liberty—their term of enlistment having expired, has not been heard from the officer commanding the post declining to permit the service of the writ.

But why multiply instances, to prove what is plain enough to all the world—that constitutions, laws and popular rights, which are older than either, or as old as the Petition of Right or the Great Charter itself, have all gone down in the universal wreck and ruin of what once was the American Republic—swallowed up in the abyss of despotism into which we are sinking deeper and deeper every day? And what a despotism! One in comparison with which that of Austria and Russia may be considered mild and paternal—one which combines with the absolute power of a dictator, and vulgarity, brutality and irresponsibility of a mob.—*Baltimore South.*

The following we clip from a New Hampshire paper of date September 1856:

The Flag of Sixteen Stars--Disunionism in Maine.

Hannibal Hamlin, Lot M. Morrill, and C. W. Goddard, Esq., of Danville, addressed a Fremont meeting at Norway on Monday, standing under an American flag, on which were only sixteen stars!—*Democratic Advocate.*

The disunion flag, with sixteen stars only, still continues to float across the public highway in this village, an emblem of sectionalism, and a disgrace to the party who placed it there.—*Norway Advertiser.*

The Portland State of Maine has hung out a Fremont and Dayton flag, on which are only sixteen stars.

A salute of sixteen guns was fired at Portland the day Hamlin was nominated.

Only sixteen States were represented in the convention which nominated Fremont and Dayton.

These are significant signs of the disunion tendencies and feelings of the Black Republicans. They scarcely take any pains to disguise their hostility to the Union. Let those who love their country and desire to perpetuate the Union ponder these things, and then do their duty.

Effect of Fremont's Name among the Negroes,

A Washington correspondent of the New York Times says:

It will be generally recollected that shortly after the election in 1856, the Tennessee papers gave accounts of a threatened insurrection among the slaves of a portion of the State, and that the idsurrection was induced by the supposition, prevalent among the blacks, that Fremont was coming up the river, backed by a large army, for the purpose of liberating all the slaves. The exact details of the extent of this insurrectionary movement were never fully published; but it wat known that many slaves were summarily tried and found guilcy, some being executed and others being sent further South. From well authenticated sources, it is ascertained that the superstition of 1856 has been revived; that the presence of Fremont at the head of the Western forces is already known to the negroes, and that his re-appearance is hailed as the sure precursor of their liberation. This feeling has spread rapidly within the last month, and it is attracting great attention and exciting much alarm among the whites of those districts where there is a large proportion of slaves. My informant assures me that once the name of Fremont is connected with any victory over the rebels, or that he is known to be in the State of Tennessee or Mississippi, the negroes will at once rise in rebellion. It is said that the fear of this danger at their own thresholds induced the rebels to take the offensive in Missouri, and to keep the battle-field as far as possible from the eager and watching negroes."

This may be true, but the general expectation of the rising of the negroes, has so far not been realized by any fear that looks in that direction.

The Absurdity of Conquest.

The Democracy of York county, Maine, at a meeting adopted the subjoined resolutions:

Resolved, That in our judgement the discontented feeling which has arisen among our brethern of the Southern States, caused by the agitation of the slavery question, might have been quieted by conciliation and by a compromise equally honorable to both sections, and that a day of retribution will soon overtake the Republican leaders and press for their unwise and unpatriotic course in preferring to carry out a mere party dogma, to the preservation of a great and prosperous people from the horrors of civil war and national ruin.

Resolved, That the reconstruction of the Union by force against the embittered feeling and the united strength of nearly one-half the States is a palpable absurdity, and an utter impossibility, and even if the revolted States should be overrun and subjugated, they can be held to their allegiance only by changing our Government to an unlimited monarchy; and while pursuing this delusion of reuniting the States by coercion, a standing army has been raised without color of law, the freedom of speech has been abridged, the right of protection of persons by *habeas corpus*,"

e right of safety in homes, papers, d effects—the right of petition for dress of grievances,—all these eat constitutional rights on which r freedom rests, are being violated d unless an immediate check be ced upon these usurpations no nnant of our once free government ll remain to us.

☞The following letter from a ell known Missionary appeared in e New York *Observer* some time ace. The sewing machine having come "a household necessity," the formation is of importance to every family; more especially, as it would em by this, a very superior Machine can be purchased at a much ss price than is generally supposed:

NEW YORK, April 4th, 1861.

MR. JAMES WILCOX—Dear Sir: I have now had in use one of your machines for six months, and am ready to thank you for introducing them to the public, and furnishing them so reasonably to Missionaries. Having used one of the best double-thread Machines in the market, we speak intelligently when we say—that for simplicity, ease and precision of work, ours is unrivalled.

It is the only machine whose working is so sure and simple that I should venture to introduce it in Syria—among a people who have only a modicum of mechanical skill.

I am quite sure I shall be able to bring it into use to some extent in that country.

We are particularly pleased with the beauty of the work done by the hemmers. We would prefer the Wilcox & Gibbs Machine to any other, at whatever price.

Hoping to have occasion to send for one or more, soon after our arrival in Syria, I remain, yours truly,

ANDREW T. PRATT,
Missionary of American Board.

The Christian Advocate and Journal, speaking of the same machine says, "For family sewing in all its variety the work of this simple machine is found perfectly strong and reliable; and its hemming is done on the right side, and to any width, and is neat and accurate beyond comparison."

HOLLOWAY'S PILLS & OINTMENT.—Necessity compels us.—Bilious Fever.—Nothing is more disagreable to the sick than the nauseous medicines physicans frequently oblige them to swallow, but the desire for health is the potent argument which gilds the pill and disguises the bittetness of the draught. Holloway's Pills, however, obviate this difficulty by the rapidity and certainty of their action. On the stomach, liver and bowels they act so effectually that they will immediately cure the worst phases of Indigestion Headache, Bilious Fever, Depression of Spirits, &c. We invite all who are unacquainted with them (if it were possibie to find any such, to give them a trial, and we will assure them speedy and permament relief. For Sore Breasts, Scrofulous Humors, Cancer, Piles, and all skin diseases Holloway's Ointment is the most effectual remedy in use.

PERUVIAN FEBRIFUGE.—For the prevention or cure of Fever and Agne In all climates and miasmal districts where bilious and remitten fevers prevail this stirling remedy will be found invaluable. It effectually stops the Chills and subdues the Fever, reinvigorates the appetite, allays irritation, gives elasticity to the spirits and infuses a vigorous vitality, which soon restores the patient to perfect health. In no case has it failed to cure, and one bottle has often effectually cured four to six persons. Others have been cured by it after failure of Quinine and every other known remedy.

Prepared and sold by A. B. & D. Sands, Druggists, 100 Fulton street, New York.
Sold also by Dr. J. Flint, Cambridge, Md.
Sold also by Druggists generally.

GREAT DISCOVERY!!!—Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. DeGrath's beautiful combination, called "ELECTRIC OIL," for the relief and cure of pain. But the people taemselves are rendering their verdict in a manner both unmistakeable and satisfactory. More than 20,000 bottles have been sold in a very short time, a great proportion to those who heard others recommend it, who had tried it. That it's a splendid discovery is everywhere acknowledged, and nothing like it was ever before prepared.

The only genutne Electric Oil is Prof. DeGrath's which is to be had at all the respectable Druggists in the land, and at wholesale and retail, at the proprietors prices of the agent. jy10-4m

THE GREAT REMEDY.**

The victim of an obstinate cough or cold, hoarseness, asthma, or any symptoms of disease in the throat, breast or lungs, should resort at once to Dr. Swayne's Compound Syrup of Wild Cherry, an article which has been fully tested, and found to possess healing virtues hitherto unknown in the history of medicine. Rely not upon simple catchpenny articles, which relieve for the moment, but eventually accelerate the disease, when you can obtain a safe and reliable remedy, prepared by an experienced physician, whose laborious private practice of near quarter of a century, must satisfy all of the superior excellence of this old established and far famed Wild Cherry Compound, as prepared under the immediate care of Dr. H. Swayne.

**Wilcox & Gibbs'
SEWING MACHINES.
Price with Hemmer & Feller,
$35.00.**

THIS MACHINE HAS POINTS OF SUPERIORITY PECULIAR TO ITS OWN.

Stitching, Hemming and Felling with a Single Thread.

IT forms a flat, even and elastic seam, which is WARRANTED not to rip up in wear, even if the seam is cut at frequent intervals, and also under all circumstances to "survive the week-tub."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance-wheel wearing a lady's dress.

Another feature which deserves particular attention is ☞The Wilcox Patent Needle cannot be set wrong.

Two thousand Stitches or two yards of work can be done in one minute without dropping a stitch.

These Machines so simple and accurate in their construction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.

Although at about half the price of the other first class machines, they will accomplish double the sewing in a greater time.

"It is emphatically the good, low priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most serviceable Sewing machines. Light and elegantly finished and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines"—Pennsylvanian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition"—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs sewing Machine. We consider that a great desideratum has been supplied by it, in proving, beyond doubt, that two threads are not, as was supposed, necessary to a good instrument."—Christian Advocate and Journal, June 21, '60.

☞We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after some six weeks' experience with Wilcox & Gibbs' Patent, he has purchased one of them, as the best adapted to the wants of his family, and as the least liable to require repair.

OLIVER CRANE.

Boston, July 3, 1860.

The undersigned, during eighteen months, has had in almost constant use, in his family, a Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family—from muslin to pilot cloth—including the clothing required for his several boys; and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is, in all respects, well appointed, efficient and durable.

ROMAN EYE BALSAM,
FOR INFLAMED EYELIDS.
Commonly Called Sore Eyes.

This Balsam was used for many years in the private practice of a celebroted Oculist, with the greater success.

In cases where the eyelids are inflamed, or the ball of the eye thickly covered with blood, it acts almost like magic, and removes all appearances or inflammation after to two or three applications. There is a numerous class of persons that are peculiarly exposed to accidents or diseases that weaken and inflame the Eyes, and perhaps destroy the sight, such as Miners, Mechanics, and other operatives in metals, who, from the nature of their employments, are compelled to work in a cloud of dust and grit. Such should never be without this Balsam.

Read the following evidence:

BINGHAMTON, Jan. 7, 1854.

Messrs. A. B. & D. Sands:—Gentlemen—Your Roman Eye Balsam, which I was recommended to use for my daughter's eyes, has acted on them like a charm. Her eyes, which had for several months been very much swollen and inflamed, after a few week's use of the Balsam, were perfectly cured and well as ever.

Yours truly, M. FOLEY.

All who are suffering from Sore Throat, Coughs and Colds, should use the MAKORA ARABICA, discovered by a missionary in Arabia.

All who are suffering from Asthma, Scrofula and Impurities of the Blood should use the MAKORA ARABICA, discovered by a missionary in Arabia.

It cures Consumption.
It cures Bronchitis.
It cures Sore Throat, Coughs and Colds.
It cures Asthma, Scrofula, and impurities of the Blood.

This unequelled remedy is now for the first time introduced to the public.

It was providentially discovered by a missionary while traveling in Arabia. He was cured of Consumption by its use after his case was pronounced hopeless by learned physicians in Europe.

He has forwerded to us in writing, a full account of his own extraordinary cure, and of a number of other cures which have come under his observation, and also a full account of the medicine.

At his request, and impelled by a desire to extend a knowledge of this remedy to the public, we have had his communication printed in pamphlet form for free distribution. Its interest is enhanced by an account which he gives of some of the scenes of the Syrian massacres, which he obtained from those who were sufferers in that awful tragedy.

This pamphlet may be obtained at our office, or it will be sent free by mail to all who apply for it.

We import the MAKORA ARABICA direct from Smyrna, through the house of Cléon & Gylippus, and we have always on hand a full supply put up in bottles ready for use with full directions.

Price one dollar per bottle. Sent by mail, on receipt of price, and 24 cents for postage.

CAUTION.

As certain unprincipled persons are attempting to palm off on the unsuspecting public, imitations of my PREPARED GLUE, I would caution all persons to examine before purchasing, and see that the full name,

☞SPALDING'S PREPARED GLUE,☜

is on the outside wrapper; all others are swindling counterfeits. feb27-9m

MARK THESE FACTS!
The Testimony of the Whole World.
Holloway's Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.

ALL description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and succesful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. Then again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system and leave the patient a vigorous and healthy. It will require time with the use of the Pills to ensure a lasting cure.

DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Gout,
Bad Breasts,	Glandular Swellings,
Burns,	Lumbago,
Bunions,	Piles,
Bite of Mosquitoes	Rheumatism,
