Disastrous Storms and Floods.

SERIOUS LOSS OF PROPERTY.

The present seems to be a period of great storms. Almost all portions of the country have been visited by them, and our exchanges now before us, from as far South as Georgia, and as far East as Massachusetts, contain accounts of heavy rains and disastrous freshets. The Philadelphia papers, too, contain details of the violent storm in that region on Wednesday night last. We copy the following particulars from the Philadelphia papers:

But little or no rain fell in the city during Wednesday night; but it was showery in the upper wards all night. About three o'clock Thursday morning rain commenced to fall heavily, and at half-past three the storm reached its climax. Those who witnessed the storm declare that it was without a parallel in their experience. The rain fell in torrents, flooding streets and roads, overflowing streams, carrying away bridges and buildings, and greatly terrifying the people of Manayunk, Chestnut Hill and Frankford.

The damage to the streets, roads and culverts, alone, in the 21st ward will reach about fifteen thousand dollars. Some of the streets were gullied out to the depth of from 10 to 15 feet.

On the west side of the Schuylkill opposite Manayunk, the storm was equally severe, and much damage was done there by the flood. At Clegg's factory the outbuildings, with the steam engine and a large quantity of cotton, were carried away.

The storm raged with unexampled fury in the twenty-second ward, especially at Chestnut Hill and the surrounding country. Cresham creek was overflowed, and great damage thereby done.

Between Trenton and Princeton, N. J., the bank of the canal has been carried away in three places, and the railroad track demolished. Five hundred men were at work all day on Thursday repairing the damages. A temporary track was built near Clarkeville. On the New Jersey road, near Jersey City, there are several places where the track is washed away, and it is said that several days will be required to repair the damage. The Camden and Amboy road was only slightly damaged.—Three breaks are reported in the Delaware division of the Pennsylvania Canal.

The Boston papers estimate the damage done in that vicinity by the storm of Tuesday at $20,000.

DEATH OF WM. ALLEN, ESQ.—We have to announce (says the Balti. Sun) the death of William Allen, Esq., of Harford county, Md. He died at his residence in that county, on Wednesday last, after a short illness. The deceased was well known throughout the State. He was born in Ireland in 1769, but on account of a participation in the revolution in 1798, he was compelled to flee from Ireland to America, the country of his adoption. Mr. Allen, shortly after reaching here, settled in Harford county, and was naturalized by Judge William Paca, one of the signers of the Declaration of Independence, Mr. Paca holding a special session of the court for that purpose. He was formally introduced to Gen. Washington, and corresponded with him, and also numbered among his personal friends Andrew Jackson and Carroll of Carrollton. For thirty years in succession he held the office of postmaster, personal relations influencing the Presidents to retain him. Mr. Allen, at an early age, became a member of the Methodist Episcopal church, retained his membership until his death, and, it is said, was the last surviving member who heard the preaching of the ever-memorable John Wesley. He was present with Charles Carroll at the laying of the corner-stone of the Baltimore and Ohio Railroad, on the 4th of July, 1828, and, up to the hour of his death was a firm advocate and friend of the company. From the year 1836 to 1844 he held the position of Judge of the Magistrates' Court of the co., and was always noted as a liberal giver to his own and other religious denominations. Deceased was over 90 years of age.

The editors of the Quincy (Ill.) Herald purchased on Thursday, the 16th inst., of Mr. Woodruff, an enterprising carriage maker and enthusiastic Republican of that city, a spendid new rockaway, at $460, *payable when Lincoln is elected President.* They now inform all hopeful Lincolnites that they want to purchase a good, steady, gentle family horse, *upon the same terms.*

A PROLIFIC STOCK.—Elijah Corbin, one of the old pioneers of the Whitewater Valley, Wayne county, Indiana, went to that region 43 years ago, and has now settled around him 11 children, 83 grandchildren, and 34 great grandchildren.

Edward R. Cooper, a man of more than three score years, has been sentenced at Richmond, Va., to the penitentiary for five years, for attempting to kill his wife.

THE ORPHANS' COURT of Dorchester county will sit on WEDNESDAY, the 29th of August, and on MONDAY, the 3d of September.

DENTISTRY.

CAMBRIDGE, Oct. 15, 1859.

J. N. BAIRD, D. D. S., continues to devote his special attention to the practice of his profession in all its various branches. oct19-1y

THE PUBLIC BLESSING which is now universally admitted to exist in MORRAY'S LIFE PILLS and PHŒNIX BITTERS, is every day demonstrated by their astonishing efficacy in the cases which they are announced to cure. All the complaints of the stomach and bowels, weakness of the digestive organs and of the system generally, serious and liver affections, night fevers, head aches, piles, costiveness, consumption, rheumatism, scurvy, impurity of the blood, or blotched and sallow complexions, soon yield to their curative properties. A single trial invariably secures them the title of the best family medicines now before the public. For sale by the proprietor, W. B. MOFFAT, at his office, 235 Broadway, New York, and by Store-keepers and Druggists generally. jan25-1y

HOLLOWAY'S OINTMENT AND PILLS astonishing Remedies for Bad Breasts.—The wife of Mr. John Langton, of Cincinnati, Ohio, had a remarkable bad breast, in which there were too large running wounds to what cause to attribute it, the doctors did not know, but advised the adoption of a variety of remedies, which were of no use. At last, Mr. Longton determined to try what Holloway's Pills and Ointment would do, he fortunately purchased a quantity, and after his wife had used them for three weeks, a visible improvement took place; by continuing them for two months, she was perfectly cured.

A CHANCE TO GET A

FARM FOR 5 DOLLARS!

THE advertiser will dispose of **TWO THOUSAND ACRES OF GOOD LAND,** situated in Holt, Andrew and Gentry Counties, in Western Missouri. The land is of the finest qualities in the great West for Agricultural purposes. Wheat, Rye, and especially Corn is raised in great abundance. The great West R. Road to the Missouri River runs convenient and in connection with branch roads to the greater part of where it lies. In the immediate vicinity several villages are now springing up with astonishing rapidity, and should the emigration continue for a few years longer the entire neighborhood will be densely settled. The land will be disposed of on the FIRST DAY DECEMBER next, in a scheme of equal shares; the sum of FIVE DOLLARS will entitle each purchaser to one share. One share can draw from the smallest price to the greatest.

The land will be divided into farms of forty, eighty, one hundred, and one hundred and sixty acres each. In connection with the land there will be about seventy building lots on the Missouri River in the village of Aspinwall and Brentsville. Persons wishing to purchase shares, will be furnished on a receipt of five dollars. The shares will be promptly forwarded. A circular giving all necessary information, with reference, will be sent on application. Address,

A New Weekly Paper.

ON SATURDAY, the 14th day of July, was issued in the City of New York, the first number of

THE METHODIST,

A Weekly Paper of Eight Pages.

It will aim to be the exponent of Conservative principles, and will be thoroughly loyal to the Methodist Episcopal Church.

While it will discuss with frankness and courage every subject of interest to the Church it will avoid personal and direct controversy with existing Methodist journals.

Upon the subject of Slavery, THE METHODIST will represent the views expressed by the Bishops in their late address to the General Conference. They are views of the application of Christianity to Slavery, which are believed to be sanctioned by Apostolic teaching and practice. It will resist all attempts, as the next General Conference approaches, to replunge the Church into controversy, or to make further encroachments upon the provisions of the Discipline in relation to Slavery.

Inasmuch as the subject of lay representation has been formally presented by the General Conference to the people for consideration, The Methodist will treat it as a question of moment to the denomination, and will open its columns for its temperate and loyal discussion.

It will represent no party, association, or clique. Its ample capital has been provided, apart from such combinations, by those who believe that the time has come for a larger, more thoroughly edited, and more independent organ of Methodism than its established journals, with their superabundant official documents and other formal but uninteresting matter can possibly be.

In fine, 'The Methodist' will be an attempt sustained by abundant means from the people themselves, to supply their families with an organ which shall compare with the largest and best journals of other denominations; and which shall command the best literary ability of the Church at home and abroad; which shall represent fully and loyally and courageously its denominational interests, as well as the interests of general Christianity, which shall be conducted with prudence and dignity, and be above partizanship and virulence; and which shall be a representative of the great religious interest of the age—a complete family paper and a decided organ of the Church. It will be edited by the Rev. G. R. CROOKS, D.D., and the Rev. JOHN McCLINTOCK, D.D., the latter Corresponding Editor, and at present residing in Paris. The Editors will be assisted by an efficient corps of contributors, whose names will be hereafter announced.

A thorough, classified outline of the news from the leading Christain denominations, and of foreign religious intelligence will be prepared by Prof. A. J. SCHEM, author of the 'Ecclesiastical Year Book.' It will present also a Weekly Review of the Methodist press, and the New York City religious press. It will have a Weekly Summary of missionary news. All the usual departments of General Intelligence, the Money Market, the Prices Current, Agriculture, Scientific, Literary and Art Items, etc., will be provided. Careful attention will also be given to the Youth's Department, which will be under the care of a special Editor. Its criticisms of new publications will be prepared with discrimination, so that they may always be safely relied upon.

TERMS:—Two dollars a year; five copies to one address $9; twelve copies to one address $20; twenty copies to one address $30. Subscriptions received for six months at the same rates. Payments invariably in advance.

OFFICE—Nassau Bank Building, corner Nassau and Beekman Streets, New York.

TWO FARMS FOR SALE.

I HEREBY offer at private sale until the 8th day of September prox., and if not sold before that day, then I shall offer them at public sale at Hicksburg, between the hours of 10 a. m. and 5 o'clock, p. m., TWO FARMS. One is situated only one-half mile from the waters of the Great Choptank River, with a good road running to deep water, where grain aud produce generally may be shipped with no expense and at the greatest ease. This farm contains

130 1-2 Acres of Land,

of which about 80 acres are in a state of cultivation; the balance is well set in GOOD TIMBER. A peach orchard consisting of one hundred trees of several varieties, and the most delicious flavor, has been lately planted and promises the next season an abundant crop. A good meadow for grazing also runs through the farm. Besides the advantages this farm presents to the farmer, it also contains a good location for a country store, being the centre of considerable trade. This farm has a DWELLING HOUSE with four rooms, Cook-house, and pantry, all nearly new and well finished.

The other FARM is situated on the road leading from Hicksburg to New Market, about one mile from the former and three miles from the latter place. It has on it TWO SINGLE STORY DWELLINGS with out houses in tolerable repair, and contains

70 ACRES

OF HIGH LAND, more or less, nearly all of which is arable, and susceptible of high improvement. Terms made easy.

500 TONS

"BONE ASH!"

JUST RECEIVED FROM

BUENOS AYRES.

A Cargo of Pure Bone Ash!

HAVING secured a cargo of the above rare article, we offer it to consumers at the lowest rates. Its superiority over the ordinary crushed bones, consists in the fact that it contains nearly or quite 80 per cent. *PHOSPHATE OF LIME*, whereas crushed bone has from 50 to 55 per cent. only; moreover, it is sold in *a perfectly fine powder*, (being ground at our own works, in which condition ordinary bones cannot be had.

This valuable article is so highly esteemed in England, that it has rarely been brought to this country, it being chiefly bought up for the English market.

PRICE, ground, in packages, $32.50 per Ton 2,000 pounds. At this price it is much cheaper than crushed bones.

REESE'S Phospho-Peruvian (or Manipulated) GUANO,

Containing Ammonia 8 per Ct. Phosphate of Lime 45 to 50 per ct.

INTRODUCED 1856.

TIME tests the value of all things. Nearly *five* years' experience in the use of the above guano, has established it a standard fertilizer of unimpeachable excellence. Had it not possessed the merit of real value, it would long since have been added to the list of extinct fertilizers which have been deservedly driven from the markets. No article of its kind has maintained a character for reliability and standard value through so long a period. The theory upon which it was introduced five years ago is now universally acknowledged. It excels *Peruvian Guano*, in that it sets grass and clover much better, makes heavier and better wheat, and improves the soil to an extent that can not be realized from Peruvian Guano alone. Farmers who have used it every year since its introduction, testify to this fact.

The value of a combination of Guano depends in great measure upon the perfection of the machinery with which it is prepared. Its combination must be *minute, uniform, intimate* and *thorough*, and this can not be accomplished with any ordinary machinery. The long experience we have had, and the great improvements we have made from time to time in machinery, enable us to furnish an article far superior to any of *recent introduction*. Our works are the most extensive and complete in the country, and farmers are invited to visit them and witness our operation.

L. MILLER'S HAIR INVIGORATOR.

AN EFFECTIVE, SAFE AND ECONOMICAL compound,

FOR RESTORING GRAY HAIR to its original color, without dying, and preventing the Hair from turning gray.

FOR PREVENTING BALDNESS, and curing it, when there is the least particle of vitality or recuperative energy remaining.

FOR REMOVING SCURF AND DANDRUFF, and all cutaneous affections at the Scalp.

FOR BEATTIFYING THE HAIR, imparting to it an unequalled gloss and brilliancy, making it soft and silky in its texture and causing it to curl readily.

The great celebrity and the increasing demand for this unequalled preparation, convince the proprietor that one trial is only necessary to satisfy a discerning public of its superior qualities over any other preparation at present in use. It cleanses the head and scalp from *dandruff and other cutaneous diseases*, causes the hair to grow luxuriantly, and gives it a rich, soft, glossy and flexible appearance, and also where the hair is loosening and thinning, it give strength and vigor to the roots, and restore the growth to those parts which have become bald, caused it to yield a *fresh covering of hair.*

There are hundreds of ladies and gentlemen in New York who have had their hair restored by the use of this Invigorator, when all other preparations had failed. L. M. has in his possession letters innumerable testifying to the above facts, from persons of the highest respectability. It will effectually prevent the *hair from turning grey* until the latest period of life; and in cases where the hair has already changed its color, the use of the Invigorator will with certainty *restore it to its original hue*, giving it a dark, glossy appearance. As a perfume for the toilet and a Hair Restorative it is particularly recommended, having an agreeable fregrance; and the great facilities it affords in *dressing the hair*, which, when moist with the Invigorator can be dressed in any required form so as to preserve its place, whether plain or in curls—hence the great demand for it by the ladies as a *standard toilet article* which none ought to be without, as the price places it within the reach of all, being

ONLY TWENTY FIVE CENTS

per bottle, to be had at all respectable druggists' and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, in cases where the childrens' Hair inclines to be weak. The use of it lays the foundation for a good head of hair, as it removes any impurities that may have become connected with the scalp, the removal of which is necessary both for the health of the child, and the future appearance of its Hair.

CAUTION.—None genuine without the fac simile LOUIS MILLER being on the outer wrapper; also, L. MILLER'S HAIR INVIGORATOR, N. Y. blown in the glass.

Wholesale Depot, 56 Dey St., and sold by all the principal Merchants and Druggists throughout the world.

Liberal discount to purchasers by the quantity.

I also desire to present to the American Public my

New and Improved Instantaneous LYQUID HAIR DYE,

which after years of scientific experimenting I have brought to perfection. It dyes Black or Brown instantly without injury to the Hair or Skin, warranted the best article of the kind in existence.

Price, only 50 cents. Depot, 56 Dey street, New York. jy25-1y

INPECTINE, The Persian Fever Charm.

FOR the prevention and cure of *Fever and Ague and Bilious Fevers.* This wonderful remedy was brought to the knowledge of the present proprietors by a friend who has been a great traveler in Persia and the Holy Land.

While going down the river Euphratees, he experienced a *severe* attack of Fever and Ague. On discovering his condition, one of the Boatmen took from his person an *Amulet*, saying "*Wear this and no Fever will touch you.*" Although incredulous as to its virtues; he complied, and experienced immediate relief, and has since always found it an effectual protection from all malarious complaints.

On further investigation he found that the boatman attributed to it *miraculous* powers, and said that it could only be obtained from the Priests of the Sun. Sometime afterwards, the gentleman in conversing with a Priest obtained from him the secret of its preparation, and ascertained where the medicinial herbs were found, of which it was compounded.—The wonderful virtues of this article have induced a full belief in the minds of the natives in the miraculous healing powers of their Priests.

Since his return to America, it has been tried with the happiest effect by several Ladies and Gentlemen of high character, who have given it the most unqualified praise. This remedy having been a specific in Persia for hundreds of years, for the prevention and cure of Fever ane Ague and Bilious Fevers—is now offered to the American people.

It will be sent by mail, prepaid, with full directions for use, on receipt of one dollar.

Holloway's Ointment.

CONSOLATION FOR THE SUFFERING.

NEARLY fifty years continual use in every part of the habitable globe, amongst the savage and the civilized alike, has proved that simple eruptions, open sores, hard tumors, scrofulous developments of all kinds, abscesses, cancers, old wounds, and, in one word, every species of inflammation and suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested and permanently cured, without danger, by rubbing in and using as a dressing, this inestimable Ointment.

SCROFULA, ERYSIPELAS AND SALT RHEUM.

No remedy has ever done so much for the cure of diseases of the skin, whatever form they may assume, as this Ointment. No case of salt rheum, scurvy, sore heads, scrofula or erpsipelas, can long withstand its influence.

BAD LEGS, OLD SORES AND ULCERS.

Cases of many years standing that have pertinaciously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

ERUPTIONS ON THE SKIN,

arising from a bad state of the blood or chronic disease, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

PILES AND FISTULA.

Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this emolument; warm fomentations should precede its application.—Its healthy qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Bunions,	Skin Diseases,
Burns,	Swelled Glands,
Chapped Hands,	Sore Legs,
Chilblains,	Sore Breasts,
Fistula,	Sore Heads,
Gout,	Sore Throats,
Lumbago,	Sores of all kinds,
Mercurial Eruptions,	Sprains,
Piles,	Stiff Joints,
Rheumatism,	Tetter,
Ringworm,	Ulcers,
Salt Rheum,	Venereal Sores,
Scalds,	Wounds of all kinds.

☞CAUTION!—None are genuine unless the words, '*Holloway, New York and London,*' are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending them to be spurious.

***Sold at the Manufactory of Professor HOLLOWYY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 63 cents and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.
