a new inlet, some six feet deep, was formed during the night, and now it is a vast sheet of water between the two forts. Fort Hatteras now stands desolated from the land, and will be swept entirely away in the next severe storm, its sandy walls having commenced to crumble. In fact it is thought that the next great storm (which is liable to visit this region any day,) will level both forts Clark and Hatteras I understand the Confederates only built them for summer use, expecting they would be swept away before spring, which accounts for using the cheap material (sand and turf) with which these forts are constructed. This sweeping flood makes good the predictions of the Confederates when we took possession of this treacherous and mysterious peninsula. They said we would be glad to abandon Hatteras Island when the winter storms came. It has been said all along by our most experienced military men, that a land force on Hatteras Island was entirely unnecessary; that a small fleet would effectually guard the inlet.

Camp Wool, (where the Ninth N. Y. V. are quartered,) some three miles above Fort Hatteras, was also much damaged by this storm. Their large hospital, some sixty by forty feet, was carried away; the sick, however, were saved. They lost nearly all their provisions and many other stores. Camp Bailey, seven miles up the Island, where Capt. Bailey, with a portion of the Indiana regiment. is stationed, has, I learn, escaped with but little loss, they being on a higher point of land, which is strongly fortified. Six companies of this regiment left Fort Clark to-day for Camp Bailey, leaving only three companies at Fort Clark, who, I learn, will also abandon this dilapidated and crumbling fortification on the morrow, and doubtless they will be followed soon by the regulars now stationed at Fort Hatteras. Camp Bailey, or Fort Bailey, is the best place on the island to make a stand and resist an attack from the enemy, which is now momentarily expected. I do not think an army of twenty thousand could assail this position with any hope of success. The Confederates have been making ready all along to give us battle as soon as the winter storms came to their assistance. They have been concentrating nearly all their forces in the State on Roanoke Island, some 50 miles above us, at the head of this island, with this intention. In case of an attack, we shall be assisted by our fleet, which will be able to command the ocean side of the island, while the Confederates will, with their small fleet of gunboats, command the Sound, we having no gunboats which can enter the Sound, and you may expect to hear soon that a great battle has been fought on the Island of Hatteras.

POLITICAL MISSION OF DISTINGUISHED CITIZENS TO EUROPE.—Archbishop Hughes left New York for Europe on Wednesday, and Thurlow Weed was to have left by the steamer on Friday. It is understood that they will be followed in a few days by Bishop McIlvain, Protestant Episcopal Bishop of Ohio, and the Hon. Edward Everett, of Massachusetts. The simultaneous visit of these gentlemen to Europe seems to be made with the approval of the Government, as they all have recently been in Washington in consultation with the President and Cabinet.

THE CONFISCATION OF NORTHERN PROPERTY AT THE SOUTH.—The Cabinet has determined that hereafter no passes will be granted to Northern persons who desire to go South to endeavor to save their property from confiscation. This course has been deemed necessary, as facts have been shown that some Northern men who have been thus favored, have given valuable information to the Secessionists. It is almost impossible to discriminate in these cases between loyal men and traitors, and the only way to remedy the evil is to refuse them all passes.

ONE NATION WITHOUT ONE SLAVE.—The "Union" Convention which nominated Professor Monroe, of Oberlin, for the Senate, the other day, "Resolved, that they were for one Country, one Constitution, one Union and ONE NATION WITHOUT ONE SLAVE." Don't Democrats see where the "Union" party is drifting?—*Circleville (Ohio) Watchman.*

AN INCIDENT OF THE WAR.—In connection with the burial of the killed of Fremont's Body Guard, a very interesting incident is related. Some soldiers sent out to reconnoitre, discovered three dead and wounded men of the body guard in the woods, and sitting beside one of them a little dog of the terrier species. It had stand for hours beside the wounded soldier.

Dr. Edward Brooks Everett, son of Hon. Edward Everett, died at the residence of his father, in Boston, on Monday week last, at the early age of thirty-one years.

A despatch on Saturday from Western Virginia, states that Gen. Rosencrans and his command are in fine condition and prepared to receive the enemy from any quarter they may approach, and the Commander is confident of success.

Baltimore Grain Market.

BALTIMORE Tuesday Nov. 12th —There were some 7,000 bushels of Wheat offered today; demand less active, and sales of white at $1 10a015 for common, 1 25a$1 35 for medium to fair, 1 40a$1 55 for good to prime, and at 1 60a$1 65 per bushel for choice; red bro't 1 30a$1 38 per bushel for good to prime. Of Corn 5,000 bushels offered, and white sold at 65a68cts, and yellow at 61a64cts per bushel.

TO CONSUMPTIVES and those afflicted with DYSPEPSIA, NERVOUS DEBILITY, HEART DISEASE, FEVER and AGUE, or CONSTIPATION.—The undersigned, now seventy-five years old, has for years devoted his time to curing his Parishoners and the poor in New York of these dreadful complaints, which carry thousauds and thousands to an untimely grave; he has seldom failed to cure all who have applied to him for relief, and believing it to be a Christian's duty to relieve those abroad, as well as at home, he will send to those requiring it, a Copy of Prescriptions used, (Free of Charge,) with directions for preparing and using the same.—Also rules on Diet, Bathing, Ventilation and Exercise for the Sick, they will find these remedies a sure cure for Consumption, and all diseases of the Throat and Lungs, Fever and Ague, Constipation, Heart Disease, Dyspepsia, Nervous Debility, and Female Complaints, and he hopes every one afflicted will send for copy, as it will cost nothing, and those suffering should apply before it is too late. These Prescriptions are used by the most eminent Physicians in London, Paris and New York. Those wishing them will please address

REV. DR. CHAMBERLAIN,
Williamsburgh, New York.

GREAT DISCOVERY!!!—Ample tests, both by able practitioners and chemical analysis, have demonstrated the great value of Prof. DeGrath's beautiful combination, called "ELECTRIC OIL," for the relief and cure of pain. But the people taemselves are rendering their verdict in a manner both unmistakeable and satisfactory. More than 20,000 bottles have been sold in a very short time, a great proportion to those who heard others recommend it, who had tried it. That it's a splendid discovery is everywhere acknowledged, and nothing like it was ever before prepared.

The only genuine Electric Oil is Prof. DeGrath's which is to be had at all the respectable Druggists in the land, and at wholesale and retail, at the proprietors prices of the agent. jy10-4m

DIED.

In the Neck district, in this county, on the 4th inst., of *Phthisis Pulmonalis*, ELIZABETH M., eldest daughter of Henry and Emeline Elliott, aged 14 years and 11 days.

OBITUARY.

It is hard to part with such a child, nor does He, who himself wept at the tomb of Lazarus, forbid the sympathizing tear. Lizzy was a lovely, amiable and affectionate daughter.—She possessed many attractive qualities, which rendered her a pet to her parents and friends, and beloved by all who knew her. The unusual degree of respect and confidence with which her schoolmates and acquaintances regarded her, bears testimony to her amiable disposition. She was the object of many fond hopes, but God saw fit in his infinite wisdom to blast those hopes and take her to himself. Her removal is an inscrutable and painful mystery, which can only be explained by the light of eternity. May the bereaved parents and sympathizing friends prepare to meet her in that world where tears and sorrows never enter. R. W. W.

THE ORPHANS' COURT of Dorchester county will sit on MONDAY, the 18th of November.

TEACHER WANTED.

WANTED as tutoress in a private family living in a pleasant neighborhood in Dorchester county, a young lady, capable of teaching the English branches and music.—Good references required. For terms apply to the office of the Democrat, Cambridge, Md. nov6

Gutta-Percha Roofing.

NO article ever before introduced to the public has equaled the LIQUID GUTTA-PERCHA for coating tin or other roofs, new or old. One gallon, costing $1 50, will thoroughly coat from 200 to 300 feet of roof, and this coating will render the roof perfectly waterproof, and will last three times as long as white lead or other paint. For covering roofs, either new or old, we repeat, it has no equal for durability and cheapness, and we offer it to the public fully confident of its intrinsic excellence, and with our warrantee that it will do all we claim for it. Sold in barrels of forty gallons each, at a liberal discount to dealers. Address all orders to

FINKLE & LYON SEWING MACHINE CO.

538 Broadway New York.

NO person who contemplates purchasing a Sewing Machine for family or manufacturing purposes, should fail to send for one of our circulars, which contains cuts and full descriptions of the several styles, prices and samples of work, all of which we send by mail free. We claim to have the

Best Sewing Machines in the World for either Family or Manufacturing Purposes.

IMPORTANT FACTS.]

Fact No. 1.—This company being duly licensed, their Machines are protected against infringements or litigation.

Fact No. 2.—These machines make the lock-stitch—alike on both sides—and use a little less than half as much thread and silk as the chain or loop-stitch machines.

Fact No. 3.—These machines are better adapted than any other sewing-machines in the market to the frequent changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marsailles without stopping, and make every stitch perfect. They will even sew from the finest gauze to the heaviest cloth, and even stout, hard leather, without changing the feed, needle or tension, or making any adjustment of machine whatever. Is not such a machine best adapted to family use? and if BEST adapted to family use, why not for every variety of light sewing manufacture? For work too heavy for our Family Machine, we recommend our larger sizes.

Fact No. 4.—These Machines make the most elastic seam of any sewing machine in use—a fact of very great importance in sewing elastic goods, or goods of any kind, on a bias.

Fact No. 5—No Machine is more durable or more simple in its construction, or more easily understood. The reputation of these Machines wherever used will fully demonstrate each of the above facts.

Fact No. 6.—These Machines took the highest premium at the Franklin Institute, Phila.

Fact No. 7.—These Machines took the highest premium at the N. Jersey State Fair.

Fact No. 8.—These Machines took the highest medal at the American Institute, in the City of New York, together with the highest premium for fine Sewing Machine work.

Fact No. 9 —These Machines took both the highest premiums at the Mechanics' Fair, Utica, N. Y.

Fact No. 10.—These Machines can do the SAME thing generally, whenever properly exhibited in competition with other first-class sewing machines. But we have space for only one fact more—it is the most important fact of all.

Fact No. 11.—*We warrant every Machine we sell to give better satisfaction than any other Sewing Machine in the market, or money refunded.*

Important if True!

And every Word is True!

FOR upwards of three years past, I have been engaged in a business, which has yielded me at the rate of $3,000 per annum, but being desirous of going to Europe in the course of a few months for the purpose of there introducing the business, I am willing to teach it to any one who will send me $1. The business is no humbug, but of a highly useful and general character, adapted both to cities and villages, and one that any person of ordinary capacity, young or old, male or female, can acquire with a few hours' practice, and by which they can secure a very handsome income. Several young ladies who have received instructions from me, both in New York and Pennsylvania, are earning upwards of $20 per week by it, and there is no reason why any one else cannot do the same. Invalids, even, can do well by it, as it is no peddling affair, but a business that is perfectly respectable.—Gentlemen and ladies of leisure who would like to learn the business for their own amusement or pleasure, will find the practice of it a pleasant pastime, and one that they will take great interest in. On receipt of $1, I will send printed instructions by which any persoa can readily acquire the art, tnd these instructions will also contain every particular relative to the carrying it on so that it will be highly profitable. The purchaser of the "printed instructions" will also be authorized to teach it to others; and I have sometimes received as high as $200 for teaching it personally to a single individual. I would state further that $2 50 or $3 00 will buy everything that is necessary to commence the business with, and the articles can be got almost anywhere, in city or country, or, if preferred, I can furnish them. oct24-1y

A fresh stock of Ladies' Hoods, just received at J. G. ROBINSON'S.

Wilcox & Gibbs' SEWING MACHINES,

Price with Hemmer & Feller, $35 00.

THIS MACHINE HAS POINTS OF SUPERIORITY PECULIARLY ITS OWN.

Stitching, Hemming and Felling with a Single Thread.

IT forms a flat, even and elastic seam, which is WARRANTED not to rip up in wear, even if the seam is cut at frequent intervals, and also under all circumstancas to "survive the wash-tub."

A Patented device of great utility to learners, prevents the possibility of the machine being run in the wrong direction, or the balance-wheel wearing a lady's dress.

Another feature which deserves particular attention is ☞The Wilcox Patent Needle cannot be set wrong.

Two thousand Stitches or two yards of work can be done in one minute without dropping a stitch.

These Machines so simple and accurate in their oonstruction, supersede the use of the shuttle; and with one thread produce all the practical results of the two thread machines; and more, for these fell without basting, and hem the finest muslin without puckering.

Although at about half the price of the other first class machines, they will accomplish double the sewing in a given time.

"It is emphatically the good, low priced Family Sewing Machine that the public have long been waiting for."—Boston Transcript.

"It is indeed a wonderful production, and for family use especially, no other will bear any comparison with it."—Philadelphia Evening Journal.

"A mechanical wonder."—Scientific American.

"Among the best and most serviceable Sewing machines. Light and elegantly finished, and so simple in its construction that it seems almost impossible for it to get out of repair."—Pittsburg Chronicle.

"Has combined with its own peculiar merits all the really valuable improvements of the higher priced machines."—Pennsylvanian.

"This machine, in the opinion of the committee, fills more nearly the requirements of a perfect family machine than any on exhibition"—Franklin Institute Exhibition Report of 1858.

"Taking into consideration simplicity, cheapness, durability and doing all work, the committee were unanimously in favor of the Wilcox & Gibbs as a single thread machine."—Pennsylvania State Agricultural Society's Report.

"We must, in justice, express our confidence in the merits of the Wilcox & Gibbs sewing Machine. We consider that a great desideratum has been supplied by it, in proving, beyond doubt, that two threads are not, as was supposed, necessary to a good instrument."—Christian Advocate and Journal, June 21 '60.

"We have one of these machines in use, and think more highly of it than of any of the number we have tried."—Richmond Whig.

The undersigned, Missionary to Constantinople, has examined more than twenty different kinds of Sewing Machines, and after some six weeks' experience with Wilcox & Gibbs' Patent, he has purchased one of them, as the best adapted to the wants of his family, and as the least liable to require repair.

OLIVER CRANE.

Boston, July 3, 1860.

The undersigned, during eighteen months, has had in almost constant use, in his family, a Wilcox & Gibbs Sewing Machine, upon which has been made the clothes of his large family—from muslin to pilot cloth—including the clothing required for his several boys; and in no case have the seams failed, although in hard service. The machine now in use in his family has required no repair, and is, in all respects, well appointed, efficient and durable.

MARK THESE FACTS!

The Testimony of the Whole World.

Holloway's Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS.

ALL description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is a folly; for should the skin unite, a boggy diseased condition remains underneath to break out with tenfold fury in a few days. The only rational and succesful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Ointment as salt is forced into meat.

DIPTHERIA, ULCERATED SORE THROAT, AND SCARLET AND OTHER FEVERS.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate, and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. Whoever rubs the unguent in the above manner for the diseases named, or any similar disorders affecting the chest and throat, will find themselves relieved as by a charm.

PILES, FISTULAS, STRICTURES.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. Then again bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.

INDISCRETIONS OF YOUTH—SORES AND ULCERS.

Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system and leave the patient a vigorous and healthy. It will require time with the use of the Pills to ensure a lasting cure.

DROPSICAL SWELLINGS, PARALYSIS AND STIFF JOINTS.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Ointment is diligently rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Gout,
Bad Breasts,	Glandular Swellings,
Burns,	Lumbago,
Bunions,	Piles,
Bite of Mosquitoes	Rheumatism,
and Sand-Flees,	Scalds,
Coco-bay,	Sore Nipples,
Chiego foot,	Sore-Throats,
Chilblains,	Skin-Diseases,
Chapped Hands,	Scurvy,
Corns, (Soft)	Sore-Heads,
Cancers,	Tumors,
Contracted and Stiff	Ulcers,
Joints,	Wounds,
Elephantiasis,	Yaws.
Fistulas,	

☞CAUTION!—None are genuine unless the words, '*Holloway, New York and London,*' are discernible as a *Water-mark* in every leaf of the book of directions around each pot or box; the same may be plainly seen by *holding the leaf to the light.* A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines, or vending them to be spurious.

**Sold at the Manufactory of Professor HOLLOWVY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cents, 63 cents and $1 each.

☞There is considerable saving by taking the larger sizes.

N. B. Directions for the guidance of patients in every disorder are affixed to each box.

NATIONAL POLICE GAZETTE.

This great journal of Crime and Criminals is in its fifteenth year, and is widely circulated throughout the country. It contains all the Great Trials, Criminal Cases and appropriate Editorials on the same, together with information on Criminal Matters, not to be found in any other newspaper.

☞Subscriptions $2 per annum; $1 for six months—to be remitted by subscribers, (who should write their names and the Town, County and State where they reside plainly,) to

GEO. W. MATSELL & CO.,
Editors and Proprietors of the National Police Gazette, New York City.
