I Recd. your favr. of the 10th Instant. and did not expect you would have sent a Wagon untill next Week for it was then I told you I could make up 25 Hhds however as you sent wn you have I made all the Dispatch possible and indeed more than I expected for instead Wheeler going to both houses where I leaded him at this. he would have gone away last Night with 20 but I insisted for him to take the Complement you mentioned to me in yours. which I knew would be here very Early this morng. I would have him go to Tooys and there would make up 30 but I think he has as much as he safely can carry. your sending unexpected has put me to some trouble for the Man told me he could carry 30 Hhds but I believe he was mistaken. The next time I tell you to send for Tobo. I'll be sure to take more time. I have paid Mr Hynson his Balance he says you owed him for the Tobo. and have recd a letter from Mr Geddes wherein he says Mr Voorhees was down and could not make up the money therefore if you can possibly supply me with a few pounds you'll much oblige

your Sincere Obt Servt
