our common origin and our territorial contiguity, all concur in pointing out our duty in regard to the separation now taking place between the States of the old Federal Union."

He adds:—

"Missouri has, at this time, no war to prosecute. It is not her policy to make aggression on any State or people. But, in the present state of the country, she would be faithless to her honor and recreant to her duty were she to hesitate a moment in making the most ample preparations for the protection of her people against the aggression of all assailants. I therefore, recommend the appropriation of a sufficient sum of money to place the State at the earliest practicable moment in a complete state of defence."

In conclusion, he says: "Permit me to appeal to you and through you to the whole people of the State, to whom we are responsible, to do nothing imprudently or precipitately.—We have a most solemn duty to perform. Let us then calmly reason, one with another—avoid all passion—all tendency to tumult and disorder, and obey implicitly the constituted authorities, and endeavor ultimately, to unite all our citizens in a cordial co-operation for the preservation of our honor, the security of our property, and the performance of all those high duties imposed upon us, by our obligations to our families, our country and our God."

**North Carolina Legislature.**

RALEIGH, May 2.—The Legislature met yesterday. A bill calling a Convention was passed unanimously, to assemble on the 20th. No reference of its action is made to the people.

The flag of the Southern Confederacy is flying over the Capital, and the State is virtually out of the Union.

The Governor has organized a camp of instruction at Raleigh. He recommends to the Legislature the raising and organization of ten regiments He says the Northern Government is now concentrating a large force in the District of Columbia, ostensibly to protect the seat of Government, but such force cannot be allowed to remain within the limits of Maryland and on the borders of Virginia, without seriously endangering the liberties of the people of those States.

It they be conquered and overrun, North Carolina will become the next prey to the invaders. Policy, then, as well as sympathy and the feeling of brotherhood engendered by a common interest, requires us to exert our energies in the defence of Maryland and Virginia. Every battle fought there will be a battle fought in behalf of North Carolina, and there our troops should be speedily sent.

Adjutant General Hope, in the army orders calling out the regiment, says that the seat of war is its destination, and Virginia will be the great battle ground.

**Letter from New Hampshire--The War Feeling not Unanimous.**

We have been permitted to make the following extract from a letter written by an influential manufacturer in New Hampshire, and addressed to a business firm of this city, with which he has had extensive dealings. It shows that the war feeling is not altogether as unanimous at the North as the journals would have us believe. The writer says:

The war spirit is somewhat aroused here, especially among the Republicans, and in some of the larger places it is hardly safe for a democrat to express himself opposed to the war. In my vicinity, however, I speak my sentiments freely, but occasionally hear some threats. Some leading democrats are in favor of pressing the war to the end, but there are twenty-five thousand democrats in this State who will not help to fight it, for the reason that there can no good come out of it, but every day is making matters worse.

I was in hopes when I was in Baltimore there would be some peace measures adopted by the administration, but if Lincoln would go for peace he dare not while he is importuned continually by Northern Governors to yield not an inch, and that he can have any number of troops to support a war policy. If this state of affairs continues it will be hard to raise troops from this way without drafting, and then I am afraid we shall have war amongst ourselves.—The end of this thing I cannot see nor imagine.

The Legislature of Tennessee has adopted the following resolution:

*Resolved by the General Assembly of the State of Tennessee*, That in view of the dearth of the past two years, and the probable extraordinary demand for cereal and forage, to supply the absolute wants of our State and of the entire South, that the agriculturists of the State be, and they are hereby requested, to devote the breadth of arable land in the State to the culture of grain and grass.

The nams of the Hon. John J. Crittenden stands first on the list of privates in the Home Guard of Frankfort.

Judge Campbell, associate Justice of the Supreme Court of the U. S. from Alabama has resigned.

**Kentucky to Remain Neutral.**

LOUISVILLE, May 2.—The Cairo correspondent of the Journal says that the main points of the conversation between General Brockult, Senator Johnson of Kentucky, and Col. Prentis consists in additional guarantees on the part of Kentucky, that Kentucky was determined to maintain a neutral position. That she would not allow Confederate troops to cross her soil to invade Northern States, nor countenance the organization of any portion of her citizens for the purpose. In return she requires a guarantee on the part of the authorities of Illinois that the territory of Kantucky should suffer no invasion from Illinois troops. The representatives of Kentucky protest against the blockade of the river at this point, claiming that the jurisdiction of Kentucky extends to the Illinois shore. Nothing but munitions of war under the present status will be interfered with.

THE PRESIDENT'S POLICY.—Mr. Forney writes from Washington as follows:

"I do not think it is Mr. Lincoln's intention to invade any of the seceded States; but he will prevent them from trading with other nations to the destruction of our commerce, or from interfering in any way with the functions of the law and the duties of the Administration. They will be closed in, and left to themselves—to fight or starve as they may prefer, or yield to that Government which they have insulted, and to that which they have dishonored."

THE CURES MADE BY PROF. DE GRATH with his "Electric Oil," are almost miraculous and so wonderful and instantaneous, so satisfactory, and mitigating of human ill, as to call upon public functionaries, and those having charge of public institutions for the sick and suffering, to look well into the well attested merits, the simple efficacy of this "Electric Oil." HOLLOWAY'S OINTMENT.—A voice from the wilderness.—Abcesses, tumors, scrofulous and glandular swellings.—Livingstone the great African traveler relates that he was as much startled at the sight of a pot of Holloway's Ointment in the interior of Africa as was Robinson Crusoe at the print of a naked foot in the sand—on inquiry he discovered it was in common use, and that the Portuguese traders kept up the supply. He met with it frequently afterwards and found it highly beneficial for the cures of scrofulous humors, glandular swellings and the numerous other skin diseases which afflict the nomadic tribes of those arid and interminable wilds.—Read the advertisement.

**Prof. CHAS. DE GRATH'S Electric Oil—The Friend of Man.**
THERE is a perfect innocent, soothing and gently stimulating Medicine, that may be justly called "THE FRIEND OF MAN."—It was discovered by Prof. Chas. De Grath while travelling in South America—lately been brought out by urgent solicitations—and has cured more cases of Rheumatism, Gout, Neuralgia, Lumbago, Sciatica, Spinal and Bronchial complaints, Tic Doloreux, Headache, Cramps, Croup, Piles, Felons, Sprains and Bruises, Cuts and Wounds, Swelled Glands, Stiff Joints, Scrofula, Erysipelas, Sore Nipples, Swelled Breast, Womb Disorders, Salt Rheum, Canker in the mouth and stomach, Palpitation, Eruptions, Caked Breast, Quinsy, Sore Throat, Palsy, Pleurisy, Ulcers, Lock Jaw, Heart Burn, Tooth and Ear-ache, Nervousness, Costiveness, Burns, Sore Gums of teething infants, &c., than all and every other medicine in Philadelphia.
☞It will be seen this great remedy does not claim to cure everything, but only a CERTAIN CLASS of complaints.
☞It is an external remedy, but sometimes is taken internally (by the Doctor's advice.) It stimulates to action the absorbents and secretions, drives pains of all kinds from the body, and reduces all swellings, in an incredible short time, as all know who have used Prof. De Grath's "ELECTRIC OIL."
CERTIFICATE OF JOHN WILLIAMSON.
I, John Williamson, Attorney at Law, Huntingdon, Pa., do certify that Prof. De Grath's Electric Oil is infallible for rheumatic pains. My wife who for some time past has been greatly afflicted and unable to walk has been restored by the application of this Oil almost instantaneously and I can cheerfully recommend it to others.
JOHN WILLIAMSON.
STIFF NECK.
[Editor of Law Magazine cured instantaneously.]
GIRARD HOUSE, Philadelphia.
Prof. Chas. DeGrath:—I freely give it as my opinion, that your Electric Oil is among the most wonderful remedy of modern times. At the earnest request of a lady, who alleged that she had been relieved of a most painful affection by its use, I was induced to try a bottle, though at the time of purchasing, I fully believed it to be a quack medicine and a catchpenny humbug. But a trial convinces me that it possesses a magic power, and its use will prove a blessing to suffering humanity.
I recently took a cold from sleeping in damp sheets, and my neck became so much swollen and painful, that I could not turn my head.
After using, without success, everything prescribed by my physician, I last evening tried your Electric Oil. This morning I am well, the relief having been as complete as it was instantaneous. Yours, very truly,
JOHN LIVINGSTON,
Editor Monthly Law Magazene,

**Holloway's Pills.**
*NERVOUS DISORDERS.*
WHAT is more fearful than the breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? There is one:—drink but little wine, beer, or spirits, or far better, none; take no coffee,—weak tea being preferable; get all the fresh air you can, take three or four Pills every night; eat plenty of solids, avoiding the use of slops; and if these golden rules are followed, you will be happy in mind and strong in body, and forget you have any nerves.
*MOTHERS AND DAUGHTERS.*
If there is one thing more than another for which these Pills are so famous it is their purifying properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Universally adopted as the one grand remedy for female complaints, they never fail, never weaken the system, and always bring about what is required.
*SICK HEADACHES AND WANT OF APPETITE.*
These feelings which so sadden us, most frequently arise from annoyances or trouble, from obstructed perspiration, or from eating and drinking what is unfit for us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Pills, if taken according to the stomach, whence follow as a natural consequence, a good appetite and a clear head. In the East and West Indies scarcely any other medicine is ever used for these disorders.
*DISORDERS OF THE KIDNEYS.*
In all diseases affecting these organs, whether they secrete too much or too little water; or whether they be afflicted with stone or gravel or with aches and pains settled in the loins over the regions of the kidneys, these Pills should be taken according to the printed directions and the Ointment should be well rubbed into the small of the back at bed time.—This treatment will give almost immediate relief when all other means have failed.
*FOR STOMACHS OUT OF ORDER.*
No medicine will so effectually improve the tone of the stomach as these Pills; they remove all acidity, occasioned either by intemperance or improper diet. They reach the liver and reduce it to a healthy action; they are wonderfully efficacious in case of spasm,—in fact they never fail in curing all disorders of the liver and Stomach.
