is a weakening one. With a border of thousands of miles it is impossible to defend much of it successfully. The enemy, secure in his territory, fearing nothing from us, has but to concentrate a large body of his forces at any desirable position, and it is taken. Many are the advantages certainly lost to us; our weakness at different points is known; we lose the benefit of strategic movements; we give away in fact, to the enemy time, place and circumstances to operate against our extensive frontier

This struggle will be prolonged till the North *feels the horrors of warfare*. Teach them what the desolations of the firesides mean — Let the dread and danger of war excite their homes and let painful anxieties surround their habitations. Then will we secure the peace that await them to give us.

Invade their country; subsist on the abundant fruits of their tillage and their manufactures; press in service their vehicles of transportation and support our armies at their expense.

Such a war would thrill the South from the Potomac to the Rio Grande. Every heart would swell with joy; every eye beam with delight. The military excitement, we know would be intense, and the army ranks be increased tenfold; popular enthusiasm would support this turn in affairs, and thus would we conquer an abiding peace.

The soldier's cares would be forgotten, and a new scene dazzle his vision, and the banner of his pride, now drooping for active fields of glory, would be borne aloft to gain imperishable honors in its country's cause.

Call for Troops.

LOUISVILLE, Feb 27.—The New Orleans *Bee* confesses to the magnitude of the calamity at Fort Donelson and condemns the neglect and apathy of the Confederate Government in not sending sufficient numbers of troops westward. It says a general call to arms has become an inevitable necessity.

The Memphis *Avalanche* of the 22d says that the Governor of Alabama has called for twelve regiments from that State, and if not forthcoming other means will be used to fill the requisition.

The Governor of Georgia calls also for twelve regiments from that State, and says if the requisition is not filled by the 4th of March a draft will be ordered.

A company near Kingston, Boston county, is preparing to turn out one thousand pounds of salpetre from a salpetre cave in that vicinity.

The peach and plum trees in Rome, Georgia, are blooming, and the wheat crop is promising and almost too forward.

HOLLOWAY'S PILLS & OINT-
Doubt at an end. *Consumption.*—Can consumption be cured? is a question that has long agitated the medical world—the answer is of vital importance to the community at large. The numerous cases of prevention resulting from the timely use of Holloway's Pills and Ointment, together with the actual cures of many in an advanced stage would seem to indicate a positively reply to the above query It is a well known fact that the Ointment will arrest inflamation in its most rapid progress—so that if well rubbed into the chest and back it will penetrate to the very lungs and prevent the spreading of the disease; while the Pills by their anti spectic action will restore the organs to a sound and healthy condition. Delays are dangerous—a dry tickling cough is the first symprom of the disease.

BENJAMIN FRANKLIN AND
Prof. De Grath.—Franklin brought electricity from the heavens to earth, but it remained for Prof. De Grath to apply that electricity to the relief of diseased and suffering mortals—disease that heretofore baffled the physican's old treatment, such as Rheumatism, Pains, Stiff Joints, Deafness, Swellings, Sores, on man or beast, are now cured by Prof. De Grath's Electric Oil *in one or two days*. Read this letter

PROF. DE GRATH: I have been the victim for many years of a Rheumatic affection, and lost the use of my limbs. I could not limp, in short, I was totally helpless I applied *your Electric Oil, and before I had used one bottle I was perfectly restored.* You may refer any sufferer to me. MRS. E. HUTCHINS;

NOW, ARE DR. HURD'S PREPARATIONS GOOD?

The best evidence that they are is, that their firmest friends and best patrons are those who have used them longest. Dr. William B. Hurd is an eminent Dentist of Brooklyn, Treasurer of the New York State Dentists' Association, and these preparations have been used in his private practice for years, and no leading citizen of Brooklyn or Williamsburgh questions their excellence, while eminent Dentists of New York recommend them as the best known to the profession Without the aid of advertising, dealers have sold them by the gross

The Editor of the *Brooklyn Daily Times* says:—"We are happy to know that our friend Dr. Hurd; is succeeding beyond all expectations with his MOUTH WASH and TOOTH POWDER. The great secret of his success rests with the fact that his articles are precisely what they are represented to be, as we can testify from their long use."

The well-known P. T. Barnum writes:—"I found your TOOTH POWDER so good that my family have used it all up. We find it the best powder for the Teeth that we ever used. I shall feel obliged if you will send me another supply at the Museum at your convenience, with bill."

But their cost is so small that every one may test the matter for himself.

☞ Beware of the otdinary Tooth Powders. Dr Hurd's Tooth Powder contains no acid, nor alkali, nor charcoal, and polishes without wearing the enamel. Use no other.

NEURALGIA PLASTERS.

Dr. Hurd's Neuralgia Non Adhensive Plasters are the most pleasant and successful remedies ever prescribed for this painful disease The patient applies one, soon becomes drowsy, falls asleep, and awakes free from pain, and no blister or other unpleasant or injurious consequences ensue. For Earache and Nervous Headache, apply according to directions and relief will surely follow. Nothing can be obtained equal to Dr. Hurd's Compress for Neuralgia. Try them They are entirely a novel, curious, and original preparation, and wonderfully successful They are of two sizes one small, for the face, price 15 cents, and the other large, for application to the body, price 37 cents. *Will be mailed on receipt of price and one stamp.*

WHAT ARE THE PEOPLE DOING?

The American people are intelligent enough to appreciate preparations that contribute so much to the happiness of those using them, and they want them. Every mail brings us letters, some ordering the Treatise on Teeth, some the Neuralgia Plasters, and not a few enclosing 37 cents or the Mouth Wash, to be sent by mail; but to these we are compelled to reply that it is impossible to send a half pint bottle by mail. The people want these remedies. *Who will supply them?*

Now is the

CHANCE FOR AGENTS.

The trying times of the nation's history in which we live, render a

an indispensable necessity to every man who would keep himself informed of the important events which are daily transpiring. To furnish a paper which will meet the just expectations of the public in such a time as the present, requires an amount of labor and of extraordinary expense of which the community at large have no conception. The Publisher of THE PHILADELPHIA INQUIRER, has spared no effort or money to make it all that it could be made Besides improving and strengthening the home force during the past year, several of the best Reporters and Letter Writers in the country, have been sent at a great expense, with the Army and Navy, and have frequently given the public the first and fullest accounts by telegraph and by mail, of important events at the Seat of War. THE INQUIRER was the first northern paper to give the account of the Hatteras and Port Royal victories, and was twelve hours in advance of any paper in the country, in its publication of the details of the Bull Run Battle. What THE INQUIRER has done, is but an earnest of what will be done, in order to give its readers the earliest and best accounts of every event of interest connected with

THE GREAT REBELLION,

and at the same tive have it maintain its reputation as the best general newspaper in the country.

The increase in circulation of THE INQUIRER during the year, is th best evidence of the extent to which the public rely upon it for the news of the day. Its circulation has averaged for several months past,

OVER TWO HUNDRED THOUSAND COPIES!

a week, or nearly FORTY THOUSAND A DAY: and it has, during the year, in times of excitement reached OVER SEVENTEEN THOUSAND a day—testing the capacity of our fast press to the utmost to supply the demand. It commenced the New Year with new and beautiful Copper-faced Type, and with renewed vigor and activity in its News and Editorial departments.

The INQUIRER is independent in politics.

The Science of Health.
Every Man his own Physician.
Holloway's Pills.

THE laws relating to health are so exceedingly simple as to be within the comprehension of the most limited capacity. Disease is an effect—the violation of some principle of nature, consequently the infraction of her laws is invariably punished with pain and suffering. Medical writers classify the predisposing causes under two heads:

An unhealthy condition of the Stomach and a depraved state of the Blood.

DISORDERS OF THE STOMACH, LIVER AND BOWELS.

The Stomach is the great centre which influences the health or disease of the system—abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences Allied to the brain it is the source of headaches, mental depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by costiveness, diarrhoea and dysentery. The principal action of these Pills is on the stomach and the liver, lungs, bowels and kidneys, participate in their ecuperative and regenerative operation.

IMPURE BLOOD—SCROFULOUS AFFECTIONS.

Old Sores, Bad Legs, Irritable and Indolent Ulcers, Scrofula, Consumption, Salt Rheum, King's Evil, White Swellings, Cancers, &c., are the result of tainted or impoverished blood By combining with the globules which compose the vital fluid; the antiseptic qualities of these Pills neutralize the humors that degenerate it and a positive cure of any of the above diseases will speedily follow, while Holloway's Balsamic Ointment used at the same time will heal the external sores or swellings.

FEMALE COMPLAINTS.

Whether in the young or old, married or single, at the dawn of Womanhood or the turn of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

INFANTILE DISEASES.

These Medicines have been prescribed with invariable success in all disorders affecting childhood. Thousands of cases of Mumps, Croup, Whooping Cough, Cholera Infantum, Teething, Worms, &c., have been happily cured by these mild remedies after all other means had failed.

Holloway's Pills are the best remedy known for the following disease.

Ague,	Inflamation,
Asthma,	Jaundice,
Blotches on the Skin,	Lumbago,
	Piles,
Bowel Complaints,	Rheumatism,
Colics,	Retention of Urine,
Debility,	Stone and Gravel,
Dropsy,	Secondary Symptoms
Erysipelas,	Tumors,
Fevers of all kinds,	Veneral Affections,
Fits,	Weakness from whatever cause,
Gout,

PHILADELPHIA, June 9th, 1856.

PROF. DE GRATH: I have been afflicted for thirteen years with Neuralgia and other painful complaints, and I have been unable to sleep soundly or walk any distance for many years past. Last week I got a bottle of your "Electric Oil." The first night I slept soundly and well, and to day I am like a new man. My wife could not believe her eyes. FINKLE & LYON
SEWING MACHINE CO.
538 Broadway New York.

NO person who contemplates purchasing a Sewing Machine for family or manufacturing purposes, should fail to send for one of our circulars, which contains cuts and full descriptions of the several styles, prices and samples of work, all of which we send by mail free. We claim to have the

Best Sewing Machines in the World for either Family or Manufacturing Purposes.

IMPORTANT FACTS.

Fact No. 1.—This company being duly licensed, their Machines are protected against infringements or litigation.

Fact No. 2.—These machines make the lock-stitch—alike on both sides—and use a little less than half as much thread and silk as the chain or loop-stitch machines.

Fact No. 3.—These machines are better adapted than any other sewing-machines in the market to the frequent changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marsailles without stopping, and make every stitch perfect. They will sew from the finest gauze to the heaviest cloth, and even stout, hard leather, without changing the feed, needle or tension, or making any adjustment of machine whatever. Is not such a machine best adapted to family use? and if BEST adapted to family use, why not for every variety of light sewing manufacture? For work too heavy for our Family Machine, we recommend our larger sizes.

Fact No. 4.—These Machines make the most elastic seam of any sewing machine in use—a fact of very great importance in sewing elastic goods, or goods of any kind, on a bias.

Fact No. 5.—No Machine is more durable or more simple in its construction, or more easily understood. The reputation of these Machines wherever used will fully demonstrate each of the above facts.

Fact No 6.—These Machines took the highest premium at the Franklin Institute, Phila.

Fact No 7.—These Machines took the highest premium at the N. Jersey State Fair.

Fact No. 8.—These Machines took the highest medal at the American Institute, in the City of New York, together with the highest premium for fine Sewing Machine work.

Fact No 9.—These Machines took both the highest premiums at the Mechanics' Fair, Utica, N. Y.

Fact No. 10.—These Machines can do the SAME thing generally, whenever properly exhibited in competition with other first class sewing machines. But we have space for only one fact more—it is the most important fact of all.

Fact No. 11.—*We warrant every Machine we sell to give better satisfaction than any other Sewing Machine in the market, or money refunded.*
