. Paulding, saying that he had arrested Walker for carrying on an unlawful expedition against Nicaragua. That Walker had promised him, on his honor, to surrender himself to him, (Rynders,) as marshal of the southern district of New York, on his arrival in that city. That Walker had done so, and he (Rynders) had accompanied Walker to Washington to ascertain the views of the government.

Mr. Cass replied that the executive department of the government did not recognize Gen. Walker as a prisoner, and that he had no directions to give concerning him, and that it was only through the action of the juhiciary that he could be lawfully held in custody to answer any charges which may be brought against him. Marshal Rynders then informed Walker that he had no further authority to detain him. Both then withdrew.

THE SECRETARY OF STATE UNDER GOV. HICKS.—The Governor elect has appointed James R. Partridge, of the Baltimore bar, to the office of Secretary of State. Mr. Partridge filled the responsible post of chairman of the committee on the judiciary in the last House of Delegates, and is said to possess that knowledge of public affairs and personal accomplishment which will enable him, in the confidential position he will occupy, to render valuable aid and service in the executive department. All persons having business with the department will be gratified that he has accepted a position so fittingly bestowed.—*Baltimore Sun.*

THE ATLANTIC TELEGRAPH.—Washington, Dec. 30th.—Secretary Toucey has sent a letter to C. W. Field, informing him that the United States frigate Niagara will be again detailed to lay the Atlantic telegraph cable. Chief Engineer Everett has been given leave of absence to give his services to the telegraph company. The President and Secretary Toucey are both favorable to the enterprise.

## Special Notices.

READ! READ!! READ!!!

Ye afflicted, read the following certificate of a cure of over 20 years' standing:

H. T. HELMBOLD—*Dear Sir:* I have been troubled with an affliction of the Bladder and Kidneys for over twenty years. I have tried Physicians in vain, and at last concluded to give your genuine Preparation a trial, as I had heard it highly spoken of. It afforded me immediate relief. I have used three bottles, and I have obtained more relief from its effects and feel much better than I have for twenty years previous. I have the greatest faith in its virtues and curative powers, and shall do all in my power to make it known to the afflicted. Hoping this may prove advantageous to you in assisting you to introduce the medicine. I am truly yours,

M. MCCORMICK.

Lewistown, Pa., Jan. 28, 1857.

Should any doubt Mr. McCormick's statement, he refers to the following gentlemen:

Hon. Wm. Bigler, ex-Governor, Pennsylvania.
Hon. Thos. B. Florence, Philadelphia.
Hon. J. C. Knox, Judge, Tioga Co., Pa.
Hon. J. S. Black, Judge, Philadelphia.
Hon. D. R. Porter, ex-Governor, Pennsylvania.
Hon. Ellis Lewis, Judge, Pennsylvania.
Hon. R. C. Grier, Judge of the U. S. Court.
Hon. G. W. Woodward, Judge, Philadelphia.
Hon. W. A. Porter, City Solicitor, Philadelphia.
Hon. John Bigler, ex-Governor, California.
Hon. E. Banks, Auditor General, Washington, D. C., and many others, if necessary.

HOLLOWAY'S PILLS.—The stomach, by the chemical agency of its solvent fluids, converts the food into crude blood; the liver furnishes a secretion which fits it for the venous system; the lungs vitalize it. If the stomach is diseased, it cannot produce a healthful element, and if the fountain of life is infected, all the streams that flow from it must be poisoned. It is upon the stomach, the great feeder of the system, the manufacturer of the ailment which subsequently becomes bone, muscle, sinew and flesh, that Holloway's Pills exercise their salutary influence, curing indigestion in all its shapes, and thus giving a vigorous tone to every dependent organ. This is the philosphy of the rapid and thorough cures of all the varieties of internal disease accomplished, by this powerful remedy.

HELMBOLD'S GENUINE PREPARATION.
HELMBOLD'S GENUINE PREPARATION.
HELMBOLD'S GENUINE PREPARATION.
HELMBOLD'S GENUINE PREPARATION
Is prepared according to Pharmacy and Chemistry, with the greatest accuracy and Chemical knowledge devoted to their combination.

## MARRIED.

On the 8th ult., in the Unionville Chapel, Va., M. E. Church, by Rev. J. H. Marsh, JAMES E. MOLER, of this town, to Miss ELIZABETH E., daughter of John Kephart, of Jefferson county, Va.

## BALTIMORE MARKET.

BALTIMORE, Jan. 4th, 1858.

WHEAT.—Good to prime 1 05@$1 13. No sales of red; we quote good to prime at 1@$1 05 ℔ bushel.

CORN.—Prime yellow 52@53 cents. No white sold; we quote good to prime at 45@50 cents ℔ bushel.

## DIED.

In this town, on Wednesday last, FRANCIS H. FIDDLER, in the 18th year of his age.

On the 27th ult., at the residence of her uncle, near Easton, Talbot co., Md., MARY SOPHIA COX, in the 21st year of her age.

Yes, dear Mary, thou art gone. Yet the painful truth I can scarcely realize. What shall I see thee no more? Is thy voice forever hushed in death? Oh relentless monster, why hast thou thus rudely invaded the happy home of my friends and taken from their fireside the one around whom their hearts' best affections were entwined? Dost thou not regard their cry? But hark! what voice is that saluting my ear? "*Blessed are the dead who die in the Lord, even so saith the spirit, for they rest from their labours, and their works do follow them.*" O blessed consolation! what joy and hope does thou infuse into our hearts, telling us that though the rude monster, death, may come to us here, he may go with us no farther than the tomb; and though thy form may there be shut out from our gaze, and thy presence no more grest us in the flesh; yet thy happy spirit it hath winged its flight to those pure and blissful regions where sorrow is unknown and where death cannot enter.

And whilst we bow with humble resignation to the Divine Decree which has summoned thee away; yet thy departure has caused sadness and gloom to rest upon our spirits, and filled our hearts with grief.

Whilst sojourning with us here many sorrows were thine, for the hand of affliction was laid heavily upon thee. But like gold tried in the fire thou didst come forth purified, and by thy humility and patience didst manifest to all, that the God in whom thou didst trust in health was able to sustain thee in affliction.

Yes, thou art gone, and hast fully accomplished thy mission here; leaving as a legacy to thy friends thy *many* virtues, and pointing them by thy example to the only refuge for safety—the Rock Christ Jesus. And thou didst fully attest by thy *triumphant* death that the Religion of Jesus Christ was able to sustain thee in the hour of desolution, and cause thee to rejoice in the bright assurance of everlasting life.

Farewell, dear Mary, but not forever; for look forward with joyful anticipations to the time when we shall meet on the peaceful shore of fair Canaan where there is no more parting; but where we shall be permitted to range those fields of rapturous delight and make heaven's high dome resound with songs of everlasting deliverance. ONE WHO LOVED THEE.

[Easton Gazette copy and send bill to the office.]

| " St. Michaels and Miles River Ferry, | 1.50 |
| " Cambridge, Oxford and Easton, | 2.00 |

Jan. 6, 1857. G. CHESNUT, Agent.

THE NEW YORK
## Steam Saw-Mill
AND
**Machine Company.**
CAPITAL $250,000.

THIS company has been organized with the above capital for the purpose of supplying the demand for the Combination Portable Steam Saw-Mill and other improved machinery.

They have purchased the entire machinery business heretofore carried on by J. M. Emerson & Co., also the Montgomery Works at Yonkers, on the Hudson, near New York, and with the experience and facilities combined in its organization are prepared to furnish machinery of all kinds at more liberal rates than has ever been offered at any other establishment.

The Combination Saw-Mill was patented October, 1856, and is now generally acknowledged to be the cheapest, most practical and efficient lumber manufacturing machine in the world. A large number of them are in successful operation in different sections of this country, Canada, Cuba and South America, and wherever their merits have been tested they are being adopted by lumber in manufacturers in preference to all other mills.

The following letter expresses the general opinion of those who are using the Combination Mill:

Messrs. EMERSON & Co.—*Gentlemen:* I have tried the saw-mill purchased of you, and will say that it performs well and more than meets my expectations. I am well pleased with its performance. I set it up on a small stream that afforded constant water about as thick as my little finger, which was much more than sufficient to supply the boiler. We are able to cut 3,000 feet of beautiful lumber in twelve hours, with something less than one cord of wood. It is the very thing we have so much needed in our county for a long time. With a little trouble and expense, we are able to move at from five to ten mil s per day, and set it up in the heart of the timber, which saves the great burden of hauling the logs a long distance to the mill. Yours, respectfully,

JESSE KEER, Jr.,
Louisville, Tenn.

The Company have purchased Lund's Patent Feed Arrangement, which is illustrated and described in the Scientific American for Oct. 24th. This adds greatly to the efficiency of the mill.

The Combination Mill, with all the recent improvements, and steam power of 15 horses, is capable of sawing from 3,000 to 4,000 feet in twelve hours, and is sold for $1,650.

The New York Circular Saw-Mill is manufactured only by this Company. It is of superior construction, and sold for 25 per cent. less than other mills of no greater capacity. A mill with 36 to 54 inch saw can be sold for $450 to 500, and with a 20-horse engine and boiler is sold for $2,200.

Steam Engines and Boilers; Engines of from one to 100 horse power; Locomotive, Tubular, Flue and Cylinder Boilers furnished at greatly reduced prices from former quotations.

Drawings, with plans and specifications for buildings and machinery, furnished gratis to our customers.

Competent mechanics are sent out to put up and set in operation our machinery, when required.

We also manufacture Shingle Machines, Planing Machines, Sugar-Mills and Machinery in general.

Special attention paid to getting up shafting and pulleys for manufactories, and all kinds of mill-wright work.

This Company are selling in great numbers a Patent Conical Burr-Stone Mill, for flour, corn meal and all kinds of feed, which is pronounced by experienced millers, both in this country and Europe, the best mill ever constructed. It will grind more grain in the same time, and with half the power, of any mill of the same price in the market.

We also furnish other styles of Grist-Mills, when required.

The undersigned are also publishers of

**The United States Journal,**

a large and magnificent illustrated monthly newspaper, devoted to Mechanics, Agriculture, Literature and Amusement.

In addition to its usual attractions, which have already given it a circulation of nearly 100,000 copies per month, it will hereafter contain a complete record of all new and valuable Mechanical and Agricultural improvements, embracing a larger amount of practical information from experienced writers in these specialties than any other publication in the world.

PRICE, ONLY 50 CENTS A YEAR.

☞Specimen copies sent gratis.
